

Interagency Coordination Group of Inspectors General for Guam Realignment Annual Report

Section 2835 of the National Defense
Authorization Act for Fiscal Year 2010

January 27, 2022
(Public Law 111-84)

PUBLIC LAW 111-84

Section 2835 of the “National Defense Authorization Act for Fiscal Year 2010,” entitled “Interagency Coordination Group of Inspectors General for Guam Realignment,” establishes the Interagency Coordination Group and requires the group to objectively conduct and supervise audits and investigations relating to the programs and operations funded for military construction on Guam in connection with the realignment of military installations and relocation of military personnel on Guam. This section states, in part:

(c)(1) OVERSIGHT OF GUAM CONSTRUCTION.—It shall be the duty of the Interagency Coordination Group to conduct, supervise, and coordinate audits and investigations of the treatment, handling, and expenditure of amounts appropriated or otherwise made available for military construction on Guam and of the programs, operations, and contracts carried out utilizing such funds, including:

- (A) the oversight and accounting of the obligation and expenditure of such funds;*
- (B) the monitoring and review of construction activities funded by such funds;*
- (C) the monitoring and review of contracts funded by such funds;*
- (D) the monitoring and review of the transfer of such funds and associated information between and among departments, agencies, and entities of the U.S. and private and nongovernmental entities;*
- (E) the maintenance of records on the use of such funds to facilitate future audits and investigations of the use of such funds; and*
- (F) the monitoring and review of the implementation of the Defense Posture Review Initiative relating to the realignment of military installations and the relocation of military personnel on Guam.*

* * *

(e)(1) ANNUAL REPORTS.—Not later than February 1 of each year, the chairperson of the Interagency Coordination Group shall submit to the congressional defense committees, the Secretary of Defense, and the Secretary of the Interior a report summarizing, for the preceding calendar year . . . the activities under programs and operations funded with amounts appropriated or otherwise made available for military construction on Guam.¹ Each report shall include, for the year covered by the report, a detailed statement of all obligations, expenditures, and revenues associated with such construction

¹ Public Law 113-66, “National Defense Authorization Act for Fiscal Year 2014,” section 2821, December 26, 2013, changed the period covered by the annual report from calendar year to fiscal year.

Public Law 116-283, “William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021,” section 2851, January 1, 2021, changed the reporting requirement from annual to biennial beginning February 1, 2022, and every second February 1 thereafter.

Message from the Chairperson, Interagency Coordination Group

This is the 13th annual report of the Interagency Coordination Group of Inspectors General for Guam Realignment. This annual report, as required by the National Defense Authorization Act for FY 2010, covers the reporting period from October 1, 2020, through September 30, 2021. Due to a change in legislation, the next report will be a biennial report and will cover the reporting period from October 1, 2021, through September 30, 2023.

The Interagency Coordination Group conducts and supervises audits and investigations relating to military construction that is designed to realign military installations and relocate military personnel from Japan to Guam. These audits and investigations are intended to prevent and detect fraud, waste, and abuse related to funds appropriated or otherwise made available for military construction on Guam and of the programs, operations, and contracts carried out using such funds.

The Interagency Coordination Group focuses on what it considers the most significant challenges in the realignment of Marine Corps personnel and their dependents to Guam. These challenges include operational readiness, quality of life, contract management, contractor oversight, asset accountability, and financial management. The Group considers risks associated with these challenges when developing oversight initiatives.

We prepared this year's report with the support of our Federal interagency partners including the Inspectors General of the Departments of the Interior and Transportation, and the Environmental Protection Agency. In addition, DoD oversight partners that made contributions to this year's report include the Naval Audit Service and the Naval Criminal Investigative Service.

I would like to thank the participants of the Interagency Coordination Group and those Federal and Defense agencies for supporting these efforts.

A handwritten signature in black ink that reads "Sean W. O'Donnell". The signature is written in a cursive, flowing style.

