# DHS OIG HIGHLIGHTS

## *DHS Contracts and Grants Awarded through Other Than Full and Open Competition FY 2015*

**April 5, 2016**

### **Why We Did This Audit**

On March 4, 2015, Congress enacted Public Law 114-4, *Consolidated Appropriations Act, 2015*. According to Section 518(a), the Secretary of Department of Homeland Security (DHS) shall submit a report not later than October 15, 2015, to the Office of Inspector General, listing all grants and contracts awarded by any means other than full and open competition during fiscal year (FY) 2015. As required, we reviewed the report and assessed departmental compliance with applicable laws, regulations, and departmental procedures.

### **What We Recommend**

We made no recommendations.

#### **For Further Information:**

Contact our Office of Public Affairs at (202) 254-4100, or email us at [DHS-OIG.OfficePublicAffairs@oig.dhs.gov](mailto:DHS-OIG.OfficePublicAffairs@oig.dhs.gov)

### **What We Found**

In FY 2015, DHS awarded 453 noncompetitive contracts worth about \$229 million. This represents a downward trend of more than \$3 billion obligated through noncompetitive contracts over an 8-year period. We reconciled the Department's FY 2015 contract listing against the Federal Procurement Data System and found that the data between the two lists were more than 99 percent identical.

Also in FY 2015, DHS awarded 63 noncompetitive grants worth about \$127 million. Although one noncompetitive grant worth approximately \$419,000 did not meet accuracy, timeliness, or completeness standards, more than 98 percent did meet the requirements as set forth in the *Federal Funding Accountability and Transparency Act of 2006*.

### **Agency Response**

Since there were no recommendations, DHS did not provide management comments to the final report.

## OFFICE OF INSPECTOR GENERAL

Department of Homeland Security

Washington, DC 20528 / [www.oig.dhs.gov](http://www.oig.dhs.gov)

APR 5 2016

MEMORANDUM FOR: Soraya Correa  
Chief Procurement Officer  
Office of the Chief Procurement Officer

FROM: Mark Bell *Mark Bell*  
Assistant Inspector General for Audits

SUBJECT: *DHS Contracts and Grants Awarded through  
Other Than Full and Open Competition FY 2015*

Attached for your action is our final report, *DHS Contracts and Grants Awarded through Other Than Full and Open Competition FY 2015*. The report reviews the Under Secretary for Management's Report and measures taken to enhance the effectiveness of both contract and grant oversight programs.

The report contains no recommendations. Your office did not provide formal management comments.

Consistent with our responsibility under the *Inspector General Act*, we will provide copies of our report to congressional committees with oversight and appropriation responsibility over the Department of Homeland Security. We will post the report on our website for public dissemination.

Please call me with any questions, or your staff may contact Don Bumgardner, Deputy Assistant Inspector General for Audits, at (202) 254-4100.

**OFFICE OF INSPECTOR GENERAL**  
Department of Homeland Security

**Background**

According to the *Competition in Contracting Act of 1984*, with limited exceptions, contracting officers are required to promote and provide for full and open competition in soliciting offers and awarding Federal Government contracts. The Federal Acquisition Regulation (FAR) codifies uniform policies for acquiring supplies and services by executive agencies and requires Federal agencies to collect and report data to the Federal Procurement Data System – Next Generation (FPDS).

The government uses the data in FPDS to measure and assess the impact of Federal procurement on the Nation’s economy; the system includes information on funds obligated and the extent of competition. The Office of Federal Procurement Policy requires Federal agencies to certify annually that the data entered into FPDS is accurate and complete. We used the data in this system to review noncompetitive contracts.

As depicted in figure 1, the Department’s process for awarding contracts through other than full and open competition begins when acquisition personnel identify a need. These acquisition personnel are to perform market research to determine the most suitable approach to acquire, distribute, and manage supplies and services to support the Department’s mission. Next, acquisitions are planned to help ensure that the government is meeting its needs in the most effective, economical, and timely manner.

