Announcement of the Audit of DIA's Privileged User Account Management

2022-1002 – In accordance with the Office of the Inspector General's Fiscal Year 2022 Annual Plan, we will be auditing DIA's Privileged Users program. Our objective is to determine if individuals using privileged user accounts are limited to only their required role assignments and functions and that these account privileges are revoked once no longer needed. We will consider suggestions from management on focus areas for this audit.
