SUBJECT: FY24 Audit of the U.S. AbilityOne Commission's Information Security Program

The Office of Inspector General (OIG) is initiating an audit of the Commission's information security program pursuant to the Federal Information Security Modernization Act of 2014 (FISMA).

The objective of the audit is to determine the effectiveness of the Commission's information security program and practices. The audit will assess information security program controls to support the OIG's reporting of FISMA metrics into the Department of Homeland Security's Cyberscope application. The independent public accounting firm McConnell and Jones, LLP will conduct the audit with OIG providing oversight as required by the IG Act of 1978, as amended.

The audit will be performed in accordance with generally accepted government auditing standards, established by the U.S. Government Accountability Office (Government Auditing Standards (2018 Revision)). Please provide us with a point of contact for the engagement by March 15, 2024. The OIG will schedule the entrance conference thereafter. If you have any questions, please contact me or Steven Burke, Deputy Inspector General, at 703- 798-6259 or at sburke@oig.abilityone.gov.