## OFFICE OF INSPECTOR GENERAL

Department of Homeland Security

---

In September 2006, Congress passed the *Federal Funding Accountability and Transparency Act of 2006* (FFATA), which required the Office of Management and Budget (OMB) to ensure the existence and operation of a single searchable website for all Federal contracts and grants. FFATA requires that entries be updated not later than 30 days after the award of any Federal award requiring a posting. In December 2007, the website USAspending.gov was first launched to fulfill these requirements.

In June 2013, OMB issued the memo *Improving Data Quality for USAspending.gov* to agency Chief Financial Officers. OMB stated that to ensure USAspending.gov is providing current and accurate information, OMB and Federal agencies must take steps to ensure data reliability and quality.

OMB required agencies, by October 1, 2013, to develop and implement procedures to validate USAspending.gov data, and within 60 days of the close of each quarter to report to OMB the accuracy rate of USAspending.gov data based on the Department's validation process.

Based on the validation process, OMB required that by November 15, 2014, agencies must:

- make assurances that USAspending.gov data is correct;
- have adequate internal controls over the underlying spending; and
- have implemented processes to ensure data completeness and accuracy on USAspending.gov.

On March 4, 2015, the Congress enacted Public Law 114-4, *Department of Homeland Security Appropriations Act, 2015*. According to Section 518(a) of the law, the Secretary of Homeland Security shall submit a report not later than October 15, 2015, to DHS OIG listing all grants and contracts awarded by any means other than full and open competition during fiscal year (FY) 2015. Section 518(b) requires the Inspector General to review the report required by subsection (a) to assess Departmental compliance with applicable laws and regulations and report the results.

As required by law, we reviewed the DHS Secretary's report (the Department's Report) provided by the Under Secretary for Management on October 2015, listing all contracts and grants awarded by any means other than full and open competition (noncompetitive) during FY 2015; and assessed departmental compliance with applicable laws, regulations, and departmental procedures.

## OFFICE OF INSPECTOR GENERAL

Department of Homeland Security

### Results of Audit

DHS awarded 453 new contracts, obligating approximately \$229 million in FY 2015 to noncompetitively procure goods and services. This represents a drop of more than \$3 billion obligated through noncompetitive contracts since FY 2008; see figure 2.

**Figure 2: OTFOC Obligation Amounts (in millions)**

Source: DHS OIG<sup>1</sup> analysis of DHS Under Secretary for Management provided data

In addition, DHS noncompetitively awarded 63 grants worth about \$127 million in FY 2015, which is similar to FY 2014, when DHS awarded 66 grants worth approximately \$126 million.

In October 2015, as required by P.L. 114-4, section 518(a), DHS submitted to us a listing of all noncompetitively awarded contracts and grants in FY 2015 (see appendix C). As required in P.L. 114-4, Section 518(b), we reviewed DHS' FY 2015 noncompetitive contracts and grants listing to assess departmental compliance with applicable laws, regulations, and departmental procedures.

<sup>1</sup> Although categorized in FPDS in FY13 as a Noncompetitive Contract Obligation, we did not include the U.S. Coast Guard's #6 National Security Cutter award in this summation. This one sole source contract action obligated about \$487 million, but we considered it separately as part of the Coast Guard's ongoing acquisition program.

**OFFICE OF INSPECTOR GENERAL**  
Department of Homeland Security

**Noncompetitive Contracts Listed in FY 2015**

We reviewed DHS’ annual certification of FPDS data quality submitted by the Department’s components. We also compared the Department’s Report to the list of FPDS noncompetitive contracts awarded in FY 2015, reviewing key data elements for completeness and accuracy (see appendix A for details).

We conducted a detailed review of the annual certifications for FPDS data quality submitted to the Department by the Coast Guard, U.S. Immigration and Customs Enforcement (ICE), Transportation Security Administration (TSA), and U.S. Customs and Border Protection (CBP) in our prior audit (OIG-15-59). We also reviewed DHS’ FYs 2013 through 2015 Data Quality Reports (DQR) and noted the following overall accuracy rate for other than full and open competition data; see table 1.

