

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**
WASHINGTON, D.C. 20555-0001

OFFICE OF THE
INSPECTOR GENERAL

November 15, 2019

MEMORANDUM TO: Chairman Svinicki

FROM: 
David C. Lee
Deputy Inspector General

SUBJECT: RESULTS OF THE AUDIT OF THE UNITED STATES
NUCLEAR REGULATORY COMMISSION'S FINANCIAL
STATEMENTS FOR FISCAL YEAR 2019 (OIG-20-A-04)

The *Chief Financial Officers Act of 1990*, as amended (*CFO Act*), requires the Inspector General (IG) or an independent external auditor, as determined by the IG, to annually audit the United States Nuclear Regulatory Commission's (NRC) financial statements in accordance with applicable standards. In compliance with this requirement, the Office of the Inspector General (OIG) retained CliftonLarsonAllen (CLA) to conduct this annual audit. Transmitted with this memorandum is CLA's audit report. CLA examined NRC's Fiscal Year (FY) 2019 Agency Financial Report, which includes financial statements for FY 2019. CLA's audit report contains the following reports:

- Opinion on the Financial Statements.
- Opinion on Internal Control over Financial Reporting.
- Report on Compliance with Laws, Regulations, Contracts, and Grant Agreements.

Objective of a Financial Statement Audit

The objective of a financial statement audit is to determine whether the audited entity's financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

CLA's audit included, among other things, obtaining an understanding of NRC and its operations, including internal control over financial reporting; evaluating the design and operating effectiveness of internal control and assessing risk; and testing relevant internal

controls over financial reporting. Because of inherent limitations in internal controls, misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of any internal control to future periods are subject to the risk that the internal control may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

FY 2019 Audit Results

The results are as follows:

Financial Statements

- Unmodified opinion.

Internal Control over Financial Reporting

- Unmodified opinion.

Compliance with Laws and Regulations

- No instances of noncompliance noted.

OIG Oversight of CLA's Performance

To fulfill our responsibilities under the *CFO Act* and related legislation for ensuring the quality of the audit work performed, we monitored CLA's audit of NRC's FY 2019 financial statements by:

- Reviewing CLA's audit approach and planning.
- Evaluating the qualifications and independence of CLA's auditors.
- Monitoring audit progress at key points.
- Examining the working papers related to planning and performing the audit and assessing NRC's internal controls.
- Reviewing CLA's audit report to ensure compliance with Government Auditing Standards and Office of Management and Budget Bulletin No. 19-03.
- Coordinating the issuance of the audit report.
- Performing other procedures deemed necessary.

CLA is responsible for the attached auditor's report, dated November 13, 2019, and the conclusions expressed therein. OIG is responsible for technical and administrative oversight regarding the firm's performance under the terms of the contract. Our oversight,

as differentiated from an audit in conformance with Government Auditing Standards, was not intended to enable us to express an opinion, and accordingly we do not express an opinion on:

- NRC's financial statements.
- Effectiveness of NRC's internal control over financial reporting.
- NRC's compliance with laws, regulations, contracts, and grant agreements.

However, our monitoring review, as described above, disclosed no instances where CLA did not comply, in all material respects, with applicable auditing standards.

Meeting with the Chief Financial Officer

At the exit conference on November 14, 2019, representatives of the Office of the Chief Financial Officer, OIG, and CLA discussed the results of the audit.

Comments of the Chief Financial Officer

In her response, the Chief Financial Officer agreed with the report. The full text of her response follows this report.

We appreciate NRC staff's cooperation and continued interest in improving financial management within NRC.

INDEPENDENT AUDITORS' REPORT

To: Inspector General
United States Nuclear Regulatory Commission

Chairman
United States Nuclear Regulatory Commission

In our audit of the fiscal year 2019 financial statements of the United States Nuclear Regulatory Commission (NRC), we found

- NRC's financial statements as of and for the fiscal year ended September 30, 2019, are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles;
- NRC maintained, in all material respects, effective internal control over financial reporting as of September 30, 2019; and
- No reportable noncompliance for fiscal year 2019 with provisions of applicable laws, regulations, contracts, and grant agreements we tested.

The following sections discuss in more details (1) our report on the financial statements and on internal control over financial reporting, required supplementary information (RSI)¹, and other information (OI)² included in the financial statements; (2) our report on compliance with laws, regulations, contracts, and grants agreements; and (3) agency comments.

Report on the financial statements and on Internal Control over Financial Reporting

In accordance with our contract with NRC's Office of Inspector General, we have audited NRC's financial statements. NRC's financial statements comprise of the balance sheet as of September 30, 2019; the related statement of net cost, changes in net position, and budgetary resources for the fiscal year ended; and the related notes to the financial statements. We also audited NRC's internal control over financial reporting as of September 30, 2019, based on criteria established under 31 U.S.C. § 3512(c), (d), commonly known as the Federal Managers' Financial Integrity Act (FMFIA).

We conducted our audits in accordance with U.S. generally accepted government auditing standards and OMB Bulletin No. 19-03, *Audit Requirements for Federal Financial Statements* (OMB 19-03). We believe that the audit evidence we obtained is sufficient and appropriate to provide a basis for our opinions.

¹ The RSI consists of Management's Discussion and Analysis (MD&A) and the Combined Statement of Budgetary Resources, which are included with the financial statements.

² Other Information consists of information included with the financial statements, other than RSI and the auditors' report.

INDEPENDENT AUDITORS' REPORT, CONTINUED

Management's Responsibility

NRC management is responsible for (1) the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; (2) preparing, measuring, and presenting RSI in accordance with U.S. generally accepted accounting principles; (3) preparing and presenting other information included in documents containing the audited financial statements and auditors' report, and ensuring the consistency of that information with the audited financial statements and the RSI; (4) maintaining an effective internal control over financial reporting, including the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; (5) evaluating the effectiveness of internal control over financial reporting based on the criteria established under FMFIA; and (6) its assessment included in the MD&A about the effectiveness of internal control over financial reporting as of September 30, 2019.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements and an opinion on NRC's internal control over financial reporting based on our audits. U.S. generally accepted government auditing standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement, and whether effective internal control over financial reporting was maintained in all material respects. We are also responsible for applying certain limited procedures to RSI and OI included with the financial statements.

An audit of financial statements involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit of financial statements also involves evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

An audit of internal control over financial reporting involves performing procedures to obtain evidence about whether a material weakness³ exists. The procedures selected depend on the auditor's judgement, including the assessment of the risk that a material weakness exists. An audit of internal control over financial reporting also includes obtaining an understanding of internal control over financial reporting, and evaluating and testing the design and operating effectiveness of internal control over financial reporting based on the assessed risk. Our audit of internal control also considered NRC's process for evaluating and reporting on internal control over financial reporting based on criteria established under FMFIA. Our audits also included performing such other procedures as we considered necessary in the circumstances.

³ A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis.

