REPORT SUMMARY

Announcement of the Audit of DIA's Utilization of Funds, Project 2024-1001:

In accordance with the Office of the Inspector General's fiscal year 2024 Annual Plan, we have established an agile risk-based approach to select oversight engagements. Based on this, we will audit the results of the Defense Intelligence Agency's (DIA's) budget execution and acquisition planning processes. Our objective is to determine whether DIA continuously applied strategies to optimize the use of funds and took timely monitoring actions to maximize funding of mission requirements.