**Table 1: DHS Accuracy Rates for OTFOC Contracts by Fiscal Year**

	<b>2013</b>	<b>2014</b>	<b>2015</b>
<b>DHS</b>	92.3%	92.7%	97.2%

Source: DHS OIG analysis of DHS DQRs

DHS also certified the following in its 2015 DQRs:

- 1) Of their reportable contract actions, 94.3 percent were entered into FPDS within appropriate time frames and in accordance with applicable guidelines.
- 2) The results of their statistical sampling were derived using the agency’s data quality assurance procedures and appropriate sampling techniques.
- 3) Agency policies, procedures, and internal controls include regular reviews of qualitative data, such as performance and integrity data, to assess the quality of the information provided.
- 4) Agency policies, procedures, and internal controls include regular reviews of contractor provided data to assess compliance with reporting requirements and the completeness of the data.

Based on statistical sampling, DHS is continually improving FPDS accuracy and completeness. Additionally, we compared the Department’s Report to a list of all FY 2015 contracting activities in FPDS and found that the data were more than 99 percent identical. DHS noncompetitively awarded 453 contracts in FY 2015 worth approximately \$229 million. As shown in table 2, the Coast Guard awarded the most noncompetitive contracts in FY 2015.

## OFFICE OF INSPECTOR GENERAL

Department of Homeland Security

**Table 2: Number and Obligation Amounts of Noncompetitive Contracts Awarded in FY 2015 by Component**

<b>Component</b>	<b>Number of Contracts</b>	<b>\$ Amount (in millions)</b>
<b>Coast Guard</b>	245	\$ 87.9
<b>FEMA</b>	42	\$ 30.4
<b>TSA</b>	30	\$ 22.9
<b>USCIS</b>	15	\$ 22.0
<b>CBP</b>	38	\$ 19.8
<b>ICE</b>	12	\$ 19.7
<b>Others*</b>	71	\$ 26.0
<b>TOTAL</b>	<b>453</b>	<b>\$ 228.7</b>

Source: DHS OIG analysis of FPDS data (Dollar amounts may not add to actual total due to rounding.)

\*Others includes: Federal Law Enforcement Training Center (FLETC), Office of Procurement Operations (OPO), OIG, and Secret Service.

Following FAR 4.6 and the *Homeland Security Acquisition Manual* (HSAM), we reviewed the data elements for all noncompetitive contracts as entered in FPDS and found that the entered data elements were consistent with the guidelines. We identified some inconsistencies in the Procurement Instrument Identifier numbers that did not meet the nomenclature requirements outlined in HSAM; however, we determined these variances were immaterial and that data in the Department's list were overall accurate and complete.

### **DHS Used Noncompetitive Contracts Mostly for Non-R&D Services**

From FY 2013 through FY 2015, DHS obligated approximately \$814 million for contracts awarded through other than full and open competition. Most of the Department's noncompetitive obligations — \$521 million — were for non-research & development ("non-R&D") services that include professional and administrative support, custodial services, and building maintenance. A third of the obligated amounts — \$267 million — were for "supplies & equipment" that included procuring items such as radar and security systems, or ADP software. The remaining 3 percent of the obligated funds were for "research & development," as shown in figure 3.

**OFFICE OF INSPECTOR GENERAL**  
Department of Homeland Security

**Figure 3: Percent of Noncompetitive Obligations of Products and Services from FY 2013 – FY 2015**

Source: DHS OIG analysis of FPDS data

**Noncompetitive Grants Listed in FY 2015**

In October 2015, the Department report identified 435 grants worth approximately \$1.8 billion that were noncompetitively awarded in FY 2015. However, 372 of the grants — worth approximately \$1.7 billion — were grants awarded by FEMA through legislative mandates, which is not part of OTFOC. We reviewed the other 63 grants — worth approximately \$127 million — to assess departmental compliance with applicable laws and regulations. To ensure the grants met FFATA requirements, we analyzed and compared the Department Report’s grant list to USAspending.gov.

