## **EXECUTIVE SUMMARY**

Open Recommendations Over Six Months Old as of March 31, 2019

July 31, 2019

## Why Did We Prepare This Report?

Under the Inspector General Act of 1978, as amended by the Inspector General Empowerment Act of 2016, each Office of the Inspector General (OIG) is required to include in its Semiannual Report to Congress certain information related to outstanding recommendations. These reporting requirements were inspired by prior standing requests for information submitted to all OIGs by the Senate Committee on Homeland Security and Governmental Affairs, the House Committee on Oversight and Government, and Senator Charles Grassley.

This report was prepared to both fulfill the OIG's reporting obligation under the Inspector General Act as well as to continue providing the previously requested information to Congress.

As of March 31, 2019 there were 293 outstanding recommendations contained in reports that the OIG had issued to the U.S. Office of Personnel Management over six months old.

Type of Report	# of Reports	Total # Recs. Made	# Open Recs. as of 03/31/19

### I. INTERNAL AUDITS

This section describes the open recommendations from audits conducted by the Internal Audits Group. This group conducts audits of internal OPM programs and operations.

Rec. #	November 14, 2008	
1	Finding	Information Systems General Control Environment —Security policies and procedures have not been updated to incorporate current authoritative guidance and the procedures performed to certify and accredit certain financial systems were not complete. In addition, it was noted that application access permissions have not been fully documented to describe the functional duties the access provides to assist management in reviewing the appropriateness of system access. Also, there were instances where background investigations and security awareness training was not completed prior to access being granted.
	Recommendation	The OCIO should continue to update and implement entity-wide security policies and procedures and provide more direction and oversight to Program Offices for completing certification and accreditation requirements. In addition, documentation on application access permissions should be enhanced and linked with functional duties and procedures for granting logical access need to be refined to ensure access is granted only to authorized individuals.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	The continued implementation of planned security enhancements will assist in enhancing agency-wide monitoring of critical IT resources to prevent and detect unauthorized use.

	#: 4A-CF-00-09-03 November 13, 2009	
1	Finding	Information Systems General Control Environment – Information system general control deficiencies identified in previous years related to OPM and its programs continue to persist or have not been fully addressed and consequently are not in full compliance with authoritative guidance.
	Recommendation	KPMG recommends that the Office of the Chief Information Officer should continue to update and implement entity-wide policies and procedures and provide more direction and oversight to Program Offices for completing and appropriately overseeing certification and accreditation requirements and activities. In addition, documentation on application access permissions should be enhanced and linked with functional duties and procedures for granting logical and physical access needs to be refined to ensure access is granted only to authorized individuals. Finally, policies and procedures should be developed and implemented to ensure POA&Ms are accurate & complete.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	The continued implementation of planned security enhancements will assist enhancing agency-wide monitoring of critical IT resources to prevent and detect unauthorized use.

Rec. #		
1	Finding	Information Systems General Control Environment – Deficiencies in OPM's and the Programs' information system general controls that were identified and reported as a significant deficiency in previous years continue to persist. Although changes in information system management during this fiscal year, including the appointment of a new Chief Information Officer (CIO) and Senior Agency Information Security Officer, have resulted in plans to address these weaknesses, these plans have not yet been fully executed to resolve long-standing deficiencies in OPM's security program.
	Recommendation	KPMG recommends that the CIO develop and promulgate entity-wide security policies and procedures and assume more responsibility for the coordination and oversight of Program Offices in completing certification and accreditation and other information security requirements and activities.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	The continued implementation of planned security enhancements will assist in enhancing agency-wide monitoring of critical IT resources to prevent and detect unauthorized use.

2	Finding	<u>Information Systems General Control Environment</u> – See number 1 above.
	Recommendation	KPMG recommends that the CIO identify common controls, control responsibilities, boundaries and interconnections for information systems in its system inventory.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of September 30, 2018, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	The continued implementation of planned security enhancements will assist in enhancing agency-wide monitoring of critical IT resources to prevent and detect unauthorized use.
3	Finding	<u>Information Systems General Control Environment</u> – See number 1 above
3	Recommendation	KPMG recommends that the CIO implement a process to ensure the POA&Ms remain accurate and complete.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	The continued implementation of planned security enhancements will assist in enhancing agency-wide monitoring of critical IT resources to prevent and detect unauthorized use.

1	Finding	<u>Tracking of Undeliverable IRS Form 1099Rs</u> – OPM does not track undeliverable IRS Form 1099Rs to determine if any annuitants in the population of returned 1099Rs could be deceased.
	Recommendation	The OIG recommends that OPM annually track and analyze returned Form 1099Rs for the prior tax year. Performing this exercise provides OPM with the opportunity to identify deceased annuitants whose death has not been reported; continue to update the active annuity roll records with current address information; and to correct other personal identifying information. It addition, the returned Form 1099Rs should be matched against the SSA Death Master File annually.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	Potentially significant detection of and reduction in improper payments.
	Other Nonmonetary Benefit	Updated annuity roll records.

ec. #		
2	Finding	<u>Capitalizing on RSM Technology</u> – A modernized environment offers opportunities to reduce instances of fraud, waste, and abuse of the retirement trust fund.
	Recommendation	The OIG recommends that OPM actively explore the capabilities of any automated solution to flag records and produce management reports for anomalies or suspect activity, such as multiple address or bank account changes in a short time.
	Status	The agency agreed with the recommendation. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved detection of potential improper payments.
3	Finding	Establishment of Working Groups to Improve Program Integrity – Under the Office of Management and Budget's Circular A-123, Management's Responsibility for Internal Control, OPM has the responsibility to design controls to protect the integrity of program data. OPM cannot carry out this responsibility effectively unless it is continually reviewing and analyzing data from the active annuity roll and related sources to identify potential weaknesses and flaws in its operations and programs.
	Recommendation	The OIG recommends that OPM form a group comprised of "Subject Matter Experts" to explore risk areas and develop computer programs to look for anomalies that could indicate possible fraud.
		To further this effort, OPM should also establish a working group with other benefit-paying agencies, such as the VA, SSA, RRB, and the Department of Health and Human Services to determine best practices, keep up-to-date on the latest internal controls, and share/match death information.
	Status	The agency agreed with the recommendation. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved detection of potential improper payments.

1	Finding	Information Systems Control Environment - Significant deficiencies still remain in OPM's ability to identify, document, implement, and monitor information system controls.
	Recommendation	KPMG recommends that the OPM Director in coordination with the CIO and system owners, including the Chief Financial Officer and system owners in Program offices, ensure that resources are prioritized and assigned to address the information system control environment weaknesses.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	The continued implementation of planned security enhancements will assist in enhancing agency-wide monitoring of critical IT resources to prevent and detect unauthorized use.

Report	Audit of OPM's Voi #: 1K-RS-00-12-03 December 12, 2012	ice over Internet Protocol Interagency Agreement 31
Rec. #		
1	Finding	Expense Documentation not Maintained: After several attempts, OPM was unable to provide invoices documenting actual incurred contract expenses.  While the D.C. Government is responsible for documenting all contract related charges, OPM has a responsibility to review and maintain this documentation to ensure that all funds are appropriately accounted for and that only appropriate charges are being invoiced against OPM's contract.
	Recommendation	The OIG recommends that the OCIO implement a process to ensure that all VoIP agreement invoices are fully supported, thereby providing assurance that they are for services consistent with the terms of OPM's agreement with the D.C. Government.
	Status	OPM is reviewing closure evidence to confirm OIG's proposal to close the recommendation.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls over the financial aspects of intergovernmental agreements when buying goods and services.

1	Finding	Information Systems Control Environment - Significant deficiencies still remain in OPM's ability to identify, document, implement, and monitor information system controls.
	Recommendation	KPMG recommends that the OPM Director in coordination with the CIO and system owners, including the Chief Financial Officer and system owners in Program offices, ensure that resources are prioritized and assigned to implement the current authoritative guidance regarding two-factor authentication.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	The continued implementation of planned security enhancements will assist in enhancing agency-wide monitoring of critical IT resources to prevent and detect unauthorized use.

2	Finding	Information Systems Control Environment - Access rights in OPM systems are not documented and mapped to personnel roles and functions to ensure that personnel access is limited only to the functions needed to perform their job responsibilities.
	Recommendation	KPMG recommends that the OPM Director in coordination with the CIO and system owners, including the Chief Financial Officer and system owners in Program offices, ensure that resources are prioritized and assigned to document and map access rights in OPM systems to personnel roles and functions, following the principle of "least privilege."
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	The continued implementation of planned security enhancements will assist in enhancing agency-wide monitoring of critical IT resources to prevent and detect unauthorized use.

3	Finding	Information Systems Control Environment - The information security control monitoring program was not fully effective in detecting information security control weaknesses. We noted access rights in OPM systems were:  • Granted to new users without following the OPM access approval process and quarterly reviews to confirm access approval were not consistently performed.  • Not revoked immediately upon user separation and quarterly reviews to confirm access removal were not consistently performed.
	Recommendation	<ul> <li>KPMG recommends that the OPM Director in coordination with the CIO and system owners, including the Chief Financial Officer and system owners in Program offices, ensure that resources are prioritized and assigned to enhance OPM's information security control monitoring program to detect information security control weakness by:         <ul> <li>Implementing and monitoring procedures to ensure system access is appropriately granted to new users, consistent with the OPM access approval process.</li> </ul> </li> </ul>
		<ul> <li>Monitoring the process for the identification and removal of separated users to ensure that user access is removed timely upon separation; implementing procedures to ensure that user access, including user accounts and associated roles, are reviewed on a periodic basis consistent with the nature and risk of the system, and modifying any necessary accounts when identified.</li> </ul>
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	The continued implementation of planned security enhancements will assist in enhancing agency-wide monitoring of critical IT resources to prevent and detect unauthorized use.