INDEPENDENT AUDITORS' REPORT, CONTINUED

We did not evaluate all internal controls relevant to operating objectives as broadly established under FMFIA, such as those controls relevant to preparing performance information and ensuring efficient operations. We limited our internal control testing to testing controls over financial reporting. Our internal control testing was for the purpose of expressing an opinion on whether effective internal control over financial reporting was maintained, in all material respects. Consequently, our audit may not identify all deficiencies in internal control over financial reporting that are less severe than a material weakness.

Definition and Inherent Limitations of Internal Control over Financial Reporting

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, the objectives of which are to provide reasonable assurance that (1) transactions are properly recorded, processed, and summarized to permit the preparation of financial statements in accordance with U.S. generally accepted accounting principles, and assets are safeguarded against loss from unauthorized acquisition, use, or disposition, and (2) transactions are executed in accordance with provisions of applicable laws, including those governing the use of budget authority, regulations, contracts, and grant agreements, noncompliance with which could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct, misstatements due to fraud or error. We also caution that projecting any evaluation of effectiveness to future periods is subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion on Financial Statements

In our opinion, NRC's financial statements present fairly, in all material respects, NRC's financial position as of September 30, 2019, and its net cost of operations, changes in net position, and budgetary resources for the fiscal year then ended in accordance with U.S. generally accepted accounting principles.

Opinion on Internal Control over Financial Reporting

In our opinion, NRC maintained, in all material respects, effective internal control over financial reporting as of September 30, 2019, based on criteria established under FMFIA.

During our 2019 audit, we identified deficiencies in NRC's internal control over financial reporting that we do not consider to be material weaknesses or significant deficiencies⁴. Nonetheless, these deficiencies warrant NRC's management attention. We have communicated these matters to NRC management and, where appropriate, will report on them separately.

⁴ A significant deficiency is a deficiency or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

INDEPENDENT AUDITORS' REPORT, CONTINUED

Other Matters

Fiscal year 2018 financial statements

The accompanying fiscal year 2018 financial statements of NRC were audited by other auditors whose report thereon dated November 7, 2018, expressed an unmodified opinion on the financial statements and internal control over financial reporting.

Required Supplementary Information

U.S. generally accepted accounting principles issued by the Federal Accounting Standards Advisory Board (FASAB) require that the RSI be presented to supplement the financial statements. Although the RSI is not a part of the financial statements, FASAB considers this information to be an essential part of financial reporting for placing the financial statements in appropriate operational, economic, or historical context. We have applied certain limited procedures to the RSI in accordance with U.S. generally accepted government auditing standards, which consisted of inquiries of management about the methods of preparing the RSI and comparing the information for consistency with management's responses to the auditor's inquiries, the financial statements, and other knowledge we obtained during the audit of the financial statements, in order to report omissions or material departures from FASAB guidelines, if any, identified by these limited procedures. We did not audit and we do not express an opinion or provide any assurance on the RSI because the limited procedures we applied do not provide sufficient evidence to express an opinion or provide any assurance.

Other Information

NRC's other information contains a wide range of information, some of which is not directly related to the financial statements. This information is presented for purposes of additional analysis and is not a required part of the financial statements or the RSI. We read the other information included with the financial statements in order to identify material inconsistencies, if any, with the audited financial statements. Our audit was conducted for the purpose of forming an opinion on NRC's financial statements. We did not audit and do not express an opinion or provide any assurance on the other information.

Report on Compliance with Laws, Regulations, Contracts, and Grant Agreement

In connection with our audits of NRC's financial statements, we tested compliance with selected provisions of applicable laws, regulations, contracts, and grant agreements consistent with our auditor's responsibility discussed below. We caution that noncompliance may occur and not be detected by these tests. We performed our tests of compliance in accordance with U.S. generally accepted government auditing standards or OMB 19-03.

Management's Responsibility

NRC management is responsible for complying with laws, regulations, contracts, and grant agreements applicable to NRC.

INDEPENDENT AUDITORS' REPORT, CONTINUED

Auditors' Responsibility

Our responsibility is to test compliance with selected provisions of laws, regulations, contracts, and grant agreements applicable to NRC that have a direct effect on the determination of material amounts and disclosures in NRC's financial statements, and perform certain other limited procedures. Also, Section 803(b) of Federal Financial Management Improvement Act (FFMIA) requires the auditor to report whether the reporting entity's financial management systems comply substantially with Section 803(a) three requirements, which are (1) federal financial management systems requirements; (2) applicable federal accounting standards; and (3) the U.S. Government Standard General Ledger (USSGL) at the transaction level. Accordingly, we did not test compliance with all laws, regulations, contracts, and grant agreements applicable to NRC.

Results of Our Tests for Compliance with Laws, Regulations, Contracts, and Grant Agreements

Our tests for compliance with selected provisions of applicable laws, regulations, contracts, and grant agreements disclosed no instances of noncompliance for fiscal year 2019 that would be reportable under U.S. generally accepted government auditing standards. Moreover, the results of our tests disclosed no instances in which the NRC's financial management systems did not substantially comply with the three requirements in Section 803(a) of FFMIA. However, the objective of our tests was not to provide an opinion on compliance with laws, regulations, contracts, and grant agreements applicable to NRC. Accordingly, we do not express such an opinion.

Intended Purpose of Report on Compliance with Laws, Regulations, Contracts, and Grant Agreements

The purpose of this report is solely to describe the scope of our testing of compliance with selected provisions of applicable laws, regulations, contracts, and grant agreements, and the results of that testing, and not to provide an opinion on compliance. This report is an integral part of an audit performed in accordance with U.S. generally accepted government auditing standards in considering compliance. Accordingly, this report on compliance with laws, regulations, contracts, and grant agreements is not suitable for any other purpose.

NRC Management's Comments

NRC management, in its response to the discussion draft report we provided for comment, stated that it was in agreement with the draft report. The complete text of NRC's response is reprinted in the Agency Financial Report.

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

CHIEF FINANCIAL
OFFICER

November 13, 2019

MEMORANDUM TO: Brett M. Baker
Assistant Inspector General for Audits
Office of the Inspector General

FROM: 
Maureen E. Wylie
Chief Financial Officer

SUBJECT: AUDIT OF THE FISCAL YEAR 2019 FINANCIAL STATEMENTS

We appreciate the collaborative relationship between the Office of the Inspector General, the auditors, and the Office of the Chief Financial Officer in supporting our continuing effort to improve financial reporting. We have reviewed the Independent Auditor's Report of the Agency's fiscal year 2019 financial statements and are in agreement with it.

Notes to the Financial Statements

(All tables are presented in thousands)

Note 1 – Summary of Significant Accounting Policies

A. Reporting Entity

The NRC is an independent regulatory agency of the U.S. Federal Government that the Congress created to regulate the Nation's civilian use of byproduct, source, and special nuclear materials to ensure adequate protection of public health and safety, to promote the common defense and security, and to protect the environment. Its purposes are defined by the *Energy Reorganization Act of 1974*, as amended, along with the *Atomic Energy Act of 1954*, as amended, which provide the foundation for regulating the Nation's civilian use of nuclear materials.