As shown in table 3, of the 63 noncompetitive grants listed in the Department’s Report, the Coast Guard had awarded 56 — worth approximately \$102 million — through its Boating Safety program. All 56 Coast Guard grants were entered in USAspending.gov and had matching information when compared to the Department’s Report.

## OFFICE OF INSPECTOR GENERAL

Department of Homeland Security

**Table 3: Number and Obligation Amounts of Noncompetitive Grants Awarded in FY 2015 for Each Component**

<u>Components</u>	<u>Number of Grants</u>	<u>\$ Amount</u>
ICE	1	\$ 305,000
NPPD	1	\$ 12,945,735
S&T	3	\$ 1,558,722
USCG	56	\$ 101,970,350
USCIS	2	\$ 9,821,500
<b>TOTAL</b>	<b>63</b>	<b>\$ 126,601,307</b>

Source: DHS OIG analysis of the Department's Report

The Grants and Financial Assistance Division (GFAD) provided grants management services to DHS components for the seven remaining grants (see appendix B for details). All grants awarded by ICE, National Protection and Programs Directorate (NPPD), and U.S. Citizenship and Immigration Services (USCIS) were entered in USAspending.gov and had matching information when compared to the Department's Report. However, one out of the three Science and Technology (S&T) grants was unidentifiable in USAspending.gov, as listed in the Department's Report.

A GFAD official has confirmed that GFAD was not able to find an award for this funding amount. As a result, one grant for \$418,722 had been awarded, but the award information had not yet been successfully entered into USAspending.gov as of January 2016. This grant did not meet the timely, accurate, or complete data requirements.

Of the 63 grants that were noncompetitively awarded, only one grant listed in the Department's Report did not meet FFATA requirements for timely, accurate, and complete data in USAspending.gov. Sixty-two out of 63, or 98.4 percent, of the noncompetitive grants were entered timely into USAspending.gov. This is within the Office of the Chief Financial Officer's (OCFO) objectives of accurately reporting grant information to the public.

### Conclusion

Based on our review of the Department's Report listing noncompetitively awarded contracts and grants in FY 2015, DHS is in compliance with applicable laws and regulations. DHS is also continuing to improve its noncompetitive contracts data in FPDS. Maintaining reliable data allows the public to trust in the information the government provides and for Federal and elected officials to use that information to make informed decisions about government programs and projects.

## OFFICE OF INSPECTOR GENERAL

Department of Homeland Security

---

### Recommendations

We made no recommendations.

### Management Comments and OIG Analysis

Since there were no recommendations, DHS did not provide management comments to the final report.

### Objective, Scope, and Methodology

The Department of Homeland Security (DHS) Office of Inspector General (OIG) was established by the *Homeland Security Act of 2002* (Public Law 107-296) by amendment to the *Inspector General Act of 1978*.

We conducted this performance audit between October 2015 and February 2016 pursuant to *the Inspector General Act of 1978*, as amended, and according to generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based upon our audit objective. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based upon our audit objectives.

This report is our response to a statutory requirement that we review the Department's FY 2015 noncompetitive contracts and grants listing to assess compliance with applicable laws and regulations. Specifically, this report assesses (1) whether the Department's list includes key data elements that are required under contract reporting requirements; and (2) whether the Department's list is complete and accurate.

To address our objective, we reviewed and analyzed the Department's various policies and procedures over contract and grant reporting. For noncompetitive contracts, we generated and analyzed the Department's entire FY 2015 contract actions using FPDS and filtered the data to include only other than full and open competition contract actions. In addition, we compared our list to the Department's list, reviewing for key data elements to determine whether the list was complete and accurate.