Report	Audit of OPM's Cor #: 4K-RS-00-14-07 March 23, 2015	mpliance with the Freedom of Information Act 76
1	Finding	Compliance with Electronic Freedom of Information Act Amendments of 1996 (E-FOIA) - OPM's FOIA policy does not discuss the requirement to post information online that has been requested multiple times. In addition, OPM's request tracking system does not identify the type of information requested. Consequently, OPM's FOIA Office cannot identify multiple requests that should be posted.
	Recommendation	The OIG recommends that OPM's FOIA Office document a formal policy for handling multiple requests of the same information.
	Status	The agency agreed with the recommendation. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for managing FOIA information requests.

3	Finding	Compliance with Electronic Freedom of Information Act Amendments of 1996: E-FOIA requires agencies to provide online reading rooms for citizent to access records and, in the instance of three or more requests for certain FOIA information that this information be posted in these rooms. OPM's website has a reading room that OPM's FOIA Office can use to post responses to multiple requests; however, we found that the reading room is not used.
	Recommendation	The OIG recommends that OPM's FOIA Office start tracking types of FOIA requests to help determine whether they are multiple requests that must be posted to the reading room.
	Status	The agency agreed with the recommendation. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for managing FOIA information requests.

1	Finding	Federal Employees Retirement System Annuity Supplement Surveys and Matches Not Completed - RS has not conducted the 2013 FERS Annuity Supplement Survey and has not performed an annual Annuity Supplement Match since 2009.
	Recommendation	The OIG recommends that RS strengthen its internal controls over the FERS Annuity Supplement Survey and Match processes to ensure that benefit payments are made only to eligible annuitants, and FERS Annuity Surveys and Matches are conducted annually to implement the required annual reductions to benefits, as required by 5 U.S.C. 8421a.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	If controls are in place over the annuity supplement surveys and matches process, it will increase OPM's effectiveness in ensuring that benefit payments are made only to eligible annuitants, thereby decreasing the number of improper payments.

Rec. #	November 13, 2015	
1	Finding	Information Systems Control Environment - The current authoritative
		guidance regarding two-factor authentication has not been fully applied.
	Recommendation	KPMG recommends that the OCIO fully implement the current authoritative guidance regarding two-factor authentication.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	The continued implementation of planned security enhancements will assist in enhancing agency-wide monitoring of critical IT resources to prevent and detect unauthorized use.
2	Finding	<u>Information Systems Control Environment</u> - Access rights in OPM systems are not documented and mapped to personnel roles and functions to ensure that personnel access is limited only to the functions needed to perform their job responsibilities.
	Recommendation	KPMG recommends that the OCIO document and map access rights in OPM systems to personnel roles and functions, following the principle of "least privilege".
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of September 30, 2018, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	The continued implementation of planned security enhancements will assist in enhancing agency-wide monitoring of critical IT resources to prevent and detect unauthorized use.

3	Finding	Information Systems Control Environment - The information security control
		monitoring program was not fully effective in detecting information security
		control weaknesses. We noted access rights in OPM systems were:
		Granted to new users without following the OPM access approval
		process and quarterly reviews to confirm access approval were not
		consistently performed.
		Not revoked immediately upon user separation and quarterly reviews to
		confirm access removal were not consistently performed.
		Granted to a privileged account without following the OPM access approval
		process.
	Recommendation	KPMG recommends that the OCIO enhance OPM's information security
		control monitoring program to detect information security control weaknesses
		by:
		Implementing and monitoring procedures to ensure system access is
		appropriately granted to new users, consistent with the OPM access
		approval process; and
		Monitoring the process for the identification and removal of separated users to
		ensure that user access is removed timely upon separation; implementing
		procedures to ensure that user access, including user accounts and associated
		roles, are reviewed on a periodic basis consistent with the nature and risk of
		the system, and modifying any necessary accounts identified.
	Status	The agency agreed with the recommendation. OPM is taking corrective
		actions. As of March 31, 2019, the independent public accountant employed
		by OPM to conduct the financial statement audit had not received evidence
		that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary	The continued implementation of planned security enhancements will assist in
	Benefit	enhancing agency-wide monitoring of critical IT resources to prevent and
		detect unauthorized use.
4	Finding	A formalized system component inventory of devices to be assessed as part of
		vulnerability or configuration management processes was not maintained.
	Recommendation	KPMG recommends that the OCIO continue to perform, monitor, and
		improve its patch and vulnerability management processes, to include
		maintaining an accurate inventory of devices.
	Status	The agency agreed with the recommendation. OPM is taking corrective
		actions. As of March 31, 2019, the independent public accountant employed
		by OPM to conduct the financial statement audit had not received evidence
		that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary	The continued implementation of planned security enhancements will assist in
	Benefit	enhancing agency-wide monitoring of critical IT resources to prevent and
		detect unauthorized use.

5	Finding	Entity Level Controls Over Financial Management - During FY 2015 OPM reported a data breach which affected millions of Federal employees and government contractors. Based on KPMG's procedures to evaluate the potential impact of the data breach on OPM's financial statements, KPMG noted a number of control deficiencies that are pervasive throughout the agency.
	Recommendation	KPMG recommends that the OCFO perform a thorough review of OPM's entity-level controls over financial reporting and relevant activities to identify the underlying cause of these deficiencies and take the appropriate corrective actions to strengthen controls to mitigate risk of material misstatement when non-routine events occur.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Continued improvement in entity-level controls over financial management may improve the effectiveness of OPM's response to non-routine events and transactions and enhance the likelihood of the timely detection and correction of material misstatements in the financial statements.

Report	Audit of OPM's Fisc <u>#</u> : 4A-CF-00-16-02 May 11, 2016	cal Year 2015 Improper Payments Reporting 26
Rec. #		
1	Finding	Improper Payment Estimates' Root Causes: The OIG found that OPM did not properly categorize the root causes of the retirement benefits program's improper payments in Table 13 of OPM's FY 2015 Agency Financial Report.
	Recommendation	The OIG recommends that OPM implement controls to identify and evaluate the improper payment estimates root causes, to ensure that the root causes for the retirement benefits program's improper payments are properly categorized in OPM's annual Agency Financial Report.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	If controls are in place to identify the retirement services benefit programs improper payments estimates root cause, it will provide more granularity on the improper payment estimates, thus leading to more effective corrective actions at the program level and more focused strategies for reducing improper payments.

1	Finding	OPO Lacks Strong Internal Controls Over Its Contract Management Operations - On Aprils 23, 2015, Calyptus issued its Strategic Assessment Report to OPO, which identified 16 recommendations for OPO. We reviewe Calyptus' Strategic Assessment Report of OPO and supporting documentation, and determined that the findings and recommendations reported by Calyptus are valid and logical. However, OPM is not ensuring that OPO takes appropriate corrective action to address the internal control deficiencies identified.
	Recommendation	The OIG recommends that OPO strengthen its internal controls by working with OPM's Internal Oversight and Compliance office to implement corrective actions to address the findings and recommendations reported in the Strategic Assessment Report issued by Calyptus Consulting Group, Inc., on April 23, 2015.
	Status	The agency agreed with the recommendation. OPM informed us that actions are in progress. Evidence to support closure has not yet been provided.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	If controls are in place over the contract management process, it will increase OPM's effectiveness in ensuring that acquisition requirements are met and contracts are free from deficiencies.
2	Finding	Inaccurate Contract Amounts Reported in OPM's Information Systems - We requested access to 60 contract files with open obligations reported in the OCFO's CBIS Fiscal Years 2010 to 2014 Open Obligation Report, and determined that the contract amounts reported in the Consolidated Business Information System (CBIS) for 22 of the 60 contracts sampled differed from the contract amounts reported in OPO's contract files. In addition, OPO was unable to provide 17 of the 60 contract files, so we cannot determine if the amounts reported in CBIS were accurate.
	Recommendation	The OIG recommends that OPO implement internal controls to ensure that contract data, including contract award amounts, is accurately recorded in OPM's information systems, such as CBIS, and the appropriate supporting documentation is maintained.
	Status	The agency agreed with the recommendation. OPM informed us that actions are in progress. Evidence to support closure has not yet been provided.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	If controls are in place over the contract management process, it will increase OPM's effectiveness in ensuring that acquisition requirements are met and contracts are appropriately reported in OPM's financial management system.