The NRC operates through the execution of its congressionally approved appropriations for Salaries and Expenses (which includes funds derived from the Nuclear Waste Fund (NWF)) and the OIG.

B. Basis of Presentation

These financial statements for FY 2019 and FY 2018 (prior-year) are presented on a comparative basis. They report the financial position and results of operations of the NRC as required by the *Chief Financial Officers Act of 1990* and the *Government Management Reform Act of 1994*. These financial statements were prepared from the books and records of the NRC in conformance with generally accepted accounting principles (GAAP) for Federal entities of the United States and the form and content for entity financial statements specified in OMB Circular A-136. GAAP for Federal entities are the standards prescribed by the Federal Accounting Standards Advisory Board (FASAB). The FASAB has been recognized by the American Institute of Certified Public Accountants (AICPA) as the official accounting standard setting authority for the Federal government. These statements are different from the financial reports prepared by the NRC in compliance with OMB directives, which are used to monitor and control the NRC's use of budgetary resources.

Presentation of the budget accounts on the Combining Statement of Budgetary Resources shows columns for the no-year Salaries and Expenses appropriation, which includes funding for the Office of the Commission; no-year and 2-year funds aggregated for the OIG, and the Nuclear Facility Fees, which reflects the Distributed Offsetting receipts.

The NRC collects miscellaneous receipts for information requests under the Freedom of Information Act; civil penalties; and interest, administrative, and penalty charges on delinquent debt. All miscellaneous receipts, when collected, are returned to the U.S. Treasury. The NRC has not presented these amounts on a Statement of Custodial Activity as the amounts involved are immaterial and incidental to the agency's operations and mission.

C. Budgets and Budgetary Accounting

Budgetary accounting measures appropriation and consumption of budget spending authority or other budgetary resources and facilitates compliance with legal constraints and controls over the use of Federal funds. Under budgetary reporting principles, budgetary resources are used at the time of purchase. Assets and liabilities, which do not use current budgetary resources, are not reported, and only those liabilities for which valid obligations have been established are considered to use budgetary resources.

Congress passed the Energy and Water, Legislative Branch, and Military Construction and Veterans Affairs Appropriations Act, 2019 that funded the NRC's budget at a level of \$898.3 million for FY 2019. Not more than \$9.5 million of the appropriation was made available for the costs of the Office of the Commission until September 30, 2020. Additionally, Congress enacted a 2-year appropriation of \$12.6 million for the OIG, which is available for obligation by the NRC through September 30, 2020.

In FY 2018, Congress passed the *Consolidated Appropriations Act, 2018* that funded the NRC's budget at a level of \$909.1 million for FY 2018. Not more than \$9.5 million of the appropriation was made available for the costs of the Office of the Commission until September 30, 2019.

Additionally, Congress enacted a 2-year appropriation of \$12.9 million for the OIG, which was available for obligation by the NRC through September 30, 2019.

D. Basis of Accounting

These financial statements reflect both accrual and budgetary accounting transactions. Under the accrual method, revenues are recognized when earned and expenses are recognized when a liability is incurred, without regard to receipt or payment of cash. Budgetary accounting is also used to record the obligation of funds prior to the accrual-based transaction. The Statement of Budgetary Resources (SBR) presents total budgetary resources available to the NRC, the status of total budgetary resources, and net outlays for the year.

E. Revenues and Other Financing Sources

The NRC is required to offset its appropriations by revenue received during the FY from the assessment of fees. The NRC assesses two types of fees to recover its appropriation:

- Fees assessed to recover the NRC's costs of providing individually identifiable services to specific applicants and licensees under 10 CFR Part 170, *Fees for Facilities, Materials, Import and Export Licenses, and Other Regulatory Services under the Atomic Energy Act of 1954, as Amended*, for licensing, inspection, and other services under the authority of the Independent Offices Appropriation Act of 1952
- Annual fees assessed for nuclear facilities and materials licensees under 10 CFR Part 171, *Annual Fees for Reactor Licenses and Fuel Cycle Licenses and Materials Licenses*

Licensing revenues are recognized on a straight-line basis over the licensing period. The annual licensing period for reactor and materials fees begins October 1 and ends September 30. Annual fees for reactors are invoiced in four quarterly installments, before the end of each quarter. The NRC invoices licensees for materials annual fees in the month the license was originally issued. Inspection fees are recorded as revenues when the services are performed.

For accounting purposes, appropriations are recognized as a financing source (appropriations used) at the time goods and services are received. Periodically during the Fiscal Year (FY), appropriations recognized are reduced by the amount of assessed fees collected during the FY to the extent of new budget authority for the year. Collections that exceed 90 percent of the NRC's appropriation, excluding amounts appropriated for Waste Incidental to Reprocessing, Generic Homeland Security, Regulatory Infrastructure for Advanced Reactor Technologies, International activities, Integrated University Grants program, and OIG services for the Defense Nuclear Facilities Safety Board (DNFSB), are held to offset subsequent years' appropriations. The NRC recognizes appropriated expenses over the useful life of property and equipment as reflected by depreciation and amortization expense.

F. Fund Balance with Treasury

The Treasury processes the NRC's cash receipts and disbursements. The Fund Balance with Treasury is primarily appropriated funds and license fee collections that are available to pay current liabilities and to finance authorized purchase commitments. The Fund Balance with Treasury represents the NRC's right to draw on the U.S. Treasury for allowable expenditures.

G. Accounts Receivable

Accounts receivable consist of amounts that other Federal agencies and the public owe to the NRC. Amounts due from the public are presented net of an allowance for uncollectible accounts. The allowance is determined based on the age of the receivable and allowance rates established from historical experience. Receivables from Federal agencies are expected to be collected; therefore, there is no allowance for uncollectible accounts for Federal agencies.

H. Non-Entity Assets

Non-entity assets consist of miscellaneous fees assessed for Freedom of Information Act requests; civil penalties; and interest, administrative charges, and penalties assessed on delinquent debt due from the public. Once collected, the funds are transferred to the U.S. Treasury.

I. Property and Equipment

Property and equipment consist primarily of typical office furnishings, leasehold improvements, nuclear reactor simulators, and computer hardware and software. The costs of internal use software include the full cost of salaries and benefits for agency personnel involved in software development. The NRC has no real property as the land and buildings in which the NRC operates are leased through the General Services Administration (GSA). The rent approximates the commercial rental rates for similar properties.

Property with a cost of \$50,000 or more per unit and a useful life of 2 years or more is capitalized at cost and depreciated using the straight-line method over the useful life of the asset. Other property items are expensed when purchased. Normal repairs and maintenance are charged to expense as incurred.

J. Accounts Payable

The NRC uses an estimation methodology to calculate the accounts payable balance, which represents costs for billed and unbilled goods and services received but unpaid before year-end. The NRC calculates the accounts payable amount using an average based on the historical trend of validated accruals. The estimation methodology is validated quarterly.