Sean O'Donnell
Acting Inspector General

Executive Summary

Public Law 111-84, “National Defense Authorization Act for Fiscal Year 2010,” section 2835, October 28, 2009, designates the DoD Inspector General as the chairperson of the Interagency Coordination Group of Inspectors General for Guam Realignment. The chairperson is required to provide an annual report to the congressional Defense committees, the Secretary of Defense, and the Secretary of the Interior on the activities of the Interagency Coordination Group and the programs and operations funded with amounts appropriated or otherwise made available for military construction on Guam.

This report contains data collected from multiple organizations. The DoD Office of Inspector General did not independently verify, analyze, or validate the data provided.

This report contains five sections that identify the programs and operations funded with appropriated amounts or funds otherwise made available for military construction on Guam in FY 2021.

1. The DoD obligated \$1.4 billion and expended \$448.3 million. Other Federal agencies obligated \$8.8 million and expended \$1.9 million. (Section 1)
2. The DoD identified 270 military construction projects and programs, totaling \$447 million, with estimated completion costs of \$1.9 billion. Other Federal agencies identified 38 projects and programs that were directly associated with the realignment. Of the 38 projects and programs, 2 projects and programs had incurred costs of \$335,249 and 3 projects and programs had estimated completion costs of \$9.4 million. (Section 2)
3. The Government of Japan provided revenues of \$401.9 million and earned \$26 million in interest associated with revenues. Also, the Government of Japan obligated \$918.9 million and expended \$268.6 million. (Section 3)
4. The DoD identified operating expenses of \$115.2 million. Other Federal agencies identified operating expenses of \$78,187. (Section 4)
5. The DoD identified a total of 222 contracts, grants, agreements, or other funding mechanisms, with obligations of \$1.2 billion. Other Federal agencies identified a total of 35 contracts, grants, agreements, or other funding mechanisms, with obligations of \$7.3 million. (Section 5)

Guam Realignment Effort

On May 1, 2006, the Governments of the United States and Japan agreed to a plan (the 2006 Plan) to relocate III Marine Expeditionary Force personnel and their dependents from Okinawa, Japan, to Guam by 2014.² The 2006 Plan stated that the relocation of Marines would cost an estimated \$10.3 billion for the facilities and infrastructure development on Guam, with the Government of Japan (GOJ) agreeing to provide \$6.1 billion (in FY 2008 U.S. dollars).

The 2006 Plan included relocating 8,000 Marines and 5,000 dependents beginning in FY 2010 and ending in FY 2014. However, since the 2006 Plan's inception, the number of relocated Service members and the number of realignment projects have decreased, and the timeframe for the realignment has increased. The current plan reduced the number of relocations to 5,000 Marines and 1,300 dependents beginning in FY 2010 and ending in FY 2028.

One reason that the realignment of forces was extended to FY 2028 is a labor shortage in Guam. The Commander of the U.S. Indo-Pacific Command testified about this labor shortage in a House of Representatives Armed Services Committee hearing on February 14, 2018. Specifically, the Commander stated that the labor shortage was caused by difficulty in obtaining foreign worker visas. During a Senate Appropriations Committee hearing in May 2019, the Commandant of the Marine Corps was asked about Marines relocating to Guam. The Commandant responded that he believes the current plan would give Marines a good quality of life on Guam and that the military construction projects beginning later in 2019 would put the Marine Corps in a position where the type of forces going to Guam will start to be solidified.

Furthermore, Section 2879, "Special Rules for Certain Projects," of Public Law 115-91, "National Defense Authorization Act for Fiscal Year 2018," provides a limitation on the "Replace Andersen Housing Phase II" project. According to the Naval Facilities Engineering Command, the project will require the construction of 60 housing units over 835 days at a cost between \$25 and \$100 million. The Act states that the Secretary of Navy may not carry out any construction activity on the Replace Andersen Housing Phase II project until 30 days after the Secretary submits a report to the congressional defense committees certifying that:

1. either a sufficient workforce of contractors or subcontractors is in place on Guam or the Secretary has a plan in place to ensure that a sufficient workforce of contractors or subcontractors will be in place on Guam to perform the work required by the scope of the project; and

² "United States-Japan Roadmap for Realignment Implementation," May 1, 2006.