3	Finding	Weak Controls over the Contract Closeout Process - OPO could not provide a
		listing of contract closeouts for FY 2013 and FY 2014. In addition, of the 60 contracts the OIG sampled, we identified 46 in which OPO did not initiate the contract closeout process in compliance with the FAR.
	Recommendation	The OIG recommends that OPO develop an accurate inventory of FYs 2013 and 2014 contracts ready for closeout.
	Status	The agency agreed with the recommendation. OPM informed us that actions are in progress. Evidence to support closure has not yet been provided.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	If controls are in place over the contract management process, it will increase OPM's effectiveness in ensuring that acquisition requirements are met and contracts are properly closed out.
1	Et. d.	Wt. Control. Control Classes Drawn
4	Finding Recommendation	Weak Controls over the Contract Closeout Process - See number 3 above.  The OIG recommends that OPO establish and implement management controls to ensure that contracts are tracked and managed through the closeou process and adequate documentation is maintained in the contract file, including evidence of contract completion and closeout.
	Status	The agency agreed with the recommendation. OPM informed us that actions are in progress. Evidence to support closure has not yet been provided.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	If controls are in place over the contract management process, it will increase OPM's effectiveness in ensuring that acquisition requirements are met and contracts are properly closed out.
5	The diam	Weak Controls even the Contract Classout Discourt Process See march on 2 shows
3	Finding Recommendation	Weak Controls over the Contract Closeout Process - See number 3 above.  The OIG recommends that OPO provide documentation to verify that the closeout process has been administered on the open obligations for the 46 contracts questioned.
	Status	The agency agreed with the recommendation. OPM informed us that actions are in progress. Evidence to support closure has not yet been provided.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	If controls are in place over the contract management process, it will increase OPM's effectiveness in ensuring that acquisition requirements are met and contracts are properly closed out.

6	Finding	Weak Controls over the Contract Closeout Process: As a result of the control deficiencies identified for the contract closeout process, as well as the issues previously discussed, we cannot determine if \$108,880,417 in remaining open obligations, associated with 46 questioned contracts, are still available for use by OPM's program offices.
	Recommendation	The OIG recommends that OPM's Office of Procurement Operations return \$108,880,417 in open obligations, for the 46 contracts questioned, to the program offices if support cannot be provided to show that the contract should remain open and the funds are still being utilized.
	Status	The agency agreed with the recommendation. OPM informed us that actions are in progress. Evidence to support closure has not yet been provided.
	Estimated Program Savings	\$108,880,417
	Other Nonmonetary Benefit	If controls are in place over the contract management process, it will increase OPM's effectiveness in ensuring that acquisition requirements are met and contracts are properly closed out.

1	Finding	<u>Information Systems Control Environment</u> : The Information Security and Privacy Policy Handbook are outdated.
	Recommendation	Grant Thornton recommends that OPM review, update, and approve the security management policies and procedures at the organization defined frequency. Updates should incorporate current operational procedures and removal of outdated procedures and terminology.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Policies will reflect current operational environment, which will allow personnel to develop and adhere to authorized processes and related controls

2	Finding	<u>Information Systems Control Environment</u> : OPM System Documentation is outdated.
	Recommendation	Grant Thornton recommends that OPM create and/or update system documentation as follows:
		System Security Plans – Update the plans and perform periodic reviews in accordance with the organization defined frequencies.
		<ul> <li>Risk Assessments – Conduct a risk assessment for financially relevant applications and systems and a document comprehensive results of the testing performed.</li> </ul>
		<ul> <li>Authority to Operate – Perform security assessment and authorization reviews in a timely manner and create up-to-date packages for systems.</li> <li>Information System Continuous Monitoring – Document results of</li> </ul>

	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Complete and consistent security control documentation and complete and thorough testing will allow the agency to be informed of security control weaknesses that threaten the confidentiality, integrity, and availability of the data contained within its systems.
3	Finding	<u>Information Systems Control Environment</u> : The FISMA Inventory Listing is incomplete.
	Recommendation	Grant Thornton recommends that OPM enhance processes in place to track the inventory of the Agency's systems and devices.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.

	Recommendation	Grant Thornton recommends that OPM assign specific individuals with overseeing/monitoring POA&Ms to ensure they are addressed in a timely manner.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of September 30, 2018, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	The agency is able to determine whether vulnerabilities are remediated in a timely manner. This decreases the risk that systems are compromised.

8	Finding	Information Systems Control Environment: Lack of periodic access recertifications.
	Recommendation	Grant Thornton recommends that OPM perform a comprehensive review of the appropriateness of personnel with access to systems at the Agency's defined frequencies.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	A comprehensive review of personnel with access to the in-scope applications /systems will decrease the risk that inappropriate individuals maintain access allowing them to perform incompatible functions or functions associated with elevated privileges.

	Recommendation	Grant Thornton recommends that OPM implement two-factor authentication at the application level in accordance with agency and federal policies.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Two factor authentication will decrease the risk of unauthorized access into OPM systems.
11	Finding	Information Systems Control Environment: Lack of access descriptions and Segregation of Duties (SoD) Matrices.
	Recommendation	Grant Thornton recommends that OPM document access rights to systems to include roles, role descriptions, and privileges / activities associated with each role and role or activity assignments that may cause a segregation of duties conflict.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.

10	Finding	Improper Payment Root Causes: Retirement Services was unable to fully categorize the following improper payments root causes in Table 2, "Imprope Payment Root Cause Category Matrix," of the FY 2016 AFR: Federal employees retirement system's disability offset for social security disability, delayed reporting of eligibility, unauthorized dual benefits or overlapping payments between benefit paying agencies, and fraud.
		In the FY 2016 AFR, OPM acknowledges that they are aware of the major contributors of improper payments but are unable to provide the level of granularity needed to fully fulfill OMB Circular A-136 requirements. As a result, the remaining balance of these improper payments were placed in "Other Reason."
	Recommendation	The OIG recommends that OPM continue to implement controls to identify and evaluate the improper payment estimates root causes, to ensure that the root causes for the retirement benefits program's improper payments are properly categorized in OPM's annual AFR. (Rolled-Forward from FY 2015)
	Status	The agency did not agree with the recommendation. OPM is considering alternative approaches to address the findings. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	If controls are in place to identify the retirement services benefit programs improper payments estimates root cause, it will provide more granularity on the improper payment estimates, thus leading to more effective corrective actions at the program level and more focused strategies for reducing improper payments

1	Finding	Cancellation of Purchase Cards: OPO did not immediately cancel purchase cards when an employee separated from the agency. Of the 164 active purchase cards in OPM at the time of our audit, we found that 23, which had been issued to a former agency program coordinator, were not immediately canceled when the employee separated from OPM on April 3, 2012.
	Recommendation	The OIG recommends that OPO perform verification and validation activities, such as utilizing available agency employee separation reports, to ensure that separated employees' purchase cards are immediately cancelled.
	Status	The agency agreed with the recommendation and it is now resolved. Closure is contingent on the completion of corrective actions.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	If controls are in place over the purchase card program, it will increase OPM's effectiveness in reducing the risk of fraud, waste, and abuse related to government transactions.
2	Finding	Agency Financial Report (AFR): OPO could not provide documentation to support the \$238,400 outstanding balance reported in Table 19 - Purchase Cards, in the FY 2015 AFR.
	Recommendation	We recommend that OPO improve policies and procedures over its purchase card reporting process to ensure that data is supported and accurately reported.
	Status	OPM is reviewing closure evidence to confirm OIG's proposal to close the recommendation.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	If controls are in place over the purchase card program, it will increase OPM's effectiveness in reducing the risk of fraud, waste, and abuse related to government transactions.
3	Finding	Agency Financial Report: See number 2 above.
	Recommendation	We recommend that the OCFO verify and validate purchase card information prior to reporting it in the AFR to ensure the integrity of the data reported.
	Status	The agency agreed with the recommendation and it is now resolved. Closure is contingent on the completion of corrective actions.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	If controls are in place over the purchase card program, it will increase OPM's effectiveness in reducing the risk of fraud, waste, and abuse related to government transactions.

\_

<sup>&</sup>lt;sup>1</sup> OPM's normal practice is to issue one purchase card per cardholder. In this instance, the agency program coordinator was issued 23 purchase cards that were for 23 different program offices within OPM to be used for purchases that exceeded the \$3,500 micro-purchase limit.

	Recommendation	The OIG recommends that OPO immediately ensure that all OMB statistical reporting requirements are met, starting with their FY 2017 third quarter statistical report.
	Status	The agency agreed with the recommendation and corrective actions continue.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	If controls are in place over the purchase card program, it will increase OPM's effectiveness in reducing the risk of fraud, waste, and abuse related to government transactions.
5	Finding	Statistical Reporting: See number 4 above.
	Recommendation	The OIG recommends that OPO develop and implement policies and procedures for creating the quarterly OMB statistical report. At a minimum, the policies and procedures should include a discussion of all the statistical data elements required by OMB.
	Status	The agency agreed with the recommendation and corrective actions continue.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	If controls are in place over the purchase card program, it will increase OPM's effectiveness in reducing the risk of fraud, waste, and abuse related to government transactions.
8	Finding	<u>Training</u> : See number 7 above.
	Recommendation	The OIG recommends that OPO implement controls to ensure that purchase card program participants receive all required training on the appropriate use, controls, and consequences of abuse before appointment to their position, and receive refresher training every three years. Documentation should be maintained to support the completion of initial and refresher training.
	Status	The agency agreed with the recommendation and it is now resolved. Closure is contingent on the completion of corrective actions.