K. Liabilities Not Covered by Budgetary Resources

Liabilities not Covered by Budgetary Resources represents the amount of future funding needed to pay the accrued unfunded expenses as of the end of the FY. These liabilities are not funded from current or prior-year appropriations and assessments, but instead they are funded from future appropriations and assessments.

Liabilities represent the amount of monies or other resources that are likely to be paid by the NRC as a result of a transaction or event that has already occurred. The NRC cannot pay Liabilities without an appropriation. Liabilities for which an appropriation has not been enacted are classified as "Liabilities Not Covered by Budgetary Resources" and fall into the following three categories:

- **Intragovernmental.** The NRC records a liability to the U.S. Department of Labor (DOL) for Federal Employees Compensation Act (FECA) benefits paid by the DOL on behalf of the NRC. The NRC also accrued a liability to GSA for Broker Commission Credits (BCC) received by the NRC and annual step rent increases on the occupancy agreements for rent of NRC office space. The NRC amortizes the liability on a straight-line basis and paid to GSA over the life of the occupancy agreements.
- **Federal Employee Benefits.** Federal employee benefits represent the actuarial liability for estimated future FECA disability benefits. The DOL generates the future workers' compensation estimate from an application of actuarial procedures developed to estimate the liability for FECA, which includes the expected liability for death, disability, medical, and miscellaneous costs for approved compensation cases.
- **Other.** This category includes the amount of accrued annual leave earned by the NRC employees, but not yet taken; and contingent liabilities which have the probable likelihood of an adverse outcome.

L. Contingencies

Contingent liabilities are those for which the existence or amount of the liability cannot be determined with certainty pending the outcome of future events. The uncertainty should ultimately be resolved when one or more future events occur or fail to occur. Accounting treatment of the contingency depends on if the likely outcome is considered probable, reasonably possible, or remote.

A contingency is considered:

- probable when the future confirming event or events are more likely than not to occur, with the exception of pending or threatened litigation and unasserted claims. This type of contingency is recorded in the financial statements as a contingent liability (included in Other Liabilities) and as an expense. It should be recorded when a past event or exchange transaction has occurred, a future outflow or other sacrifice of resources is probable, and the future outflow or sacrifice of resources is measurable.
- reasonably possible when the chance of the future confirming event or events occurring is more than remote but less than probable. This type of contingency is disclosed in the notes to the financial statements (Note 17) if any of the conditions for liability recognition are not met and there is at least a reasonable possibility that a loss or an additional loss may have been incurred.
- remote when the chance of the future event or events occurring is slight. This type of contingency is not recognized as a liability and as an expense in the financial statements, nor is it disclosed in the notes when the chance of the future event or events occurring is remote.

M. Annual, Sick, and Other Leave

Annual leave is accrued as it is earned, and the accrual is reduced as leave is taken. Each year, the balance in the accrued annual leave liability account is adjusted to reflect current pay rates. To the extent that current or prior-year funding is not available to cover annual leave earned but not taken, funding will be obtained from future financing sources. Sick leave and other types of non-vested leave are expensed as taken.

N. Retirement Plans

The NRC employees belong to either the Federal Employees Retirement System (FERS) or the Civil Service Retirement System (CSRS).

The NRC does not report on its financial statements FERS and CSRS assets, accumulated plan benefits, or unfunded liabilities, if any, applicable to its employees. Reporting such amounts is the responsibility of the U.S. Office of Personnel Management (OPM). The portion of the current and estimated future outlays for FERS and CSRS not paid by the NRC is included in NRC's financial statements as an imputed financing source in the Statement of Changes in Net Position and as program costs on the Statement of Net Cost.

The NRC employees make mandatory contributions to their retirement plans through payroll deductions as required by law. For employees belonging to FERS and receiving an appointment before January 1, 2013, the NRC withheld 0.8 percent of base pay earnings and made an employer contribution of 13.7 percent in 2019 and 2018. In accordance with *Public Law 112-96, Section 5001 of the Middle Class Tax Relief and Job Creation Act of 2012*, employees hired after January 1, 2013, as Federal Employees Retirement System - Revised Annuity Employees (FERS-RAE) must pay 3.1 percent of their salary to retirement contributions with 11.9 percent in 2019 and 2018 for employer matching contributions. For employees hired after January 1, 2014, as Federal Employees Retirement System - Revised Annuity Employees (FERS-RAE) must pay 4.4 percent of their salary to retirement contributions with 11.9 percent in 2019 and 2018 for employer matching contributions. The sum is transferred to the Federal Employees Retirement

Fund. For employees covered by CSRS, the NRC withholds 7 percent of base pay earnings. The NRC matched this withholding with a 7 percent contribution in 2019 and 2018.

The Thrift Savings Plan is a retirement savings and investment plan for employees belonging to either FERS or CSRS. The maximum percentage of base pay that an employee participating in FERS or CSRS may contribute is unlimited, but it is subject to the maximum contribution of \$19,000 in 2019 and \$18,500 in 2018. For employees participating in FERS, the NRC automatically contributes 1 percent of base pay to the employee's account and matches contributions up to an additional 4 percent. For employees participating in CSRS, the NRC does match the contribution. The sum of the employees' and the NRC's contributions is transferred to the Federal Retirement Thrift Investment Board.

O. Leases

The NRC has two types of leases: capital leases and operating leases (Note 7):

- Capital leases: Capital leases are leases that transfer substantially all the benefits and risks of ownership to the lessee. Capital leases are reported in the Balance Sheet as an asset under Property and Equipment and as a liability under Other Liabilities. If at its inception, a lease meets one or more of the following four criteria, the lessee should classify the lease as a capital lease:
 1. The lease transfers the ownership of the property to the lessee by the end of the lease term.
 2. The lease contains an option to purchase the leased property at a bargain price.
 3. The lease term is equal or greater than 75 percent of the estimated economic life of the leased property.
 4. The present value of rental or other minimum lease payments, excluding that portion of the payments representing executor cost, equals or exceeds 90 percent of the fair value of the leased property.

The NRC's capital leases are for personal property consisting of reproduction equipment that is installed at the NRC Headquarters.

- Operating leases: The FASAB defines an operating lease as a lease in which the Federal entity does not assume the risks of ownership of the property, plant, and equipment (PP&E). It is an agreement conveying the right to use property for a limited time in exchange for periodic rental payments.

Operating leases at the NRC consist of real property leases with the GSA. The leases are for the NRC's Headquarters, regional offices, and Technical Training Center (TTC). The GSA charges the NRC lease rates that approximate commercial rates for comparable space.

P. Pricing Policy

The NRC provides nuclear reactor and materials licensing and inspection services to the public and other Government entities. In accordance with OMB Circular A-25, "Transmittal Memorandum #1, User Charges," and the *Independent Offices Appropriation Act of 1952*, the

NRC assesses fees under 10 CFR Part 170 for licensing and inspection activities to recover the full cost of providing individually identifiable services.

