## MESSAGE FROM THE LEAD INSPECTOR GENERAL

**Glenn A. Fine**

I am pleased to present this Comprehensive Oversight Plan for Overseas Contingency Operations for fiscal year 2020. This oversight plan was prepared pursuant to requirements in Section 8L of the Inspector General Act of 1978.

This legislation requires the Inspectors General from the Department of Defense (DoD), the Department of State (DoS), and the U.S. Agency for International Development (USAID) to work jointly, and with our oversight partners throughout the government, to ensure effective oversight of U.S. Government activities related to designated overseas contingency operations. We are also responsible for issuing quarterly reports on the status of each designated overseas contingency operation.

In addition, the law requires the development of joint strategic oversight plans for each designated overseas contingency operation. The comprehensive plan described in this document addresses that requirement.

There are currently six overseas contingency operations requiring Lead Inspector General oversight. The DoD Inspector General has been designated the Lead Inspector General for each one. The first is Operation Inherent Resolve, the effort to defeat the Islamic State in Iraq and Syria (ISIS) in those two countries, initiated in October 2014. The second is Operation Freedom's Sentinel, the counterterrorism operation against al Qaeda, ISIS-Khorasan, and their associates in Afghanistan, and the effort to train, advise, and assist the Afghan National Defense and Security Forces through the NATO-led Resolute Support mission, initiated in January 2015.

The third, initiated in November 2017, is Operation Pacific Eagle–Philippines, the U.S. effort to support the Philippine government in its efforts to counter ISIS affiliates and other violent extremist organizations in the Philippines.

Three other classified overseas contingency operations, initiated in February 2018, seek to degrade al Qaeda and ISIS-affiliated terrorists in specific geographic sub-regions in Africa and the Middle East. We discuss these three operations in a classified appendix to this oversight plan.

Each of the six designated overseas contingency operations uses a whole-of-government approach, involving not only military operations but also stabilization, governance, humanitarian assistance, and other efforts by various U.S. Government agencies. As a result, this comprehensive oversight plan discusses whole-of-government oversight. This oversight plan was coordinated among the Offices of Inspector General (OIGs) from the DoD, the DoS, USAID, the Special Inspector General for Afghanistan Reconstruction, other Federal OIGs, and our partner oversight agencies through the Overseas Contingency Operations Joint Planning Group.

In addition to coordination, oversight of these operations must be dynamic. While we plan to conduct the oversight described in this report, the oversight agencies regularly reassess their oversight plans and adjust projects and priorities throughout the fiscal year.

Finally, I want to thank OIG and oversight staff throughout the government for their dedication, cooperation, and hard work in conducting their oversight in challenging environments. Their efforts promote greater transparency, effectiveness, and improvements in these overseas contingency operations.

# INTRODUCTION

## BACKGROUND

This Comprehensive Oversight Plan for Overseas Contingency Operations (COP-OCO) was prepared pursuant to Section 8L of the Inspector General Act of 1978 (IG Act). For overseas contingency operations that exceed 60 days, the IG Act requires the Chair of the Council of the Inspectors General on Integrity and Efficiency (CIGIE) to designate a Lead Inspector General (Lead IG) from among the Department of Defense (DoD), the Department of State (DoS), and the U.S. Agency for International Development (USAID) IGs. The requirements and authorities specified in Section 8L cease at the end of the first fiscal year after the commencement or designation of the overseas contingency operation in which the total amount appropriated for the contingency operation is less than \$100 million.<sup>1</sup>

Once appointed, the Lead IG must develop and carry out, in coordination with the Offices of the Inspectors General (OIGs) from the DoD, the DoS, and USAID, a joint strategic plan for comprehensive oversight of all aspects of the contingency operation.

The DoD, DoS, and USAID Offices of Inspector General—referred to as the Lead IG agencies—also coordinate with other oversight agencies to provide individual and collective oversight.

The Lead IG agencies developed this COP-OCO in coordination with partner agencies. In particular, our CIGIE partners are the OIGs for the Departments of Justice, the Treasury, Energy, and Homeland Security; the Special Inspector General for Afghanistan Reconstruction (SIGAR); and the Government Accountability Office. In addition, each of the military audit services contributed to this oversight plan.

## OVERSIGHT PLAN ORGANIZATION

This publicly releasable COP-OCO includes four sections: one for each of the three unclassified contingency operations and another section for other projects generally related to contingency operations. Additionally, a classified appendix contains the oversight plans for the three classified contingency operations.

- **Section 1: Operation Inherent Resolve (OIR)**

OIR’s mission is to defeat the Islamic State of Iraq and Syria (ISIS) in those two countries, which includes supporting the Iraqi Security Forces and vetted Syrian opposition forces. Separate from OIR military activities, the U.S. Government provides governance support, humanitarian assistance, and development assistance to the Iraqi government and the Syrian people.