2. a contract has been awarded for each of the following military construction projects authorized by this Act, either as a separate contract or as a joint contract with the Replace Andersen Housing Phase II project:

- Corrosion Control Hangar, Joint Region Marianas;
- Aircraft Maintenance Hanger #2, Joint Region Marianas;
- Marine Aviation Logistics Squadron Facilities, Joint Region Marianas;
- Water Well Field, Joint Region Marianas; and
- Navy-Commercial Tie-In Hardening, Joint Region Marianas.

However, Section 2809, “Repeal of Limitation on Certain Guam Project,” of Public Law 115-232, “John S. McCain National Defense Authorization Act for Fiscal Year 2019,” repealed Section 2879 of Public Law 115-91 and allowed the Navy to award a contract for the Replace Andersen Housing Phase II project. On September 19, 2019, the Naval Facilities Engineering Command awarded contract N62742-19-C-1309 for the construction of Andersen Housing Phases I, II, and III for \$178 million. The construction cost of the Replace Andersen Housing Phase II project is \$35.6 million.

Finally, on October 1, 2020, the Marine Corps activated Marine Corps Base Camp Blaz in Guam, the first new Marine Corps base activated since March 1, 1952. Marine Corps Base Camp Blaz will be home to approximately 5,000 Marines from III Marine Expeditionary Force who will begin relocating from Okinawa, Japan by FY 2025. According to the Marine Corps, the formal establishment of Marine Corps Base Camp Blaz is a significant milestone in the realignment of forces that honors the international agreement with the GOJ while securing a Marine Corps presence in the Indo-Pacific region that is geographically distributed and operationally resilient.

Efforts of the Interagency Coordination Group

(SECTION 2835[b] AND [c])

Efforts of the Interagency Coordination Group (Section 2835[b] and [c])

Public Law 111-84, “National Defense Authorization Act for Fiscal Year 2010,” section 2835, October 28, 2009, designates the DoD Inspector General as the chairperson of the Interagency Coordination Group (ICG) of Inspectors General for Guam Realignment. Additionally, the Inspector General of the Department of the Interior is a required member of the ICG. The Inspectors General of the Department of Transportation and the Environmental Protection Agency also contributed to this report. The ICG is required to conduct, supervise, and coordinate oversight activities to monitor the use of funding for the Guam realignment.

Interagency Coordination Group Oversight Duties

Section 2835 of the National Defense Authorization Act for Fiscal Year 2010 requires the ICG to provide objective supervision of audits and investigations relating to the programs and operations funded with amounts appropriated or otherwise made available for military construction on Guam. Specifically, the ICG oversight duties are to conduct, supervise, and coordinate audits and investigations of the treatment, handling, and expenditure of amounts appropriated for military construction on Guam. The ICG did not have any ongoing audits related to programs and operations funded with amounts appropriated or otherwise made available for military realignment construction on Guam. In addition, the ICG components did not issue any reports related to the Guam realignment in FY 2021.

Investigations

In FY 2020, the Naval Criminal Investigative Service reported one ongoing investigation related to programs and operations funded with amounts appropriated or otherwise made available for military realignment construction on Guam. However, for FY 2021, the Naval Criminal Investigative Service reported that the one ongoing investigation in FY 2020 did not relate to programs and operations funded with amounts appropriated or otherwise made available for military realignment construction on Guam. The Defense Criminal Investigative Service, the Army Criminal Investigation Division, and the Air Force Office of Special Investigations reported that there were no open or completed Guam-related investigations in FY 2021.

1

U.S. Government Obligation and Expenditure Data

(SECTION 2835[e][1][A])

Section 1. U.S. Government Obligation and Expenditure Data (Section 2835[e][1][A])

Public Law 111-84 states that not later than February 1, the ICG chairperson must report, for the preceding fiscal year, on the programs and operations funded with amounts appropriated or otherwise made available for military construction on Guam. Each report must include a detailed statement of all obligations and expenditures of appropriated funds.