For noncompetitive grants, we generated a list of all grants awarded by DHS in FY 2015 from USAspending.gov. We compared the Department's noncompetitive grant listing and reviewed all entries for accuracy and completeness. We obtained FY 2015's listing of all noncompetitively awarded grants from GFAD, FEMA, and the Coast Guard and reconciled the information

## **OFFICE OF INSPECTOR GENERAL**

Department of Homeland Security

---

and data to the Department's data. We also interviewed GFAD, FEMA, and Coast Guard personnel to understand their process in reporting other than full and open competition grants to the Department.

Given DHS' current downward spending trend on noncompetitive contracts and grants and DHS' continued improvement in accurately reporting noncompetitive contracts in FPDS, we relied on the assessment of internal controls over OTFOC reporting from our prior audit (OIG-15-59). DHS provided technical comments to our draft report. We reviewed the comments and determined no changes were necessary.

The Office of Audits major contributors to this report are Donald Bumgardner, Deputy Assistant Inspector General for Audit; Andrew Smith, Audit Manager; Jeff Mun, Auditor-in-Charge; Elizabeth Argeris, Communications Analyst; and Tessa May-Fraser, Independent Referencer.

## OFFICE OF INSPECTOR GENERAL

Department of Homeland Security

---

### **Appendix A**

### **Contract Reporting Requirements**

FAR Subpart 4.6, *Contract Reporting*, prescribes uniform reporting requirements for the Federal Procurement Data System – Next Generation (FPDS). It also requires agency Chief Acquisition Officers to certify within 120 days after the end of each fiscal year to the General Services Administration that their previous fiscal year's FPDS records are complete and accurate.

OMB Memorandum, *Improving Federal Procurement Data Quality – Guidance for Annual Verification and Validation* (May 31, 2011), describes the steps agencies are expected to take to ensure that FPDS data are reported correctly. Agencies are required to conduct statistically valid comparisons of their agency FPDS data and the underlying contract files.

Agency Procurement Data Quality Reports (DQR): Agencies use the DQR to report the results to DHS's Office of the Chief Procurement Officer. The DQR includes a template for reporting the overall accuracy rate of the sample as well as the accuracy for 25 key data elements. Some key data elements include type of contract, description of requirement, and whether the contract was awarded under other than full and open competition.

## OFFICE OF INSPECTOR GENERAL

Department of Homeland Security

---

### Appendix B

#### DHS Internal Control over Grants

Within the DHS Office of Chief Financial Officer (OCFO), the Division of Financial Assistance Policy & Oversight (FAPO) provides oversight related to accountability of funds, internal controls, and audit processing for grants. FAPO develops grant-related policy and oversees assistance programs and initiatives, which include coordinating functions with government-wide initiatives.

FAPO has been designated as the DHS point of contact for submission of the *Federal Funding Accountability and Transparency Act of 2006* (FFATA) financial assistance data, and was directed to apply appropriate internal controls to manage the submission process. Additionally, components must develop internal processes to meet all statutory and regulatory reporting requirements, and to implement the most efficient means of collecting and transmitting accurate grant data. Ultimately, components are responsible for the quality, accuracy, completeness, and timeliness of FFATA information reporting.

The FAPO defines completeness, accuracy, and timeliness as follows:

- **Completeness** means that all obligations reported in the component's financial statements, less exemptions, are reported on USAspending.gov.
- **Accuracy** means the Federal award amount on USAspending.gov matches the obligation amount in the component's financial system.
- **Timeliness** means that obligations were posted within 30 days of award to USAspending.gov

The *Financial Management Division's Component Requirement Guide* provides the components with a written policy and procedures to assess the data quality of the financial information in USAspending.gov. The components are required to perform a comparison at the transaction level to test accuracy and timeliness for data posted to USAspending.gov. If any of these metrics for completeness, accuracy, or timeliness falls below 95 percent, components are required to supply Corrective Action Plans to the division. This process has been in place and reviewed annually since FY 2011. Starting in 2014, these results have been reported to the Office of Management and Budget (OMB) on a quarterly basis.