1	Finding	Summary-Level Differences between Data Submission Files A and B: OPM's gross outlay amount by program object class in File B did not agree to the gross outlay amount by Treasury Account Symbol (TAS) in File A, and the obligations incurred by program object class in File B did not agree to obligations incurred by total in TAS.
	Recommendation	The OIG recommends that the OCFO continue to work with the CBIS Helpdesk to address calculation difference root cause(s) and provide categorical explanations for the misalignments between File A (appropriation summary level data) and File B (obligation and outlay information at program activity and object class level) prior to the FY 2019 DATA Act audit.
	Status	The agency agreed with the recommendation. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	If controls are in place over OPM's DATA Act submission and compliance, i will lead to increased data accuracy.
2	Finding	Lack of Effective and Efficient Standard Operating Procedures and Control Activities over the Data Submission Process: The OCFO has a policy and procedures in place documenting their data submission process; however, they were unable to provide documentation to support that the policy and procedures were approved by the OCFO's Financial Operations Management division and communicated to the responsible Data Element Components, which consist of representatives from the offices of Procurement, Budget, Financial System, and Accounting.
	Recommendation	The OIG recommends that the OCFO establish controls to ensure that DATA Act standard operating procedures are approved by management, documented, and communicated to the appropriate staff members prior to implementation and/or revision of any new or existing management directives.
	Status	The agency agreed with the recommendation. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	If controls are in place over OPM's DATA Act submission and compliance, i will lead to a more consistent process.

3	Finding	Lack of Effective and Efficient Controls over Data Submission Files A  through F: The OCFO submitted OPM's DATA Act information by the end of the second quarter of FY 2017, and validated the accuracy of the data populated in Files A through C. However, the OCFO's internal controls did not include ensuring the interconnectivity/linkages across all data Files, A through F, to be displayed on USASpending.gov.
	Recommendation	The OIG recommends that the OCFO establish controls to ensure that Files A through F are valid, reliable, accurate, and complete as required by OMB M-17-04.
	Status	The agency partially agreed with the recommendation. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	If controls are in place over OPM's DATA Act submission and compliance, i will lead to increased data accuracy.

Report	<u>Title</u> : Audit of OPM's Fiscal Year 2017 Financial Statements <u>Report #</u> : 4A-CF-00-17-028 <u>Date</u> : November 13, 2017		
Rec. #			
1	Finding	System Security Plans, Risk Assessments, Security Assessment and Authorization Packages and Information System Continuous Monitoring documentation were incomplete.	
	Recommendation	Grant Thornton recommends that OPM review, update and approve policies and procedures in accordance with frequencies prescribed by OPM policy.	
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.	
	Estimated Program Savings	N/A	
	Other Nonmonetary Benefit	Policies will reflect current operational environment, which will allow personnel to develop and adhere to authorized processes and related controls.	

2	Finding	OPM did not have a centralized process in place to maintain a complete and accurate listing of systems and devices to be able to provide security oversight or risk mitigation to the protection of its resources.
	Recommendation	Grant Thornton recommends that OPM implement processes to update the FISMA inventory listing to include interconnections, and review the FISMA inventory listing on a periodic basis for completeness and accuracy.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	With an updated FISMA Inventory Listing, Management can: (a) work towards FISMA compliance, (b) develop an understanding of how transactions/data flow between the various systems, and (c) understand the totality of operational systems/applications within its environment.
3	Finding	OPM did not have a centralized process in place to maintain a complete and accurate listing of systems and devices to be able to provide security oversight or risk mitigation to the protection of its resources.
	Recommendation	Grant Thornton recommends that OPM implement processes to associate software and hardware assets to system boundaries.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Complete and consistent security control documentation and complete and thorough testing will allow the agency to be informed of security control weaknesses that threaten the confidentiality, integrity, and availability of the data contained within its systems.
4	Elu Dun	Instances of applications not scanned during the first quarter of FY 2017 and
4	Finding	in July 2017 were noted.
	Recommendation	Grant Thornton recommends that OPM implement backup procedures to ensure continuous security scans over web applications.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.

	Other Nonmonetary Benefit	Complete and consistent security control documentation and complete and thorough testing will allow the agency to be informed of security control weaknesses that threaten the confidentiality, integrity, and availability of the data contained within its systems.

5	Finding	OPM did not have a system in place to identify and generate a complete and accurate listing of OPM contractors and their employment status.
	Recommendation	Grant Thornton recommends that OPM implement a system or control that tracks the employment status of OPM contractors.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	A listing of contractors to be reconciled against systems access will decrease the risk that users retain lingering access to systems and therefore will decrease the risk of inaccurate, invalid, and unauthorized transactions being processed by systems that could ultimately impact financial reporting.
6	Finding	Documentation of the periodic review of POA&Ms did not exist. Several instances of known security weaknesses did not correspond to a POA&M.
	Recommendation	Grant Thornton recommends that OPM assign specific individuals with overseeing and monitoring POA&Ms to ensure security weaknesses correspond to a POA&M so that they are addressed in a timely manner.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	The agency is able to determine whether vulnerabilities are remediated in a timely manner. This decreases the risk that systems are compromised.
7	Finding	OPM did not have a system in place to identify and generate a complete and accurate listing of users with significant information systems responsibilities.
	Recommendation	Grant Thornton recommends that OPM establish a means of developing a complete and accurate listing of users with Significant Information System Responsibilities that are required to complete role-based training.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	A comprehensive review of personnel with access to the in-scope application /systems will decrease the risk that inappropriate individuals maintain access allowing them to perform incompatible functions or functions associated with elevated privileges.

8	Finding	Entity-level policies and procedures are outdated and / or incomplete.
	Recommendation	Grant Thornton recommends that OPM continue to follow its project management plan to review and approve newly prepared policies so that the policies can be disseminated to stakeholders.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Policies will reflect current operational environment, which will allow personnel to develop and adhere to authorized processes and related controls.
9	Finding	OPM did not comply with their policies regarding periodic recertification of the appropriateness of user access.
	Recommendation	Grant Thornton recommends that OPM perform a comprehensive periodic review of the appropriateness of personnel with access to systems.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Two-factor authentication will decrease the risk of unauthorized access into OPM systems.
10	Finding	Users are not appropriately provisioned and de-provisioned access from OPM's information systems and the data center. OPM did not comply with its policies regarding periodic recertification of the appropriateness of user access.
	Recommendation	Grant Thornton recommends that OPM implement physical security access reviews to ensure access to the data center is limited to personnel that require access based on their job responsibilities.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.

	Other Nonmonetary Benefit	A comprehensive understanding of user access rights will decrease the risk that users perform incompatible duties or have access to privileges or roles outside of what is needed to perform their day-to-day duties.
13	Finding	Users are not appropriately provisioned and de-provisioned access from OPM's information systems and the data center. OPM did not comply with their policies regarding periodic recertification of the appropriateness of user access.
	Recommendation	Grant Thornton recommends that OPM ensure policies and procedures governing the provisioning and de-provisioning of access to information systems are followed in a timely manner and documentation of completion of these processes is maintained.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Policies will reflect current operational environment, which will allow personnel to develop and adhere to authorized processes and related controls

14	Finding	Security events were not reviewed in a timely manner.
	Recommendation	Grant Thornton recommends that OPM review audit logs on a pre-defined periodic basis for violations or suspicious activity and identify individuals responsible for follow up or elevation of issues to the appropriate team members for review. The review of audit logs should be documented for record retention purposes.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	A thorough review of audit logs decreases the risk that suspicious activity that occurs may go undetected and therefore may not be addressed in a timely manner.
15	Finding	OPM could not provide a system generated listing of all users who have access to systems. System roles and associated responsibilities or functions, including the identification of incompatible role assignments were not documented.
	Recommendation	Grant Thornton recommends that OPM establish a means of documenting all users who have access to system.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	A comprehensive understanding of user access rights will decrease the risk that users perform incompatible duties or have access to privileges or roles outside of what is needed to perform their day-to-day duties.
16	Finding	OPM has not developed comprehensive configuration management policies and procedures governing changes that are formally approved and disseminated to OPM personnel. One instance of patches is not applied in a timely manner.
	Recommendation	Grant Thornton recommends that OPM establish a comprehensive configuration management plan that includes roles and responsibilities and outlines details supporting authorization, testing and documentation requirements.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Decreases the risk that unauthorized or erroneous changes to the mainframe configuration may be introduced without detection by system owners.

17	Finding	OPM did not have the ability to generate a complete and accurate listing of modifications made to configuration items to systems.
	Recommendation	Grant Thornton recommends that OPM establish a methodology to systematically track all configuration items that are migrated to production and be able to produce a complete and accurate listing of all configuration items for both internal and external audit purposes, which will in turn support closer monitoring and management of the configuration management process
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Decreases the risk that unauthorized or erroneous changes to the mainframe and midrange environments configuration may be introduced without detection by system owners.
18	Finding	OPM did not maintain a security configuration checklist for platforms.
	Recommendation	Grant Thornton recommends that OPM enforce existing policy developed by OPM, vendors or federal agencies requiring mandatory security configuration settings and implement a process to periodically validate that the settings are appropriate.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. As of March 31, 2019, the independent public accountant employed by OPM to conduct the financial statement audit had not received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Restrictive security settings in place for components and a periodic assessment to ensure that such settings are in place and appropriate decreases the risk that the confidentiality, integrity, and / or availability of financial data is compromised.