DoD Obligations and Expenditures

The DoD Office of Inspector General requested that the following officials provide obligation and expenditure data supporting the Marine Corps realignment on Guam.

- Under Secretary of Defense (Comptroller)/Chief Financial Officer
- Assistant Secretary of the Army (Financial Management and Comptroller)
- Assistant Secretary of the Navy (Financial Management and Comptroller)
- Assistant Secretary of the Navy (Energy, Installations, and Environment)
- Assistant Secretary of the Air Force (Financial Management and Comptroller)
- Director, Defense Finance and Accounting Service
- Program Resource Director/Chief Financial Officer, Guam Program Management Office³
- Office of Local Defense Community Cooperation⁴

According to these officials, for FY 2021, the DoD obligated \$1.4 billion and expended \$448.3 million. Table 1 identifies the amounts obligated and expended for each appropriation.

³ The Joint Guam Program Office was renamed the Guam Program Management Office.

⁴ The Office of Economic Adjustment was renamed the Office of Local Defense Community Cooperation.

Other Federal Agencies

For FY 2021, the Department of Transportation (DOT) reported obligations of \$8.8 million and expended \$1.9 million related to programs and operations funded with amounts appropriated or otherwise made available for military construction on Guam.

2

Project and Program Costs

(SECTION 2835[e][1][B])

Section 2. Project and Program Costs (Section 2835[e][1][B])

Public Law 111-84 requires the ICG annual report to include a detailed statement on the project-by-project and program-by-program accounting of the costs incurred to date and costs estimated to complete each military construction project or program associated with the realignment of military installations and the relocation of military personnel on Guam.

DoD Projects and Programs

For FY 2021, the DoD identified military construction projects and programs that incurred costs, totaling \$447 million, with estimated completion costs of \$1.9 billion. Specifically, the Office of the Assistant Secretary of the Navy (Financial Management and Comptroller) and the Marine Corps reported 270 projects that were directly associated with the realignment of military installations and military personnel on Guam. Table 2 identifies DoD projects and programs and their associated costs.

Other Federal Agency Projects and Programs

For FY 2021, the DOT identified funds directly associated with the realignment of military installations and military personnel on Guam. Specifically, the DOT reported 38 projects that were directly associated with the realignment. Of the 38 projects and programs, 2 projects and programs had incurred costs of \$335,249 and 3 projects and programs had estimated completion costs of \$9.4 million. Table 3 identifies DOT projects and associated costs.

¹ “Partial allocated costs were shifted from cell C26 (Purchase of new top-lifters) to cell C25 (Repair for Port Authority of Guam construction discrepancies). Due to higher than expected cost for four top-lifters, the Port Authority of Guam opted to only order two toploaders at a final cost of \$1,639,976, and added new project components of CCTV cameras and upgrade of the Access Control & Security Management System to the project scope in the Repair for Port Authority of Guam construction discrepancies budget line item. The total budget for the Cooperative Agreement remains the same, at \$2,844,530.00.” The total budget for the Cooperative Agreement remains the same, at \$2,844,530.00.

² According to FHWA, with the start of GU-DAR-0001(113), the “FHWA - Government of Guam Contract Route 1 Reconstruction of Multiple Bridges (Hagatna to Piti); Under Pavement Infrastructure Retrofit” project title was changed to “Route 1 Reconstruction of Multiple Bridges (Hagatna to Piti)” to reflect that all future charges would be for only Route 1 Reconstruction of Multiple Bridges (Hagatna to Piti).

³ According to FHWA, “FHWA - Government of Guam Contract Route 1 Reconstruction of Multiple Bridges (Hagatna to Piti) GU-DAR-0001(131) 27XX66000113174YF= \$300,000 27XX66000113173AC=\$3,940,000” was increased due to start of next phase of project development. The budgeted amount (Cell E41) was increased by \$3,940,000.

⁴ According to FHWA, “FHWA - Government of Guam Contract Under Pavement Infrastructure Retrofit GU-DAR-1000(113) 27XX66100011373AC=\$4,810,000” is a new project with an obligation amount of \$4,810,000.

