## Open or Unimplemented Audit Recommendations and Cost Savings as of March 31, 2022

---

The Office of Audit (OA) conducts financial, performance, and compliance audits and evaluations of Railroad Retirement Board (RRB) programs. These responsibilities include performing the statutorily required annual audit of the RRB's financial statements and the evaluation of the agency's information security program pursuant to the Federal Information Security Modernization Act of 2014. In addition, OA regularly conducts audits and evaluations of the RRB's Medicare and benefit payment programs. Through its audit activities, OA keeps Board Members and the Congress informed of current and potential problems and deficiencies in the RRB's operations.

As of March 31, 2022, the Office of Audit had 478 open recommendations for improvement, 168 of which RRB Management did not concur. The OIG believes all 478 recommendations should be implemented. Please refer to the following table for specific information about each open audit recommendation. The dates on which the recommendations were initially made are the Audit Report Date.

This includes 478 open recommendations plus 4 implemented recommendations that have associated funds that are still being collected less 12 open recommendations from management information reports (MIR) that do not meet the criteria for semiannual reporting purposes.

In addition to the reports identified on the previous pages with hyperlinks to our audit library, OA has released the following reports and/or memoranda that are restricted.

'Audit of Controls to Safeguard Sensitive Personally Identifiable Information' (Report No. 07-09). The purpose of this audit was to assess the effectiveness of the agency's policies, procedures, and practices to adequately safeguard sensitive Personally Identifiable Information (PII). This report was restricted from public distribution because of its sensitive nature. Specifically, we noted that the RRB needs to establish a more comprehensive security program to fully ensure the physical security of sensitive PII at all RRB offices including sanitization and disposal of documents and equipment containing PII, security of sensitive PII when in transit, and accountability of equipment which may contain PII.

'Priority Audit Memorandum - Contractor Training Not Assigned' (PAM 17-01). The purpose of this memorandum was to ensure timely completion of security awareness and safeguarding controlled unclassified information training by RRB contractors. This memorandum was restricted from public distribution because of its sensitive nature.

With regard to Total Potential Cost Savings, the Inspector General Act of 1978 defines 'Funds Put to Better Use' as those associated with a recommendation by the Office that funds could be used more efficiently if management of an establishment took actions to implement and complete the recommendation. The OIG considers 'Funds Put to Better Use' to be the known dollar value of errors detected in our audit tests. The Inspector General Act of 1978 defines 'Questioned Costs' as those that result from an alleged violation governing the expenditure of funds, a cost that is not supported by adequate documentation, or expenditure for a purpose that is unnecessary or unreasonable. The OIG considers sample projections based on an estimated number of error cases to be 'Questioned Costs.' An audit report can have both 'Questioned Costs' and 'Funds Put to Better Use.'