The NRC's policy is to recover the full cost of goods and services provided to other Government entities where the services performed are not part of the agency's statutory mission and the NRC has not received appropriations for those services. Fees for reimbursable work are assessed at the 10 CFR Part 170 rate with minor exceptions for programs that are nominal activities of the NRC.

Q. Net Position

The NRC's net position consists of unexpended appropriations and cumulative results of operations. Unexpended appropriations represent (1) appropriated spending authority that is unobligated and has not been withdrawn by the U.S. Treasury, and (2) unliquidated obligations and expenditures not yet disbursed. Cumulative results of operations represent the excess of financing sources over expenses since inception.

R. Use of Management Estimates

The preparation of the accompanying financial statements in accordance with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. Actual results could differ from those estimates.

S. Transfers of Authority

In prior years, the NRC was a party to non-expenditure transfers of funds, as a receiving entity, from the U.S. Agency for International Development. The transfers were for the international development of nuclear safety and regulatory authorities in other countries. Transfers are legal delegations by one agency of its authority to obligate budget authority and outlay funds to another agency. NRC completed its participation in this project and had residual unobligated funds of \$68,076.04 remaining from these transfers, which were rescinded in FY 2018.

T. Statement of Net Cost

The programs as presented on the Statement of Net Cost are based on the annual performance budget and are described as follows:

The Nuclear Reactor Safety program encompasses all the NRC efforts to ensure that civilian nuclear power reactor facilities and research and test reactors are licensed and operated in a manner that adequately protects public health and safety, and the environment, and protects against radiological sabotage and theft or diversion of special nuclear materials. The Nuclear Reactor Safety program consist of the following activities: operating reactors and new reactors.

The Nuclear Materials and Waste Safety program encompasses all the NRC efforts to protect the public health and safety and the environment and ensures the secure use and management of radioactive materials. The Nuclear Materials and Waste Safety program consist of the following activities: fuel facilities, nuclear materials users, decommissioning and low-level waste, spent fuel storage and transportation, and a high-level waste repository.

For intragovernmental gross costs and revenue, the buyers and sellers are Federal entities. For earned revenues from the public, the buyers of the goods or services are non-Federal entities.

Note 2 – Fund Balance with Treasury

As of September 30,	2019	2018
Fund Balances:		
Appropriated funds	\$ 411,438	\$ 386,433
Nuclear Waste Fund	433	461
Other fund types	–	–
Total	\$ 411,871	\$ 386,894
Status of Fund Balance with Treasury:		
Unobligated balance		
Available - Appropriated funds	\$ 68,124	\$ 40,006
Unavailable		
Unapportioned, unexpired accounts	–	3
Expired accounts	1,247	1,135
Obligated balance not yet disbursed	342,500	345,750
Total	\$ 411,871	\$ 386,894

The Fund Balance with Treasury consists of the unobligated and obligated budgetary account balances, including NWF activity. The NWF unobligated balance was \$0.4 million as of September 30, 2019 and 2018.

Other fund types in the Fund Balance with Treasury represent license fee collections used to offset the NRC current year budget authority, miscellaneous collections, and adjustments that will offset revenue in the following FY.

Note 3 – Accounts Receivable

As of September 30,	2019	2018
Intragovernmental:		
Fee receivables and reimbursements	\$ 5,501	\$ 5,680
Receivables with the Public:		
Materials and facilities fees-billed	\$ 4,026	\$ 6,150
Materials and facilities fees-unbilled	58,622	65,508
Other	671	790
Total Receivables with the Public	63,319	72,448
Less: Allowance for uncollectible accounts	(2,417)	(2,808)
Total Receivables with the Public, Net	\$ 60,902	\$ 69,640
Total Accounts Receivable	\$ 68,820	\$ 78,128
Less: Allowance for uncollectible accounts	(2,417)	(2,808)
Total Accounts Receivable, Net	\$ 66,403	\$ 75,320

Note 4 – Property and Equipment, Net

As of September 30,				2019	2018
Fixed Assets Class	Service Years	Acquisition Value	Accumulated Depreciation and Amortization	Net Book Value	Net Book Value
Equipment	5-8	\$ 9,364	\$ (7,851)	\$ 1,513	\$ 962
Leased equipment	5-8	924	(924)	–	105
IT software	5	78,715	(64,940)	13,775	18,392
IT software under development	–	1,403	–	1,403	–
Leasehold improvements	20	78,119	(39,948)	38,171	45,232
Leasehold improvements in progress	–	787	–	787	382
Total		\$ 169,312	\$ (113,663)	\$ 55,649	\$ 65,073

In accordance with SFFAS No. 44, "Accounting for Impairment of General Property, Plant, and Equipment Remaining in Use," the NRC repairs or replaces capital assets as required and does not recognize impairment losses.

Note 5 – Other Liabilities

As of September 30,		2019	2018
Intragovernmental:			
Liability to the U.S. Treasury General Fund for misc. receipts		\$ 14	\$ 30
Liability for advances from other agencies		10	18
Accrued workers' compensation		970	1,045
Accrued unemployment compensation		9	–
Employee benefit contributions		4,596	4,305
Other liabilities		5,925	–
Total Intragovernmental Other Liabilities		\$ 11,524	\$ 5,398
Other Liabilities:			
Accrued annual leave		\$ 42,004	\$ 42,476
Accrued salaries and benefits		16,553	15,598
Employer Contributions & Payroll Taxes Payable		746	688
Contract holdbacks, advances, capital lease liability, and other		815	2,495
Contingent liabilities		–	–
Grants payable		13,510	11,136
Total Other Liabilities		\$ 73,628	\$ 72,393
Total Intragovernmental and Other Liabilities		\$ 85,152	\$ 77,791

Other Liabilities represents the accrual of BCC received by the NRC and the sum of annual step rent increases paid to GSA for rent of NRC office space. The credits received by the NRC and the step rent increases are amortized on a straight-line basis over the life of the occupancy agreements.

Other liabilities are current except for the \$5.9 million accrual for BCC and annual step rent increases on the existing occupancy agreements with GSA.

Note 6 – Liabilities Not Covered by Budgetary Resources

As of September 30,	2019	2018
Intragovernmental:		
FECA paid by DOL	\$ 970	\$ 1,045
Accrued unemployment compensation	9	–
Federal Employee Benefits:		
Future FECA	4,607	5,259
Other:		
Accrued annual leave	42,004	42,476
Contingent liabilities	–	–
Other liabilities	5,925	–
Total Liabilities Not Covered by Budgetary Resources	53,515	48,780
Total Liabilities Covered by Budgetary Resources	71,692	66,164
Total Liabilities	\$ 125,207	\$ 114,944

Liabilities Not Covered by Budgetary Resources represents the amount of future funding needed to pay the accrued unfunded expenses as of September 30, 2019, and 2018. These liabilities are not funded from current or prior-year appropriations and assessments, but rather they should be funded from future appropriations and assessments. Accordingly, future funding requirements have been recognized for the expenses that will be paid from future appropriations.