Government of Japan Revenue

(SECTION 2835[e][1][C])

Section 3. Government of Japan Revenue (Section 2835[e][1][C])

Section 2350k, title 10, United States Code, as amended, grants the Secretary of Defense authority to accept cash contributions from any nation in support of a relocation of the Armed Forces from or to any location within that nation. According to agreements between the United States and the GOJ, the GOJ is expected to provide up to \$3.1 billion (in FY 2012 U.S. dollars) for the Marine Corps relocation from Okinawa to Guam.⁵ Public Law 111-84 requires the ICG annual report to include a detailed statement on the revenues attributable to or consisting of funds contributed by the GOJ and any obligations or expenditures of these revenues in connection with the realignment of military installations and relocation of military personnel on Guam.

GOJ Funding for Realignment

For FY 2021, the Defense Finance and Accounting Service reported that the GOJ provided revenues of \$401.9 million, earned \$26 million in interest associated with revenues, obligated \$918.9 million, and expended \$268.6 million. From calendar year 2009 through FY 2021, the GOJ provided revenues of \$3 billion, earned \$135.3 million in interest associated with revenues, obligated \$2 billion, and expended \$807.4 million. Table 4 identifies the revenues, interest, obligations, and expenditures for each project.

⁵ "Protocol Amending the Agreement Between the Government of the United States of America and the Government of Japan Concerning the Implementation of the Relocation of III Marine Expeditionary Force Personnel and their Dependents from Okinawa to Guam," October 3, 2013, revised the total estimated cost of the relocation and the GOJ's financial obligations. Under the Amendment, the GOJ will provide direct cash contributions.

Operating Expenses

Section 4. Operating Expenses (Section 2835[e][1][D])

Public Law 111-84 requires the ICG annual report to include a detailed statement on the operating expenses of agencies or entities receiving amounts appropriated or otherwise made available for military construction on Guam. DoD Regulation 7000.14-R, “DoD Financial Management Regulation,” volume 4, chapter 17, states that operating expenses include costs for personnel, travel, communications, contractual services, and other program expenses.

Department of the Navy Operating Expenses

For FY 2021, the Department of the Navy reported operating expenses of \$115.2 million.

Table 5 lists the operating expenses for Department of the Navy organizations associated with the military realignment on Guam.

Table 5. Department of the Navy Operating Expenses Related to the Guam Realignment

Operating Expenses for Other Federal Agencies

For FY 2021, the Environmental Protection Agency (EPA) reported \$78,187 in operating expenses associated with the realignment of military installations and military personnel on Guam. Specifically, the EPA identified personnel and travel costs. Table 6 identifies EPA operating expenses associated with the military realignment on Guam.

Contracts, Grants, Agreements, or Other Funding Mechanisms Data

(SECTION 2835[e][1][E])

Section 5. Contracts, Grants, Agreements, or Other Funding Mechanisms Data (Section 2835[e][1][E])

Public Law 111-84 requires the ICG annual report to include a detailed statement on the awarded contracts, grants, agreements, or other funding mechanisms that used amounts appropriated or otherwise made available for military construction on Guam. The detailed statement should include the amount and scope of the award, the process for soliciting offers, and justification and approval documents for using procedures other than full and open competition.

DoD Contracts, Grants, Agreements, or Other Funding Mechanisms

For FY 2021, the DoD reported a total of 222 contracts, grants, agreements, or other funding mechanisms that obligated \$1.2 billion to support military construction on Guam. Specifically, the Office of the Assistant Secretary of the Navy (Financial Management and Comptroller) reported a total of 216 contracts, grants, agreements, or other funding mechanisms that obligated a total of \$1.2 billion used to support the military realignment on Guam.⁶ The Office of Local Defense Community Cooperation reported six grants, obligating a total of \$39.4 million that were used to support the military realignment on Guam.⁷ Table 7 identifies the Office of the Assistant Secretary of the Navy (Financial Management and Comptroller) and Office of Local Defense Community Cooperation contracts, grants, agreements, or other funding mechanisms. A contract might be listed multiple times due to a task order, delivery order, or modification to the contract.