	Recommendation	The OIG recommends that Travel Operations coordinate and partner with OPM program approving officials, program coordinators, and any appropriate program offices to implement controls to ensure card users and oversight personnel receive the required training on the appropriate use, controls and consequences of abuse before they are given a card, and/or appointment to the position. Documentation should be maintained to support the completion of initial and refresher training.
	Status	The agency agreed with the recommendation and it is now resolved. Closure is contingent on the completion of corrective actions.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Properly trained participants can lead to the decrease in card misuse and abuse.
8	Finding	Out of the 324 travel card transactions selected for testing, we found that 33 transactions, totaling \$8,158, were missing travel authorizations and 28 transactions, totaling \$27,627, were missing required receipts.
	Recommendation	The OIG recommends that Travel Operations strengthen its oversight and monitoring of travel card transactions, to include but not be limited to, ensuring travel cards are being used and approved in accordance with regulations and guidance.
	Status	The agency agreed with the recommendation and corrective actions continue.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Supported transactions decrease the risk for abuse or misuse of the travel card and agency resources.
9	Finding	See #8 for description.
	Recommendation	The OIG recommends that Travel Operations provide frequent reminders to the approving officials on their responsibilities when reviewing travel authorizations and vouchers. Reminders should include such things as GSA's best practices for travel charge cards to ensure travel cardholders submit receipts for expenses over \$75 when submitting their vouchers, and that travel authorizations are approved prior to travel.

	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Current, clear, and accurate policies and procedures will help to reduce the potential for fraud, waste, and abuse of the travel card program.
11	Finding	We determined that 21 restricted cardholders made 68 cash advance transactions that exceeded their seven-day limit, totaling \$17,493. Three of the 21 restricted cardholders also exceeded their billing cycle limits, totaling \$3,509.
	Recommendation	The OIG recommends that Travel Operations ensure organizational program coordinators review and certify monthly ATM Reports to help identify cardholder cash advances taken in excess of their ATM limit.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. The OIG has received documentation to show implementation of the recommendation; however, based on our review we are still working with the agency to obtain final documentation for closure.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	A robust system of internal controls over the ATM cash advance decreases the risk that cash advances are used for expenses unrelated to Government travel.
12	Finding	See #11 for description.
	Recommendation	The OIG recommends that Travel Operations follow up with organizational program coordinators to ensure that appropriate actions are taken against employees who have used their travel card for unauthorized transactions during each billing cycle.
	Status	The agency agreed with the recommendation and corrective actions continue
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	A robust system of internal controls over the ATM cash advance decreases the risk that cash advances are used for expenses unrelated to Government travel.

13	Finding	Travel Operations did not provide support that cardholder accounts with

	Other Nonmonetary Benefit	Removing cards in the hands of a delinquent cardholder decreases the chances for fraud, misuse, and abuse of the travel card.
14	Finding	See #13 for description.
	Recommendation	The OIG recommends that Travel Operations strengthen internal controls to confirm that delinquent accounts are monitored and ensure that all delinquent cardholder accounts are either suspended or canceled, as appropriate.
	Status	The agency agreed with the recommendation and corrective actions continue.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Removing cards in the hands of a delinquent cardholder decreases the chance for fraud, misuse, and abuse of the travel card.
15	Finding	Travel Operations did not immediately cancel 176 travel card accounts of employees that separated from OPM.
	Recommendation	The OIG recommends that Travel Operations ensure that an analysis is routinely performed to certify that travel cards are not used after the separation date.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. The OIG has received documentation to show implementation of the recommendation; however, based on our review we are still working with the agency to obtain final documentation for closure.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Cancelling cards immediately upon termination of employment decreases the opportunity for continued use, which can result in travel card misuse and abuse.
16	Finding	See #15 for description.
	Recommendation	The OIG recommends that Travel Operations implement stronger internal controls to ensure that travel card accounts are immediately cancelled upon separation of the cardholder's employment.

	Other Nonmonetary Benefit	Performing and documenting periodic review to identify travel cardholders that have not used their card decreases potential for misuse, abuse, and fraud.
18	Finding	See #17 for description.
	Recommendation	The OIG recommends that Travel Operations enforce policies and procedures to conduct periodic reviews of travel card accounts to ensure cards are needed by the employees to which they are issued.
	Status	OPM is reviewing closure evidence to confirm OIG's proposal to close the recommendation.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Performing and documenting periodic review to identify travel cardholders that have not used their card decreases potential for misuse, abuse, and fraud.
19	Finding	See #17 for description.
	Recommendation	The OIG recommends that Travel Operations establish and implement controls to properly document and retain support for the periodic reviews of inactivity.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. The OIG has received documentation to resolve the finding; however, we are still reviewing it as part of our current risk assessment.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Performing and documenting periodic review to identify travel cardholders that have not used their card decreases potential for misuse, abuse, and fraud

20	Finding	Travel Operations does not have controls in place to ensure that the travel card data reported in the Annual Financial Report is accurate.
	Recommendation	The OIG recommends that Travel Operations provide support to validate the travel card information provided in Table 18. Furthermore, we recommend Travel Operations improve internal controls over its travel card reporting process to ensure the integrity of the travel card data reported in the AFR. These controls should include verification and validation of the travel card information prior to reporting it in the AFR.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. The OIG has received documentation to show implementation of the recommendation; however, based on our review we are still working with the agency to obtain final documentation for closure.

<u>Title</u>: Audit of the U.S. Office of Personnel Management's Fiscal Year 2017 Improper Payments Reporting

<u>Report #</u>: 4A-CF-00-18-012

Rec. #		
2	Finding	Improper Payments Rate: The overall intent of the Improper Payments Information Act of 2002, as amended by IPERA and IPERIA, is to reduce improper payments. While Retirement Services met its improper payment reduction targets for fiscal years 2012 through 2017, Retirement Services' improper payments rate remained basically stagnant during that time period, at roughly an average of 0.37 percent. In addition, Retirement Services' improper payment amounts increased every year from 2012 to their current level of more than \$313 million.
	Recommendation	The OIG recommends that Retirement Services develop and implement additional cost effective corrective actions, aimed at the root cause(s) of improper payments, in order to further reduce the improper payments rate.
	Status	The agency agreed with the recommendation. OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	If controls are in place to identify the retirement services benefit programs improper payments estimates root cause, it will provide more granularity on the improper payment estimates, thus leading to more effective corrective actions at the program level and more focused strategies for reducing improper payments.

1	Finding	Security Controls Testing – The Federal Information Security Management Act (FISMA) requires agencies to test the security controls of all of their systems on an annual basis. However, we determined that the security controls were not tested for three of OPM's systems in FY 2008.
	Recommendation	The OIG recommends that OPM ensure that an annual test of security controls has been completed for all systems.
	Status	OPM agreed with the recommendation. It is taking corrective actions and the OIG will assess the agency's progress as part of the next annual audit.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for ensuring that systems have appropriate security controls in place and functioning properly.
2	Finding	Contingency Plan Testing – FISMA requires that a contingency plan be in place for each major application, and that the contingency plan be tested on an annual basis. We determined that the contingency plans for four OPM systems were not adequately tested in FY 2008.
	Recommendation	The OIG recommends that OPM's program offices test the contingency plans for each system on an annual basis.
	Status	OPM agreed with the recommendation. It is taking corrective actions and the OIG will assess the agency's progress as part of the next annual audit.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for recovering from an unplanned system outage.

1	Finding	Project Management Activities: OPM has not yet defined the scope and budget sources for the entire Infrastructure as a Service (IaaS) Project. The agency has not followed standard, and critical, project management steps, many of which are required by OMB.
	Recommendation	The OIG recommends that OPM's OCIO complete an OMB Major IT Business Case document as part of the FY 2017 budget process and submit this document to OMB for approval. Associated with this effort, the OCIO should complete its assessment of the scope of the migration process, the lev of effort required to complete it, and its estimated costs. Furthermore, the OCIO should implement the project management processes required by OMI and recommended by ISACA's COBIT and the COSO framework.
	Status	OPM subsequently agreed to implement this recommendation. The OIG reviewed evidence submitted by OPM to support closure of the recommendation and provided comments explaining why this evidence was not sufficient to close the recommendation. OPM is taking further corrective actions. The OIG has not yet received evidence that full implementation has been completed.

1	Finding	Major IT Business Case: OPM completed a Business Case for its infrastructure improvement project. However, OPM officials failed to perform almost all of the capital planning activities that are required to be associated with a Business Case document.
	Recommendation	The OIG recommends that OPM complete an Analysis of Alternatives as described in the Capital Programming Guide supplement to OMB Circular A-11 as soon as possible. This analysis should recognize changes in the internal and external environment and no consideration should be given to funds already spent associated with the Project (i.e., avoid the sunk cost fallacy).
	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for minimizing the risk of a major project failure.

2	Finding	Lifecycle Cost Estimates: OPM's Business Case submitted to OMB with the FY 2017 budget request outlines the costs already incurred for this Project along with reasonable short-term cost estimates to finish developing the IaaS portion. However, its cost estimates for modernizing and migrating its information systems to the new environment are unsubstantiated because of the incomplete inventory and technical analysis.
	Recommendation	The OIG recommends that OPM leverage the application profiling scoring framework to develop cost estimates for modernizing and/or migrating all OPM information systems, and use this information to support the capital planning activities referenced in Recommendation 1. The Business Case should be continuously updated to reflect these cost estimates as they become more concrete.

	Other Nonmonetary Benefit	Improved controls for identifying and documenting web-based applications.