The projected annual benefit payments for FECA are discounted to present value. For FY 2019, projected annual payments were discounted to present value based on the OMB's interest rate assumptions, which were interpolated to reflect the average duration in years for income payments and medical payments. The interest rate assumptions used for FY 2019 discounting were 2.716 percent in year 1 and year 2 for wage benefits, and 2.379 percent in year 1 and year 2 for medical benefits.

Note 7 – Leases

As of September 30,	2019	2018
Assets Under Capital Leases:		
Copiers and booklet maker	\$ 924	\$ 1,318
Accumulated depreciation	(924)	(1,213)
Net Assets Under Capital Leases	\$ –	\$ 105

Future Lease Payments Due:

As of September 30,	Fiscal Year		Capital	Operating	2019	2018
2018			\$ –	\$ –	\$ –	\$ –
2019			–	–	–	31,269
2020			–	45,318	45,318	37,922
2021			–	43,974	43,974	36,469
2022			–	42,538	42,538	34,999
2023 and thereafter			–	287,286	287,286	249,780
Total Lease Liability			–	419,116	419,116	390,439
Subtract: Imputed Interest			–	–	–	–
Total Future Lease Payments			\$ –	\$ 419,116	\$ 419,116	\$ 390,439

The Capital Lease Liability of \$175 thousand as of September 30, 2018 for reproduction equipment is included in Other Liabilities (Note 5). For Future Lease Payments, the NRC calculated the Capital Lease Liability as of September 30, 2018 and subtracted the imputed interest to arrive at the Total Future Lease Payments. The reproduction equipment is generally depreciated over 5 years using the straight-line method with no salvage value. The lease agreement ended in the first quarter of FY 2019.

The land and buildings in which the NRC operates are leased through GSA. The NRC Headquarters complex consists of three office buildings and a warehouse located in Rockville, MD, with one of the headquarters office buildings jointly leased with the U.S. Food and Drug Administration (FDA). The NRC has four regional offices that are located in King of Prussia, PA, Atlanta, GA, Lisle, IL, and Arlington, TX. In addition, the NRC operates and maintains the TTC located in Chattanooga, TN.

In the Three White Flint North (3WFN) office building, the NRC occupies 110,109 useable square feet (34.08% of the building) and the NRC is no longer the primary tenant. The FDA occupies the other floors. Future plans to reduce the NRC footprint call for the NRC to release two floors of 3WFN in early FY 2020. The lease bill for 3WFN will be approximately \$8.0 million less per year. The NRC will not recognize savings for these floors until another Federal agency leases the space.

The NRC leases for land and buildings do not have renewal options or contingent rental restrictions. The joint lease for the 3WFN office building with the FDA and the leases for the four regional office buildings have escalation clauses. The leases for the two remaining headquarters office buildings, the warehouse, and the TTC do not have escalation clauses.

Note 8 – Cumulative Results of Operations

As of September 30,	2019	2018
Liabilities not covered by budgetary resources (Note 6)	\$ (53,515)	\$ (48,780)
Investment in property and equipment, net (Note 4)	55,649	65,073
Contributions from foreign cooperative research agreements	6,070	5,245
Nuclear Waste Fund	436	461
Office of the Commission (financed by fees)	–	–
Accounts receivable - fees	63,920	74,256
Other	2,257	337
Cumulative Results of Operations	\$ 74,817	\$ 96,592

A prior period adjustment (PPA) of \$6.7 million was recorded in FY 2019 to the beginning Cumulative Results of Operations. The PPA represents \$0.8 million for prior year amortization expense recorded on Leasehold Improvement projects and \$5.9 million to establish a liability to GSA for broker commission credits received by the NRC on occupancy agreements for rent of office space and the sum of step rent increases paid to GSA for rent of NRC office space. The step rent increases, net of the credits received by the NRC, are amortized on a straight-line basis over the life of the occupancy agreements.

Note 9 – Statement of Net Cost

For the fiscal years ended September 30,	2019	2018
Nuclear Reactor Safety:		
Intragovernmental gross costs	\$ 208,573	\$ 210,872
Less: Intragovernmental earned revenue	(49,153)	(48,845)
Intragovernmental net costs	159,420	162,027
Gross costs with the public	521,373	531,003
Less: Earned revenues from the public	(643,809)	(644,102)
Net costs with the public	(122,436)	(113,099)
Total Net Cost of Nuclear Reactor Safety	\$ 36,984	\$ 48,928
Nuclear Materials and Waste Safety:		
Intragovernmental gross costs	\$ 57,961	\$ 59,148
Less: Intragovernmental earned revenue	(5,639)	(6,180)
Intragovernmental net costs	52,322	52,968
Gross costs with the public	150,403	153,915
Less: Earned revenues from the public	(69,261)	(75,633)
Net costs with the public	81,142	78,282
Total Net Cost of Nuclear Materials and Waste Safety	\$ 133,464	\$ 131,250

Earned revenues or exchange revenues arise when an entity provides goods and services to the public or another Government entity for a price. The NRC's revenues are primarily for services provided for inspections, fees for licensing, and reimbursable work.

Note 10 – Exchange Revenues

For the fiscal years ended September 30,	2019	2018
Fees for licensing, inspection, and other services	\$ 762,148	\$ 769,185
Revenue from reimbursable work	5,714	5,575
Total Exchange Revenues	\$ 767,862	\$ 774,760

Earned revenues or exchange revenues arise when an entity provides goods and services to the public or another Government entity for a price. The NRC's revenues are primarily for services provided for inspections, fees for licensing, and reimbursable work.

Note 11 – Financing Sources Other Than Exchange Revenue

For the fiscal years ended September 30,	2019	2018
Appropriations Used		
Collections are used to reduce the fiscal year's appropriations:		
Funds consumed	\$ 895,002	\$ 903,906
Less: Collection of fees assessed	(772,216)	(781,825)
Less: Nuclear Waste Fund Expense	(28)	(145)
Less: Office of the Commission (financed by fees)	–	–
Total Appropriations Used	\$ 122,758	\$ 121,936

Funds consumed include \$34.7 million and \$33.0 million through September 30, 2019, and 2018, respectively, of available funds from prior years. Current year funds consumed were \$860.3 million and \$870.9 million through September 30, 2019 and 2018, respectively.

For the fiscal years ended September 30,	2019	2018
Non-Exchange Revenue		
Civil penalties	\$ 413	\$ 282
Miscellaneous receipts	254	112
Non-Exchange Revenue	667	394
Contra-Revenue	(667)	(394)
Total Non-Exchange Revenue, Net of Funds Returned to the U.S. Treasury General Fund	\$ –	\$ –

For the fiscal years ended September 30,	2019	2018
Imputed Financing		
Civil Service Retirement System	\$ 3,649	\$ 4,391
Federal Employees Retirement System	8,777	6,367
Federal Employee Health Benefit	18,810	19,582
Federal Employee Group Life Insurance	78	81
Judgments/Awards	1,294	–
Total Imputed Financing	\$ 32,608	\$ 30,421

Note 12 – Total Obligations Incurred

For the fiscal years ended September 30,	2019	2018
Direct Obligations		
Category A	\$ 891,493	\$ 927,959
Exempt from Apportionment	28	101
Total Direct Obligations	891,521	928,060
Reimbursable Obligations	3,499	5,954
Total Obligations Incurred	\$ 895,020	\$ 934,014

Category A obligations consist of the NRC appropriations only. Obligations exempt from apportionment represent funds derived from the NWF.