⁶ The Office of the Assistant Secretary of the Navy (Financial Management and Comptroller) provided the DoD OIG with an explanation for contracts the Navy solicited through other than full and open competition.

⁷ The Office of Local Defense Community Cooperation stated that it interprets title 2 Code of Federal Regulations section 200, to allow contracts issued by the Guam Territorial Government to be based on the Territory's procurement procedures; therefore, the Office of Local Defense Community Cooperation does not have to provide for full and open competition.

¹ The table contains a negative number in parentheses, which represents the closeout of a project.

² HQ00052010079 is an Fiscal Year 2020 grant. It did not get captured in last year's Office of Local Defense Community Cooperation input.

³ Totals may not equal the actual sum because of rounding.

⁴ No subtotal or total for "Ceiling Amounts" column because a contract might be listed multiple times due to a task order, delivery order, or modification to the contract.

Source: The Office of Local Defense Community Cooperation and the Office of the Assistant Secretary of the Navy (Financial Management and Comptroller).

Other Federal Agencies Contracts, Grants, Agreements, or Other Funding Mechanisms

For FY 2021, the DOT and the EPA reported a total of 35 contracts, grants, agreements, or other funding mechanisms, totaling a net obligation of \$7.3 million that were used to support military construction on Guam. The 35 contracts, grants, agreements, or other funding mechanisms had a total ceiling amount of \$159.6 million. Specifically, the DOT reported a total of 32 contracts, grants, agreements, or other funding mechanisms that were used to support military construction on Guam, with total obligations of \$7.3 million and a ceiling amount of \$158.7 million. The EPA reported a total of three contracts, grants, agreements or other funding mechanisms used to support military construction on Guam, with a total ceiling amount of \$885,277, but no funding was obligated to the three EPA actions during FY 2021. Table 8 identifies DOT and EPA contracts, grants, agreements, or other funding mechanisms. A contract might be listed multiple times due to a task order, delivery order, or modification to the contract.

¹ \$48,441,725.57 is the amount obligated/awarded to date, with \$0 obligated/awarded from October 1, 2020 to September 30, 2021.

² The MARAD/EDA Memorandum of Agreement was not amended and the grant has expired. Remaining funding have been deobligated and returned to EDA.

³ An Interagency Agreement between MARAD and the Department of Commerce’s Economic Development Administration.

⁴ According to FHWA, with the start of GU-DAR-0001(113), the “FHWA - Government of Guam Contract Route 1 Reconstruction of Multiple Bridges (Hagatna to Piti); Under Pavement Infrastructure Retrofit” project title was changed to “Route 1 Reconstruction of Multiple Bridges (Hagatna to Piti)” to reflect that all future charges would be mostly for Route 1 Reconstruction of Multiple Bridges (Hagatna to Piti).

⁵ According to FHWA, “FHWA - Government of Guam Contract Route 1 Reconstruction of Multiple Bridges (Hagatna to Piti) GU-DAR-0001(131) 27XX66000113174YF= \$300,000 27XX66000113173AC=\$266,755.42” was increased due to start of next phase of project development. The budgeted amount (Cell C33) was increased by \$266,775.42.

⁶ According to FHWA, “FHWA - Government of Guam Contract Route 1 Reconstruction of Multiple Bridges (Hagatna to Piti) GU-DAR-0001(131) 27XX66000113173AC= \$3,400,000” is a new contract with a contract amount of \$3,400,000.

⁷ According to FHWA, “FHWA - Government of Guam Contract Under Pavement Infrastructure Retrofit GU-DAR-1000(113) 27XX66100011373AC=\$3,659,214.03” is a new contract with a contract amount of \$3,659,214.03.

⁸ Totals may not equal the actual sum because of rounding.

⁹ The EPA did not report the total ceiling amounts; however, the DoD OIG considers the ceiling amount to be \$885,277.00 because the ceiling amount cannot be less than the total obligated amount. The EPA did not report any new obligated amounts for FY 2021.