- **Section 2: Operation Freedom’s Sentinel (OFS)**

OFS consists of two complementary missions: 1) conducting counterterrorism operations against al Qaeda, ISIS-Khorasan, and their associates in Afghanistan; and 2) training, advising, and assisting the Afghan National Defense and Security Forces through the NATO-led Resolute Support mission. Separate from OFS military activities, the U.S. Government provides governance support, humanitarian assistance, and development assistance to the Afghan government.

- **Section 3: Operation Pacific Eagle–Philippines (OPE-P)**

OPE-P’s mission is to support the Philippine government in its efforts to counter ISIS-East Asia (formerly referred to as ISIS-Philippines) and affiliated violent extremist organizations. Separate from OPE-P military activities, the U.S. Government provides governance support, humanitarian assistance, and development assistance in areas of the Philippines affected by conflict.

- **Section 4: Other Projects Related to Contingency Operations**

This section includes the oversight agencies’ planned and ongoing projects for FY 2020, as well as prior fiscal year published reports for other oversight projects related to contingency operations.

- **Classified Appendix: Three Additional Contingency Operations**

These three operations, two in Africa and one in the Middle East, seek to degrade al Qaeda and ISIS-affiliated terrorists in specific geographic sub-regions.

## A JOINT APPROACH TO PLANNING AND CONDUCTING OVERSIGHT

The overall goal of the Lead IG strategic oversight planning process is to ensure comprehensive oversight of U.S. Government activities related to overseas contingency operations. The Lead IG agencies identify oversight projects that examine the economy, efficiency, and effectiveness of programs and operations. Additionally, the Lead IG agencies coordinate with partner oversight agencies through the Overseas Contingency Operations Joint Planning Group to ensure a whole-of-government approach to oversight.

During this process, the Lead IG agencies develop strategic oversight areas (SOAs), identify oversight gaps, and select oversight projects that balance OIG resources against identified oversight priorities. The Lead IG staffs consider many factors during this process, including U.S. and coalition objectives; congressional appropriations that support military, diplomatic, and development activities; major departmental management challenges identified by each of the Lead IG agencies; and feedback from departmental and congressional stakeholders.

To guide their planning, the Lead IG agencies identified five specific oversight objectives:

- Inform Congress and the public about ongoing contingency operations, the complex challenges facing the United States and its partners, and any changes to policy and strategy.
- Advise the DoD on the effectiveness of its national security mission, and the DoS and USAID on the effectiveness of their diplomatic, development, and humanitarian assistance missions.

- Promote integrity, efficiency, and accountability of U.S. Government operations and their associated funding by deterring fraud, waste, and abuse; identifying resources that could be put to better use; and identifying potential cost savings or recoveries.
- Assess the impact of U.S. Government programs, including the capacity of host-nation governments to sustain these programs, in order to improve U.S.-provided assistance and outcomes for the host-nation governments.
- Evaluate the safety and security of facilities occupied by U.S. military and civilian personnel.

This oversight plan describes specific projects that the Lead IG agencies and the Overseas Contingency Operations Joint Planning Group expect to conduct during FY 2020. Oversight agencies periodically review the purpose and scope of their projects and the changing conditions of the OCOs to update this oversight plan and determine if additional or different oversight projects should be conducted during the fiscal year.

