JULY 2021

EXECUTIVE SUMMARY

Recommendations Issued by the Office of the Inspector General that were Not Closed as of June 30, 2021

The attached report contains information about recommendations from the Department of Justice (DOJ) Office of the Inspector General's (OIG) audits, evaluations, reviews, and other reports that the OIG had not closed as of June 30, 2021. To more accurately represent the number of recommendations that have not been closed and the reports in which the recommendations were made, such recommendations that DOJ determined contain information that is limited official use or classified will be indicated as follows: "[Description omitted; DOJ has determined that this recommendation contains information that is limited official use or classified.]" DOJ may identify a recommendation as containing limited official use or classified information if it determines, for example, that its disclosure to unauthorized individuals could negatively impact law enforcement operations, sources, or methods; expose operational vulnerabilities; or harm national security.

The status of each recommendation is subject to change due to DOJ's ongoing efforts to implement them, and the OIG's independent review of information about those efforts. Specifically, a recommendation identified as not closed as of June 30, 2021, may now be closed as a result of actions taken after that date. Although DOJ may have taken steps to implement the recommendations listed in this report, including by partially remedying the questioned costs associated with a recommendation, a recommendation is not considered closed until it has been fully implemented. Please note that DOJ has provided updates for certain recommendations prior to the date of this report that are still under review by the OIG. In addition, the OIG sometimes issues recommendations with multiple subparts in order to better track their implementation. Therefore, the recommendations in the attached report list subparts as separate items.

The following categories are used to describe the status of the recommendations in the report:

Response Not Yet Due – DOJ's initial response to the recommendation is not yet due.

Resolved – DOJ has agreed to implement the recommendation or has proposed actions that will address the recommendation.

Unresolved – The initial deadline for DOJ's response to the recommendation has passed, and DOJ has not agreed to implement the recommendation or has not proposed actions that will address the recommendation. The OIG may also convert a recommendation from "Resolved" to "Unresolved" if it determines that DOJ is not making sufficient progress towards implementation.

On Hold/Pending with OIG– The completion of the OIG’s assessment of the status of the recommendation is on hold or pending due to ongoing reviews or other factors.

As of June 30, 2021, the OIG had not closed 966 recommendations, which the OIG associated with the following statuses at that time: Resolved (835 recommendations), On Hold/Pending with OIG (128 recommendations), Response Not Yet Due (1 recommendation), and Unresolved (2 recommendations).

The information in the following chart is derived from the attached report and includes recommendations that are in the categories described above as of June 30, 2021.

DEA should not undertake future joint counternarcotics operations with its foreign counterparts outside the United States in instances where it is unable to reach agreement with the U.S. Embassy and its foreign counterparts in advance on such basic post-incident protocols, at least in circumstances where shootings or other critical incidents are a possibility.