Note 13 – Undelivered Orders at the End of the Period

For the fiscal years ended September 30,	2019	2018
Undelivered Orders - Unpaid		
Salaries and Expenses	\$ 271,894	\$ 283,929
Inspector General	2,279	1,576
Nuclear Waste Fund	26	30
Total Undelivered Orders - Unpaid	\$ 274,199	\$ 285,535
Undelivered Orders - Paid		
Salaries and Expenses	\$ 6,364	\$ 8,738
Inspector General	685	619
Nuclear Waste Fund	–	–
Total Undelivered Orders - Paid	7,049	9,357
Total Undelivered Orders	\$ 281,248	\$ 294,892

Note 14 – Nuclear Waste Fund

For FY 2019 and FY 2018, the NRC's budget did not include funds from the NWF. The funding provided to the NRC before FY 2014 and carried forward to subsequent years was for the purpose of performing activities associated with the DOE's application for a high-level waste repository at Yucca Mountain, NV.

The SFFAS 43 "Funds from Dedicated Collections: Amending Statement of Federal Financial Accounting Standards 27, Identifying and Reporting Earmarked Funds," lists three defining criteria for funds from dedicated collections.

- A statute committing the Federal government to use specifically identified revenues and/or other financing sources that are originally provided to the Federal government by a non-federal source only for designated activities, benefits or purposes;
- Explicit authority for the fund to retain revenues and/or other financing sources not used in the current period for future use to finance the designated activities, benefits, or purposes; and
- A requirement to account for and report on the receipt, use, and retention of the revenues and/or other financing sources that distinguishes the fund from the Federal government's general revenues.

In 1982, Congress passed the Nuclear Waste Policy Act of 1982 (Public Law 97-425) establishing the NWF to be administered by the DOE (42 U.S.C. 10222). For the NRC, the NWF transfer is a source of financing from other than non-Federal sources. The NRC collects no revenue on behalf of the NWF and has no administrative control over it. Furthermore, the Treasury has no separate fund symbol for the NWF under the NRC's agency location code. The receipt and expenditure of NWF funding is reported to the U.S. Treasury under the NRC's primary Salaries and Expenses Treasury Account Symbol (X0200).

As a result, the NWF is not a fund from dedicated collections from the NRC's perspective. However, to provide additional information to the users of these financial statements, the table below presents enhanced disclosure of the fund.

For the fiscal years ended September 30,	2019	2018
Appropriations Received	\$ -	\$ -
Expended Appropriations	\$ 28	\$ 145
Obligations Incurred	\$ 28	\$ 101
Unobligated Balances (includes recoveries of prior-year obligations)	\$ 407	\$ 431

Note 15 – Explanation of Differences between the Statement of Budgetary Resources and the Budget of the U.S. Government

SFFAS 7, "Accounting for Revenue and Other Financing Sources" and Concepts for Reconciling Budgetary and Financial Accounting," dated May 10, 1996, and OMB Circular A-136 require the NRC to reconcile the budgetary resources reported on the SBR to the actual budgetary resources presented in the President's Budget and explain any material differences.

The NRC does not have any material differences between the budgetary resources reported on the SBR for FY 2018 and the FY 2018 actuals in the proposed President's Budget for FY 2020. The reconciliation was based on actual numbers for FY 2018 because the Budget of the United States (also known as the President's Budget) was not published at the time that these financial statements were issued.

The FY 2019 actual budgetary resources numbers will be available in the FY 2021 President's Budget which is expected to be published in 2020, and will be available on the OMB Web site <http://www.whitehouse.gov/omb> and through the U.S. Government Publishing Office.

Note 16 – Reconciliation of Net Cost of Operations to Budgetary Resources

For the fiscal year ended September 30, 2019			
	Intra- governmental	With the Public	
Net Cost of Operations	\$ 211,742	\$ (41,294)	\$ 170,448
Components of the Net Cost That Are Not Part of Net Outlays			
Property, plant, and equipment depreciation	—	(12,107)	(12,107)
	—	(52)	(52)
Property, plant, and equipment disposal & revaluation	—	1,403	1,403
Other- ADP Software Cost Capitalization	—	—	—
Subtotal	—	(10,756)	(10,756)
Increase/(decrease) in assets:

Net Outlays	\$ 170,455	\$ (56,688)	\$ 113,767

Note 17 – Contingencies

The NRC is subject to potential liabilities in various administrative proceedings, legal actions, environmental suits, and claims brought against it. In the opinion of the NRC's management and legal counsel, the ultimate resolution of these proceedings, actions, suits, and claims will not materially affect the financial position or net costs of the NRC.

Probable Likelihood of an Adverse Outcome

As of September 30, 2019 and 2018, the NRC was not involved in a case in which the likelihood of loss is probable.

Reasonably Possible Likelihood of an Adverse Outcome

As of September 30, 2019, the NRC was involved in a case with the likelihood of an adverse outcome being reasonably possible, with the upper limit of the expected loss being \$300. As of September 30, 2018, the NRC was not involved in any case with the likelihood of an adverse outcome being reasonably possible.

Note 18 – Net Adjustments to Unobligated Balance Brought Forward October 1

There were no material adjustments to correct the unobligated balance brought forward, October 1 for FY 2019.

Note 19 – Financial Statements to Reclassified Financial Statements

For the period ending September 30, 2019			
NRC Financial Statement		Line Items Used to Prepare the Government-wide Balance sheet

Required Supplementary Information

Deferred Maintenance and Repairs for General Property, Plant, and Equipment

Information on deferred maintenance and repairs (DM&R) is required under SFFAS 42, "Deferred Maintenance and Repairs: Amending Statements of Federal Financial Accounting Standards 6, 14, 29, and 32," dated April 25, 2012.

SFFAS 42 defines DM&R as "maintenance and repairs that were not performed when they should have been or were scheduled to be and which are put off or delayed for a future period." Maintenance and repairs (M&R) are defined as activities directed toward keeping fixed assets in an acceptable condition. Activities include preventive maintenance, replacement of parts, systems, or components; and other activities needed to preserve or maintain the asset. M&R, as distinguished from capital improvements, excludes activities directed towards expanding the capacity of an asset or otherwise upgrading it to serve needs different from, or significantly greater than, its current use.

DM&R should include funded and unfunded M&R activities that have been delayed to a future period. DM&R on inactive or excess general PP&E should be included to the extent that it is required to maintain those items in acceptable condition. The NRC evaluated DM&R activities for leased facilities, the multiple components of the agency information technology (IT) infrastructure, and individual capital asset purchases with a cost equal to or greater than \$50,000. The NRC did not include noncapitalized PP&E with a cost of less than \$50,000, which are deemed immaterial.