2	Finding	Policies and Procedures: OPM maintains information technology (IT)
		security policies and procedures that address NIST SP 800-53 security controls. OPM also maintains system development policies and standards. While these policies, procedures, and standards apply to all IT assets, they are written at a high level and do not address some critical areas specific to web
		application security and development.
	Recommendation	The OIG recommends that OPM create or update its policies and procedures to provide guidance specific to the hardening of web server operating system and the secure design and coding of web-based applications.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for establishing policy and procedures governing the hardening of web applications.
3	Finding	Web Application Vulnerability Scanning: While the OCIO was able to provide historical server vulnerability scan results, we were told that there is not a formal process in place to perform routine credentialed web application vulnerability scans (however, ad-hoc non-credentialed scans were performed
	Recommendation	The OIG recommends that OPM implement a process to perform credentiale web application vulnerability scans and track any identified vulnerabilities until they are remediated.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence the implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for detecting and tracking vulnerabilities.
4	Finding	Web Application Vulnerability Scanning: The results of the credentialed we application scans that we performed during this review indicate that several applications and the servers hosting these applications contain security weaknesses.
	Recommendation	The OIG recommends that OPM analyze our scan results to identify false positives and remediate any verified vulnerabilities.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence the implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for remediating vulnerabilities.

1	Finding	Security Management Structure: OPM has experienced a high turnover rate for ISSO and CISO positions and has struggled to backfill these vacancies.
	Recommendation	The OIG recommends that OPM hire a sufficient number of ISSOs to adequately support all of the agency's major information systems.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for managing information security.
3	Finding	SDLC Methodology: OPM has a history of troubled system development projects. In our opinion, the root cause of these issues relates to the lack of central policy and oversight of systems development.
	Recommendation	The OIG continues to recommend that the OCIO develop a plan and timeline to enforce the new SDLC policy on all of OPM's system development projects.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence the implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for ensuring stability of systems development projects.
4	Finding	Security Assessment and Authorization: OPM systems are operating withou an active Security Assessment and Authorization.
	Recommendation	The OIG recommends that all active systems in OPM's inventory have a complete and current Authorization.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence the implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for ensuring that systems have appropriate security controls in place and functioning properly.
5	Finding	Security Assessment and Authorization: Several OPM systems are operating without an active Security Assessment and Authorization. In our opinion, or root cause of this issue relates to the lack of accountability for system owners that fail to subject their systems to the Authorization process.
	Recommendation	The OIG recommends that the performance standards of all OPM system owners be modified to include a requirement related to FISMA compliance for the information systems they own. At a minimum, system owners should be required to ensure that their systems have valid Authorizations.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence the implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary	Improved controls for ensuring that systems have appropriate security

7	Finding	Agency-wide Risk Management: the OCIO organized a Risk Executive
		Function comprised of several IT security professionals. However, the 12 primary elements of the Risk Executive Function as described in NIST SP 800-39 were not all fully implemented.
	Recommendation	The OIG recommends that OPM continue to develop its Risk Executive Function to meet all of the intended requirements outlined in NIST SP 800-39, section 2.3.2 Risk Executive (Function).
	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for managing information security risks at OPM.
8	Finding	Adherence to Remediation Deadlines: Of OPM's 46 major information systems, 43 have POA&M items that are greater than 120 days overdue. Further, 85% of open POA&Ms are over 30 days overdue and over 78% are over 120 days overdue.
	Recommendation	The OIG recommends that OPM adhere to remediation dates for its POA&M weaknesses.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for managing POA&M weakness remediation.
9	Finding	Contractor System Documentation: The OCIO maintains a separate spreadsheet documenting interfaces between OPM and contractor-operated systems and the related Interconnection Security Agreements (ISA). However, many of the documented ISAs have expired.
	Recommendation	The OIG recommends that the OCIO ensure that all ISAs are valid and properly maintained.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary	Improved controls for ensuring that security agreements between contractor

10	Finding	Contractor System Documentation: While the OCIO tracks ISAs, it does not
		track Memorandums of Understanding/Agreement (MOU/A). These documents outline the terms and conditions for sharing data and information resources in a secure manner. We were told that program offices were responsible for maintaining MOU/As. While we have no issue with the program offices maintaining the memorandums, the OCIO should track
		MOU/As to ensure that valid agreements are in place for each documented ISA.
	Recommendation	The OIG recommends that the OCIO ensure that a valid MOU/A exists for every interconnection.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for ensuring that interfaces between contractor systems and agency systems are adequately tracked and maintained.
11	Finding	System Inventory: OPM's system inventory lists the devices and software in the environment, but does not describe the specific servers the software resides on or the information systems the devices and software support.
	Recommendation	The OIG recommends that OPM improve its system inventory by correlating the elements of the inventory to the servers and information systems they reside on.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A

	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for effectively auditing a system's actual settings.
14	Finding	<u>Vulnerability Scanning</u> : We were told in an interview that OPM performs monthly vulnerability scans using automated scanning tools. However, we have been unable to obtain tangible evidence that vulnerability scans have been routinely conducted for all OPM servers in FY 2016.
	Recommendation	The OIG recommends that the OCIO implement a process to ensure routine vulnerability scanning is conducted on all network devices documented within the inventory.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for detecting and remediating vulnerabilities.
15	Finding	<u>Unsupported Software</u> : The results of our vulnerability scans indicated that OPM's production environment contains severely out-of-date and unsupported software and operating platforms.
	Recommendation	The OIG recommends the OCIO implement a process to ensure that only supported software and operating platforms are used within the network environment.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence the implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for ensuring up-to-date software and operating platforms.

16	Finding	Configuration Auditing: There are several operating platforms used by OPM
		that do not have documented and approved baselines. Without approved baseline configurations these systems cannot be subject to an adequate compliance audit.
	Recommendation	The OIG recommends the OCIO conduct routine compliance scans against established baseline configurations for all servers and databases in use by OPM. This recommendation cannot be addressed until Recommendation 13 has been completed.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for ensuring that servers are in compliance with approved security settings.
17	Finding	<u>Vulnerability Scanning</u> : The OCIO does not centrally track the current status of security weaknesses identified during vulnerability scans to remediation or risk acceptance.
	Recommendation	The OIG recommends that the OCIO implement a process to centrally track the current status of security weaknesses identified during vulnerability scans to remediation or risk acceptance.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for tracking and remediating vulnerabilities.
18	Finding	<u>Patching Management</u> : Through our independent vulnerability scans on a sample of servers we determined that numerous servers are not timely patched.
	Recommendation	The OIG recommends the OCIO implement a process to apply operating system and third party vendor patches in a timely manner, which is defined within the OPM Information Security and Privacy Policy Handbook.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for keeping information systems up-to-date with patches and service packs.

19	Finding	Contractor Access Termination: OPM does not maintain a complete list of the contractors with access to OPM's network and the termination process for contractors is de-centralized.
	Recommendation	The OIG recommends that the OCIO maintain a centralized list of all contractors that have access to the OPM network and use this list to routinely audit all user accounts for appropriateness.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for managing appropriate access to information systems.
20	Finding	Multi-factor Authentication: OMB Memorandum M-11-11 required all federal information systems to be upgraded to use PIV credentials for multifactor authentication by FY 2012. However, as of the end of the FY 2016, none of the 46 major systems at OPM require PIV authentication.
	Recommendation	The OIG recommends that the OCIO meet the requirements of OMB M-11-1 by upgrading its major information systems to require multi-factor authentication using PTV credentials.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for authenticating to information systems.
23	Finding	<u>Test of Security Controls</u> : FISMA requires agencies to test the security controls of its systems on an annual basis. In FY 2017, 16 systems were not subject to adequate security control tests.
	Recommendation	The OIG recommends that OPM ensure that an annual test of security controls has been completed for all systems.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence the implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for ensuring that systems have appropriate security controls in place and functioning properly.

25	Finding	Contingency Plans: FISMA requires that a contingency plan be in place for each major application, and that the contingency plan be tested on an annual basis.
		We received updated contingency plans for 41 out of 47 information systems on OPM's master system inventory.
	Recommendation	The OIG recommends that the OCIO ensure that all of OPM's major systems have contingency plans in place and are reviewed and updated annually.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A

1	Finding	System Security Plan: The LAN/WAN SSP does not fully and accurately identify all of the security controls applicable to this system.
	Recommendation	The OIG recommends that the OCIO complete an SSP for the LAN/WAN that includes all of the required elements from OPM's SSP template and relevant NIST guidance. This includes, but is not limited to, the specific deficiencies outlined in the section above.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence tha implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for ensuring that system security controls are properly documented.
2	Finding	System Controls Assessment: The LAN/WAN security controls assessment likely did not identify vulnerabilities that could have been detected with a thorough test.
	Recommendation	The OIG recommends that the OCIO perform a thorough security controls assessment on the LAN/WAN. This assessment should address the deficiencies listed in the section above, and should be completed after a current and thorough SSP is in place (see Recommendation 1).
	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for ensuring that systems have appropriate security controls in place and functioning properly.
3	Finding	Plan of Action and Milestones: OPM was unable to provide a POA&M for the LAN/WAN.
	Recommendation	The OIG recommends that the OCIO update and maintain a complete POA&M list for the LAN/WAN.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence tha implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for tracking know information security weaknesses.

4	Finding	Other Authorization Packages: Many of the Authorization packages completed as part of the Sprint were not complete.
	Recommendation	The OIG recommends that the OCIO perform a gap analysis to determine what critical elements are missing and/or incomplete for all Authorization packages developed during the Sprint. For systems that reside on the LAN/WAN general support system, the OCIO should also evaluate the impact that an updated LAN/WAN SSP has on these systems' security controls.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.