Starting in FY 2013, FAPO began performing annual sample testing of financial assistance data in USAspending.gov against source documentation to test other key qualitative attributes beyond obligation amount. The sample testing

**OFFICE OF INSPECTOR GENERAL**  
Department of Homeland Security

along with the quarterly reconciliations after FY 2014 became the basis for the assurances over prime award data in USAspending.gov.

In August 2013, OCFO set the following goals for accurately reporting grant data in USAspending.gov:

<b>Objective 6.1. Accurately report financial assistance information to the public.</b>	<b>FY14</b>	<b>FY15</b>	<b>FY16</b>
Measure: Percentage of financial assistance data reported to USAspending that is complete and accurate.	85%	90%	95%
Measure: Percentage of financial assistance data reported to USAspending that is timely.	20%	40%	60%

Source: Financial Management Strategic Plan for FYs 2014–16 (August 2013)

Within DHS Office of Chief Procurement Officer (OCPO), GFAD oversees the grants management processes and procedures for departmental programs. GFAD assists DHS program offices with:

- development and pre-clearance preparation of grant funding announcements, and posting announcements to the government-wide website, Grants.gov;
- management of all application intake, negotiation, awards, post-award actions, and closeout; and
- currently providing grants management services to several DHS components.

OCT 22 2015

MEMORANDUM FOR: John Roth  
Inspector General

FROM: Russell C. Deyo   
Under Secretary for Management

SUBJECT: Statutory Requirement of Title V, Sec. 518. (a) of the  
*Department of Homeland Security Appropriations Act, 2015*  
(P.L. 114-4) - Report of Grants and Contracts Awarded by Any  
Means Other than Full and Open Competition During FY 2015

The *Department of Homeland Security Appropriations Act, 2015 (P.L. 114-4)* requires that the Secretary of Homeland Security shall submit a report not later than October 15, 2015, to the Office of Inspector General (OIG) of the U.S. Department of Homeland Security (DHS) listing all grants and contracts awarded by any means other than full and open competition during Fiscal Year (FY) 2015.

For grants, we are providing a summary table on page 2 and a complete listing for FY 2015 as an attachment. Because this listing excludes disaster grants awarded under the authority of the *Robert T. Stafford Disaster Relief and Emergency Assistance Act*, we are also providing as an attachment a legal opinion with the rationale for this decision. For contracts, we are providing instructions and direct access for you and your staff, as appropriate, to download the data files. Further, we have identified points of contact to help ensure that you are able to obtain what is needed to complete your review. Please reach out to them directly if you have any questions. Additional details regarding this grant and contract information are outlined below.

**Grants**

The table on page 2 summarizes by Component and dollar amount all grants (excluding disaster grants as noted above) awarded by DHS by any means other than full and open competition during FY 2015.

Details are in the attachments.

**Contracts**

Data on contracts awarded by DHS by any means other than full and open competition during FY 2015 comes from the Federal Procurement Data System (FPDS)-Next Generation (NG) database. Please note that the data files generated are too large to transmit by email, therefore, the Department has uploaded the files to a secure SharePoint site for the OIG to download. The location is EPIC – Electronic Procurement Information Center: <http://mgmt-ocpo-sp.dhs.gov/sites/epic/oss/OIGDocumentRequests/SitePages/Home.aspx>. This practice is consistent with the transmission of data files in prior years for audit engagements. For your reference, the Department has also included FPDS report instructions at this site. These instructions document the detailed procedures the DHS OCPO used to extract contract data from the FPDS-NG database.

The DHS OCPO Acquisition Systems Branch, Oversight and Strategic Support Division, is the source of the information provided herein. Please direct all inquiries to Ms. Pamela Campbell, [Pamela.Campbell@hq.dhs.gov](mailto:Pamela.Campbell@hq.dhs.gov) and Mr. Brian Horst, [Brian.Horst@hq.dhs.gov](mailto:Brian.Horst@hq.dhs.gov).