Deferred Maintenance and Repairs for the NRC Facilities, Other Structures, and Capital Equipment

For the NRC's leased facilities and capital equipment purchases, the NRC typically does not have any DM&R. The NRC had no DM&R for facilities, other structures, and capital equipment as of September 30, 2019, and 2018.

Defining and Implementing Maintenance and Repair Policies in Practice

For the NRC Headquarters facilities, the agency uses the GSA guidelines for maintenance activities along with industry best practices to determine the preventive maintenance activities to perform and the schedule for those activities. For the building structures and systems, the maintenance contractor performs all required periodic maintenance to keep the systems and buildings in a good state of repair. The contractor is held to a 98 percent scheduled completion rate, with all the preventive maintenance completed within a reasonable time. When equipment reaches the end of its useful life, it is generally replaced with like-kind or upgraded equipment. For any type of an emergent failure to facilities, the NRC would request additional funding, as needed, for repairs or replacement to structures and equipment.

For the regional offices, the building management (lessor) is responsible for performing all required periodic maintenance to keep the systems and buildings in a good state of repair. Generally, the regional leases contain the fixed assets, including equipment purchased to support the operations of the agency's leased space, such as diesel generators and chillers for the Incident Response Center, the local area network, and power cooling. Equipment requiring repair results in a service repair call. For those instances where equipment is purchased to support the NRC regional operations, maintenance contracts are put in place to provide periodic service and maintenance on the equipment. When equipment reaches the end of its useful life, it is generally replaced with like-kind or with upgraded equipment. For any type of an emergent failure, the NRC would request additional funding, as needed, for repairs or replacement of equipment.

The TTC facility and associated systems are leased and maintained by the lessor. This includes any emergent repairs that may occur, as well as any scheduled maintenance. Assets within the TTC are predominantly maintained by facilities personnel or in some cases, such as for simulator systems, contractor personnel perform all required emergent and periodic maintenance to keep the simulator systems in a good state of repair. When equipment reaches the end of its useful life, it is replaced with like-kind or upgraded equipment.

Ranking and Prioritization of Maintenance and Repair Activities

Personnel safety is a top priority at the NRC leased facilities. Maintenance activity, such as for fire alarms and emergency exits, is given top priority. If a preventative maintenance activity must be deferred, which is typically only for 2 to 4 weeks, the impact to personnel safety and building functionality is considered during the review. Other M&R activities are executed as required so that there is no disruption to the NRC operations and the TTC training schedules.

Factors Considered in Determining Acceptable Condition

The NRC's Facilities Management Branch at the headquarters facilities perform the daily inspections and maintenance of the buildings and major systems. The NRC internally reviews planned maintenance activity records and historical logs of M&R to monitor condition information for equipment. Based on the information gathered, the NRC will determine whether planning for replacement or upgrade is needed. Additionally, the GSA conducts onsite inspections every 3 to 5 years at the headquarters facilities to assess the overall condition of the buildings and to determine when major systems and components need to be scheduled for replacement. For the TTC and regional offices, the NRC has a Facilities Management staff person onsite to work with the GSA to manage the buildings with support from the lessors. As a result, the GSA performs more frequent onsite inspections of the facilities. The NRC works in close coordination with the GSA to ensure that M&R activities are performed on a timely basis for all NRC-occupied facilities.

Deferred Maintenance and Repairs for Information Technology Infrastructure and Systems

There was no DM&R for IT Infrastructure and Systems as of September 30, 2019. The DM&R includes the video teleconference and voicemail systems. The voicemail for Regions 2, 3, and 4 is close to completion, with Regions 1 and the TTC still awaiting upgrades. The video teleconference will require incremental DM&R as the agency encounters units that have passed the obsolete state. The NRC had \$0.5 million in DM&R for IT infrastructure and systems as of September 30, 2018.

The NRC IT infrastructure is a network of multiple equipment, software, and service components, taken as a whole, which provides the critical communication network that allows the NRC to accomplish its mission. The NRC IT infrastructure encompasses the following:

- End-user systems and support and end-user hardware includes desktop, laptop, and handheld devices; peripherals (local printers, shared printers); software (personal computer operating systems, office automation suites, messaging, and groupware), and hardware and software for help desks. Also included are network operations command centers, wire closets, and cable management. For regional offices, this includes regional end-user support similar to that provided by the Customer Support Center at the NRC Headquarters, which includes contract support and Federal full-time equivalents.
- Telecommunications services includes data networks and telecommunications (including wireless, multimedia, and local and long-distance telephone); hardware and software operations; licenses; maintenance; and backup, continuity of operations, and disaster recovery. For regional offices, this includes local telecommunications, which includes contract support and Federal full-time equivalents.
- Production operations include mainframes and servers (including Web hosting, but not Web content development and management); hardware and software operations; licenses; maintenance; and backup, continuity of operations, and disaster recovery. Also included resources related to carrying out Homeland Security Presidential Directive-12, "Policy for a Common Identification Standard for Federal Employees and Contractors," dated August 27, 2004, which requires all Federal Executive departments and agencies to implement a Government-wide standard for secure and reliable forms of identification for access to Federal facilities and information systems.

The NRC relies on the asset project and program managers to execute the maintenance budget and to establish and modify the M&R schedule as needed. Ranking factors that may impact the M&R schedule include personnel safety, age of the asset, scheduled replacement date, budget constraints, and unforeseen or unexpected events.

Additionally, whether computer-off-the-shelf or internally developed software for IT systems, the NRC relies on the project and program managers to establish a M&R budget and schedule. Minor repairs, enhancements, and upgrades are completed internally through the regular M&R operations process. For major upgrades and replacement systems, the project manager must submit a request to perform the work to the appropriate IT governance boards for their approval.

Defining and Implementing Maintenance and Repair Policies in Practice

All of the NRC IT infrastructure M&R activities are performed under various contracts which includes leasing of servers, computers, printers, and software and provides provisions for periodic monitoring, maintenance, and repairs. Replacement of miscellaneous equipment components and software is scheduled as needed when the equipment reaches the end of its useful life and before the equipment and software become obsolete. Desktops and laptops are upgraded on a 3-year rolling schedule so that they do not become obsolete.

Ranking and Prioritization of Maintenance and Repair Activities

The NRC program managers determine the requirements for ranking, scheduling, and performing IT infrastructure M&R activities and include them in the contractor statement of work. For the critical IT infrastructure and support services (ITISS) contract, the main ranking factor is the age of the asset (e.g., desktop, laptop, printer), followed by cost and budget constraints. However, when applicable, personnel safety is considered and is the highest priority.

Factors Considered in Determining Acceptable Condition

In determining acceptable condition, the NRC mainly considers the asset's age, remaining useful life, and compatibility with current and required software.

Combining Statement of Budgetary Resources (IN THOUSANDS)

For the fiscal year ended September 30, 2019	Salaries and Expenses	Office of the Inspector General	Nuclear Facility Fees	Total