	Other Nonmonetary Benefit	Improved controls for ensuring that systems have appropriate security controls in place and functioning properly.

3	Finding	Risk Assessment: 29 of the 89 unsatisfied controls were not incorporated into the CBIS risk assessment.
	Recommendation	The OIG recommends that OPM perform an analysis to assess the risk of the 29 control deficiencies that were omitted from the CBIS risk assessment. OPM should update the CBIS risk assessment and POA&Ms to include all identified weaknesses and their risk levels.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Improved controls for managing information security risks.
6	Finding	Overdue Plan of Action and Milestones: 39 have scheduled completion dates that are more than 6 months overdue.
	Recommendation	The OIG recommends that OPM develop a detailed action plan to remediate all overdue POA&M items and close any that are no longer applicable. This action plan should include realistic estimated completion dates.
	Status	OPM believes corrective actions are completed. OPM submitted evidence to the OIG to support closure of the recommendation during the reporting period. Review is in progress.

1	Finding	System Classification: OPM has not assessed whether SharePoint should be considered a "major" information system requiring a formal authorization. Additionally, SharePoint is not currently listed on any OPM system inventors
	Recommendation	The OIG recommends that OPM conduct an analysis to determine the appropriate classification of SharePoint as an information system. If it is classified as a major system, OPM should conduct a full Authorization of SharePoint. If it is classified as a minor application, OPM should update the Authorization of the major system that hosts SharePoint to account for its security control needs and risks. We also recommend that OPM track SharePoint on its system inventories.

	Recommendation	The OIG recommends that OPM implement a process to routinely audit the configuration settings of SharePoint to ensure they are in compliance with the approved security configuration standards. Note – this recommendation cannot be implemented until the controls from Recommendation 6 are in place.
	Status	OPM is taking corrective actions. The OIG has not yet received evidence that implementation has been completed.

	Other Nonmonetary Benefit	Improved controls for ensuring that servers are in compliance with approved security settings.
8	Finding	Patch Management: Vulnerability scans revealed several servers missing critical patches released more than 90 days before the scans took place. The OCIO responded that they were aware of the missing patches, but with no test environment to test the patches before being deployed into production SharePoint servers, the decision was made to not apply the critical patches.
	Recommendation	The OIG recommends that OPM implement a process to test patches on its SharePoint servers. Once this process has been implemented, we recommend OPM implement controls to ensure all critical patches are installed on SharePoint servers and databases in a timely manner as defined by OPM policies.

#### III. EXPERIENCE-RATED HEALTH INSURANCE AUDITS

This section describes the open recommendations from audits of experience-rated health insurance carriers that participate in the Federal Employees Health Benefits Program (FEHBP).

leport	#: 1A-10-17-14-03	re Service Corporation 7
ec. #	November 19, 2015	
1	Finding	Veteran Affairs (VA) Claim Review: Our review determined the Health Care Service Corporation (HCSC) incorrectly paid 13,108 VA claims, resulting in overcharges of \$35,562,962 to the FEHBP. For most of these claims, the Plan did not provide documentation to support how the Plan determined that paying these claims using billed charges was cost effective and advantageous to the FEHBP.
	Recommendation	We recommend that the contracting officer disallow \$35,562,962 for claim overcharges and verify that the Plan returns all amounts recovered to the FEHBP. Due to the nature of this finding and the substantial amount questioned, the OIG also recommends that the contracting officer contact the Illinois, Montana, and New Mexico VA service areas to discuss a practical approach for recovery of these claims. Based on regulations, the contracting office should not allow the Plan to offset these recoveries against future payments.
	Status	As of September 30, 2018, OPM has collected \$664,130, allowed \$9,043,212 and there is a remaining receivable of \$25,855,620.
	Estimated Program Savings	\$26,519,750
	Other Nonmonetary Benefit	N/A
2	Finding	Veteran Affairs Claim Review: Our review determined HCSC incorrectly paid 13,108 VA claims, resulting in overcharges of \$35,562.962 to the FEHBP. For most of these claims, the Plan did not provide documentation to support how the Plan determined that paying these claims using billed charge was cost effective and advantageous to the FEHBP.
	Recommendation	The OIG recommends that the contracting officer ensure the Plan is properly negotiating and/or contracting reasonable rates with VA providers on behalf of the FEHBP. Additionally, the contracting officer should ensure the Plan updates its policy to limit VA non-par providers to the FEP's non-par rates.
	Status	OPM is still reviewing this recommendation.
	Estimated Program Savings	Unknown – however, improving provider contracted rates should result in increased program savings to health benefit charges, administrative cost and member's cost share for health benefit services.
	Other Nonmonetary Benefit	Improved controls over ensuring VA claims are processed appropriately and strengthen FEHBP's VA provider networks.

4	Finding	Veteran Affairs Claim Review: Our review determined HCSC incorrectly paid 13,108 VA claims, resulting in overcharges of \$35,562,962 to the FEHBP. For most of these claims, the Plan did not provide documentation to support how the Plan determined that paying these claims using billed charges was cost effective and advantageous to the FEHBP.
	Recommendation	Due to the amount of claim overcharges identified in this finding, the OIG recommends that the contracting officer request the Association to perform a risk assessment on the Plan to determine FEP's impact for administrative cost (e.g., cost allocation methods and indirect expenses) and service charge. Any material differences identified should be properly adjusted in the Plan's accounting records and returned to the FEHBP.
	Status	OPM is still reviewing this recommendation
	Estimated Program Savings	Unknown: however, if implemented, this should result in an increased savings from Jan 1, 2012 - Dec 31, 2014.

	Recommendation	The OIG recommends that the contracting officer disallow \$17,652,501 for claim overcharges and verify that the Plan returns all amounts to the FEHBP. Due to regulations, the contracting officer should not allow the Plan to offset any recoveries against future payments, unless approved by a VA official.
	Status	OPM is still reviewing this recommendation. As of September 30, 2018, no money has been collected.

2	Finding	<u>Veteran Affairs Claims Review</u> : We reviewed a sample of claims where the amount paid to VA service providers was greater than or equal to the amount billed by the provider. We consider these claims as high risk for payment errors because paying a claim at or above the billed amount could indicate that the FEHBP did not receive a discount in the pricing of that claim.
	Recommendation	The OIG recommends that the contracting officer require the Plan to perform a cost analysis using all lines of business (LOBs) and types of services (i.e., inpatient, outpatient, and physician) to determine what rates are reasonable fo the FEHBP to obtain and pay VA facilities. Based on this analysis, the OIG recommends the contracting officer provide oversight that the Plan practices due diligence to ensure the Plan contracts equitably to pay VA claims on behalf of the FEHBP.
	Status	OPM is still reviewing this recommendation. No corrective actions have been implemented at this time.
	Estimated Program Savings	Unknown – however, improving provider contracted rates should result in increased program savings to health benefit charges, administrative cost, and member's cost share for health benefit services.

		errors because paying a claim at or above the billed amount could indicate that the FEHBP did not receive a discount in the pricing of that claim.
	Recommendation	The OIG recommends that the contracting officer require the Plan to perform an analysis to determine the extent that the Plan's administrative cost reimbursements were overstated as a result of the overpayment of VA claims. The contracting officer should ensure that the Plan returns all excessive administrative cost reimbursements to the FEHBP.
	Status	OPM is still reviewing this recommendation. No corrective actions have bee implemented at this time.
	Estimated Program Savings	Unknown – however, improving provider contracted rates should result in increased program savings to health benefit charges, administrative cost, and member's cost share for health benefit services.
	Other Nonmonetary Benefit	Improved controls over ensuring VA claims are processed appropriately.
4	Finding	Hospice Claims Review: Our review determined that the Plan incorrectly paid 833 claims for Hospice services, resulting in overcharges of \$964,834 to the FEHBP.

Once this analysis is complete, we recommend that the contracting officer require the BCBS plans to pay VA claims using the lower of the VA's reasonable charge or the local plan's allowance that it would pay for the same care or services in the same geographic area, for all VA providers.
	Status	OPM is still reviewing this recommendation. No corrective actions have bee implemented at this time.

4	Finding	Veteran Affairs Claim Review: Our audit determined that the BCBS plans incorrectly paid 6,989 claims, resulting in \$58,023,161 in overcharges to the FEHBP. The Association and/or BCBS plans paid most of the claims questioned in this report using the full amount billed by the provider, instead of opting to use a lower available rate.
	Recommendation	The OIG recommends that the contracting officer require the Association to enhance the FEP Express system to automatically defer VA claims when a local UCR or average market rate has not been provided for non-par VA claims. These system enhancements should ensure that standard quality control reviews for VA claims (i.e., duplicate edits, OBRA 90 pricing) are being properly applied during the pricing of the claim.
	Status	OPM is still reviewing this recommendation. No corrective actions have been implemented at this time.

