

OFFICE OF THE
INSPECTOR GENERAL
DEFENSE INTELLIGENCE AGENCY

Announcement of the Audit of DIA's Research, Development, Testing, and Evaluation funds, Project 2023-1002

Our objective is to determine whether DIA managed its RDT&E funds to align with Agency mission priorities and to optimize their use. We will consider suggestions from management on the objectives.

We plan to perform this audit at DIA Headquarters in the National Capital Region; however, we may identify other locations during the audit. We will interview personnel, including senior officials, from the Directorates and Offices in the distribution list, and other personnel as needed. Additionally, we request direct access to all relevant records. We plan to perform this audit in accordance with generally accepted government auditing standards.