#### IV. COMMUNITY-RATED HEALTH INSURANCE AUDITS

1	Finding	Defective Pricing: The Certificates of Accurate Pricing that HMO Health Ohio (Plan) signed for contract years 2011 and 2012 were defective. In accordance with Federal regulations, the FEHBP is therefore due a rate reduction for these years. Application of the defective pricing remedy shows that the FEHBP is due a premium adjustment of \$3,177,807.  The OIG determined that defective pricing existed in 2011 and 2012 because the Plan improperly calculated its similarly sized subscriber groups' (SSSGs rates using rating information from its health maintenance organization (HMO) and preferred provider organization (PPO) product lines, resulting in SSSG discounts that were not applied to the FEHBP.
	Recommendation	The OIG recommends that the OPM contracting officer either require the Plato reimburse the FEHBP \$3,177,807 for defective pricing, or provide sufficient documentation to support the rate build-up for a PPO product's rates in 2011 and 2012 so that the revenue neutrality resulting from the blending of the HMO and PPO rates can be validated.
	Status	On March 7, 2019, OPM sent a resolution to the Plan requesting a proposed settlement to resolve this finding. If a response was not received within 30 days, OPM planned to issue a Contracting Officer's Final Decision letter for the entire amount of the finding.
	Estimated Program Savings	\$3,177,807
	Other Nonmonetary Benefit	To ensure that Federal employees and their employing agencies are paying a fair and reasonable price for health coverage.
2	Finding	Lost Investment Income: In accordance with the FEHBP regulations and the contract between OPM and the Plan, the FEHBP is entitled to recover lost in vestment income on the defective pricing findings in contract years 2011 and 2012. The OIG determined that the FEHBP is due \$306,181 for lost investment income, calculated through August 31, 2016.
	Recommendation	The OIG recommends that the OPM that the contracting officer require the Plan to return \$306,181 to the FEHBP for lost investment income, calculated through August 31, 2016. We also recommend that the OPM contracting officer recover lost investment income on amounts due for the period beginning September 1, 2016, until all defective pricing amounts have been returned to the FEHBP.
	Status	On March 7, 2019, OPM sent a resolution to the Plan requesting a proposed settlement to resolve this finding. If a response was not received within 30 days, OPM planned to issue a Contracting Officer's Final Decision letter for the entire amount of lost investment income that would be accrued to the day of the Decision letter.
	Estimated Program Savings	\$523,331
	Other Nonmonetary Benefit	To ensure that the Federal Government receives reimbursement for interest lost on Program funds due to improper payments.

#### V. OTHER INSURANCE AUDITS

This section describes the open recommendations from audits of other benefit and insurance programs, including the Federal Employees Dental/Vision Insurance Program, the Federal Employees Long Term Care Insurance Program, and the Federal Employees Group Life Insurance Program, as well as audits of Pharmacy Benefit Managements (PBMs) that participate in the FEHBP.

Date: ( Rec. #	#: 4A-RI-16-014 October 14, 2015	
2	Finding	Period of Performance Significantly Exceeded FAR Limits: The FSAFEDS contract exceeded a 12-year period, and there were substantial changes to the Government's program requirements that occurred over the course of the contract's term. The FAR limits procurement for this type of service to a 5-year performance period. Furthermore, in the absence of a statutory requirement, the contract's initial term of seven years with an unlimited number of options is adverse to the Government's best interest because of a lack of built-in competition for enrollees that is inherent in other benefit programs administered by OPM ( <i>i.e.</i> , the Federal Employees Health Benefits Program and the Federal Employee Dental and Vision Insurance Program).
	Recommendation	The OIG recommends that controls be implemented to ensure that future program procurements follow FAR requirements and that the contracts' periods of performance adhere to the limits under the FAR.
	Status	The agency agreed with the recommendation. The OIG has not yet received sufficient evidence that implementation has been completed.
	Estimated Program Savings	Indirect savings - unknown
	Other Nonmonetary Benefit	Improved controls to ensure compliance with FAR and to enhance procurements integrity within OPM.

<u>Title</u>: Audit of the Mail Handlers Benefit Plan's Pharmacy Operations as Administered by CaremarkPCS Health, L.L.C. for Contract Years 2012 through 2014 for Contract Years 2012 through 2014

Report #: 1H-01-00-16-044

Date: October 2, 2017

Rec. #		
1	Finding	Mail Handlers Benefit Plan (Plan) paid \$1,562,397 in pharmacy claims for 302 dependents age 26 or older whose eligibility to participate in the FEHBP could not be supported. We reviewed the pharmacy claims paid for 2012 through 2014 and found that the Plan was unable to provide evidence to support the eligibility of 302 dependents enrolled in the FEHBP past their 26th birthday. There was no disability certification maintained by the Plan or the member was not removed from the FEHBP timely, increasing the risk of overcharges to the FEHBP.
	Recommendation	The OIG recommends that the Plan provide evidence to support that the 302 dependents were eligible to remain enrolled in the FEHBP due to a disability and incapable of self-support, or return \$1,562,397 to the program.
	Status	The Plan agreed that verification of the member eligibility status is necessary, but it disagreed with our assessment that inadequate internal controls resulted in a significant risk of FEHBP overcharges. As of March 31, 2019, OPM has allowed \$860,379, and there is a receivable of \$702,018.
	Estimated Program Savings	\$702,018
	Other Nonmonetary Benefit	Improved controls to ensure compliance with FEHBP eligibility requirements.

#### VI. EVALUATIONS

This section describes the open recommendations from evaluation reports issued by the OIG.

	<u>#</u> : 4K-RS-00-16-02 September 28, 2016	
Rec. #	5cp/cimber 20, 2010	
1	Finding	Retirement Services is Not Providing Timely Responses to Annuitants' Inquiries: The OIG found that Retirement Services is not providing timely responses to customer inquiries. Specifically, LASs are not responsive to messages left in their voice mailboxes and annuitants are having to make multiple attempts to contact RS for a response to their inquiry.
	Recommendation	The OIG recommends that Retirement Services establish written policies and procedures for LASs to handle annuitants' phone inquiries including guidelines that ensure LASs are retrieving voice messages regularly to avoid full voicemail boxes and returning calls within a specified time frame.
	Status	The agency partially agreed with this recommendation and is taking corrective action. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	The OIG believes that if LASs are retrieving voice messages regularly to avoid full voicemail boxes and returning calls within a specified time frame, the number of calls to the toll-free number would be reduced and customer satisfaction would improve.
2	Finding	Retirement Services is Not Providing Timely Responses to Annuitants' Inquiries: The OIG found that Retirement Services is not meeting its goal to respond to all written correspondence.
	Recommendation	The OIG recommends Retirement Services allocate additional resources to address the backlog of written correspondences.
	Status	The agency agreed with this recommendation and is taking corrective action. The OIG has not yet received evidence that implementation has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	By addressing the backlog of written correspondences, annuitants written inquires would be answered in a timely manner and customer satisfaction would improve.

<u>Title</u>: Evaluation Of The U.S. Office Of Personnel Management's Retirement Services'

Imaging Operations
Report #: 4K-RS-00-17-039
Date: March 14, 2018

Rec. #		
3	Finding	No Performance Measures to Assess Benefits of Imaging Efforts: Retirement Services has not developed any performance indicators that would allow it to measure the progress of its imaging operations in achieving its desired results.
	Recommendation	The OIG recommends that Retirement Services develop performance measures to determine if its imaging operations is achieving its intended results.
	Status	The agency agreed with this recommendation and stated that they would determine the appropriate performance measures based on the result of the quality assurance audits. The OIG has not yet received evidence that the implementation of performance measures has been completed.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	The OIG believes that by establishing performance measures to track the efforts of its imaging operations, RS decreases the risk of wasting limited resources on a program that is not meeting its intended purpose

### VII. MANAGEMENT ADVISORIES

This section describes the open recommendations from management advisories issued by the OIG.

Report	ion Annuity Supple <u>#</u> : L-2018-1	
late:   lec.#	February 5, 2018	
1	Finding	The OIG found that OPM's recent reinterpretation was incorrect and section 8421 did not mandate that OPM allocate the annuity supplement between an annuitant and a former spouse when the state court order was silent. OPM's longstanding past practice of not allocating the supplement supports this finding.
	Recommendation	The OIG recommends that OPM cease implementing the Retirement Insurance Letter (RIL) 2016-12 and OS Clearinghouse 359 memorandum to apply the state court-ordered marital share to Annuity Supplements unless those court orders expressly and unequivocally identify the Annuity Supplement to be apportioned.
	Status	OPM disagrees with the recommendation and therefore has taken no action.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	OPM's change in interpretation requires compliance with the Administrative Procedure Act (APA) and providing public notice and an opportunity to comment before OPM makes substantive changes to established rights. In addition, compliance with the recommendation would restore OPM's compliance with its ministerial obligations of the underlying state court orde that are silent on the apportionment of the Annuity Supplement.
2	Finding	See number 1.
	Recommendation	The OIG recommends that OPM take all appropriate steps to make whole those retired law enforcement officers (LEOs) and any other annuitants affected by this re-interpretation. This would include reversing any annuities that were decreased either prospectively or retroactively that involved a state court order that did not expressly address the Annuity Supplement.
	Status	OPM disagrees with the recommendation and therefore has taken no action.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Compliance with applicable law, including OPM's own regulations that require it perform ministerial actions only. This would restore faith in the legal system as well as OPM's fiduciary responsibilities regarding annuities. It would also restore faith in the parties' previously negotiated property settlements that are reflected in the underlying state court orders.

3	Finding	See number 1.
	Recommendation	The OIG recommends that OPM determine whether it has a legal requirement to make its updated guidance, including Retirement Insurance Letters, publicly available.
	Status	OPM disagrees with the recommendation and therefore has taken no action.
	Estimated Program Savings	N/A
	Other Nonmonetary Benefit	Compliance with applicable law, so that annuitants and their spouses are public notice of this new OPM policy that significantly affects how OPM processes state court orders – and that has resulted in the imposition of unexpected substantive obligations.