## FUNDING

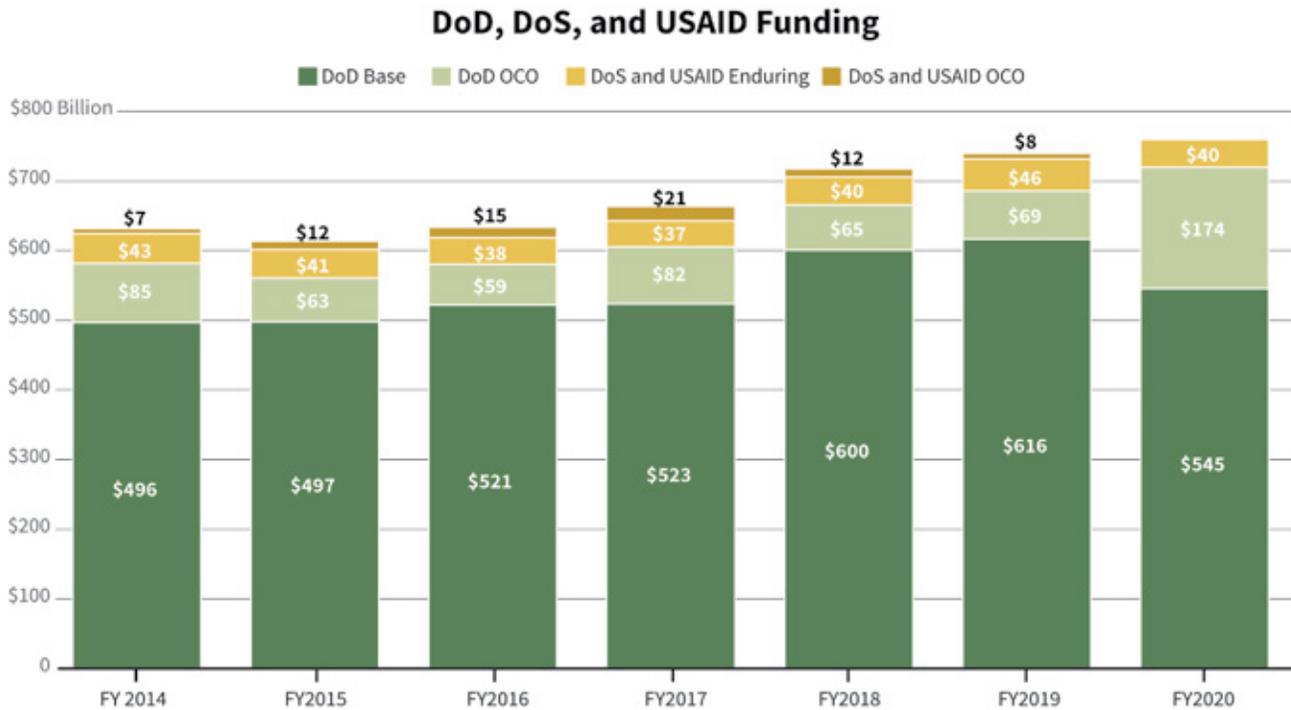

Lead IG oversight responsibilities cover “all aspects of [a] contingency operation” and “all programs and operations of the Federal Government in support of the contingency operation,” regardless of the source or type of funding.<sup>2</sup> As part of the Lead IG’s objective to oversee these operations and their associated funding, the Lead IG agencies report on the DoD, DoS, and USAID budget requests.<sup>3</sup> For FY 2020, the DoD requested \$544.5 billion in base funding and \$173.8 billion in OCO funding.<sup>4</sup> The FY 2020 DoD budget proposal contains the following OCO funding requests:

- **Direct War Requirements:** \$25.4 billion for combat or combat support costs that are not expected to continue once combat operations end.
- **Enduring Requirements:** \$41.3 billion for enduring in-theater and domestic costs that will remain after combat operations end.
- **Base Requirements:** \$97.9 billion for base budget requirements in support of the National Defense Strategy, financed in the OCO budget due to the limits on base budget defense resources under the budget caps in current law.
- **Emergency Requirements:** \$9.2 billion for military construction for emergencies, including border security and reconstruction efforts to rebuild facilities damaged by Hurricanes Florence and Michael.<sup>5</sup>

The categories of Direct War Requirements and Enduring Requirements apply to the Lead IG mission. The Base Requirements and Emergency Requirements do not apply to the Lead IG mission.

The FY 2020 DoS and USAID budget request totaled \$42.7 billion, a reduction of \$11.5 billion (21 percent) from the amount appropriated by Congress for FY 2019. Moreover, the DoS and USAID budget request was lower than any amount appropriated by Congress during the past decade.<sup>6</sup>

**Note:** For FY 2014-2018, funding depicts obligated amounts. For FY 2019, funding depicts appropriated amounts. For FY 2020, funding depicts requested amounts. Additionally, for FY 2020, the DoS and USAID request is entirely enduring, non-OCO funding.

**Sources:** DoD, DoS, USAID, and Congressional Research Service.

## STRATEGIC OVERSIGHT AREAS

The oversight plan for each contingency operation lists the planned oversight within three strategic oversight areas:

- Military Operations and Security Cooperation
- Governance, Humanitarian Assistance, and Development
- Support to Mission

Additionally, each OIG considers its agency management challenges when determining which audits and evaluations to conduct. Specifically, the Reports Consolidation Act of 2000 requires each Inspector General to prepare an annual statement that summarizes what the IG considers to be the “most serious management and performance challenges facing the agency” and to assess the agency’s progress in addressing those challenges. Planned oversight work identified for FY 2020 generally aligns with the management challenges of the respective oversight agency.

Each oversight plan includes additional information for each SOA that is specific to the contingency operation.

## **SOA 1. Military Operations and Security Cooperation**

This SOA focuses on determining the degree to which the contingency operation is accomplishing its security mission. Activities that fall under this SOA include:

- Conducting unilateral and partnered counterterrorism operations
- Providing security assistance
- Training and equipping partner security forces
- Advising, assisting, and enabling partner security forces
- Advising and assisting ministry-level security officials

Additionally, this SOA corresponds to the following Lead IG agencies' management challenges:

- Countering Global Terrorism (DoD)
- Overseeing Foreign Assistance (DoS)
- Operating in Contingency and Critical Environments (DoS)

## **SOA 2. Governance, Humanitarian Assistance, and Development**

This SOA focuses on some of the root causes of violent extremism. Activities that fall under this SOA include:

- Countering and reducing corruption, social inequality, and extremism
- Promoting inclusive and effective democracy, civil participation, and empowerment of women
- Promoting reconciliation, peaceful conflict resolution, demobilization and reintegration of armed forces, and other rule of law efforts
- Providing food, water, medical care, emergency relief, and shelter to people affected by crisis
- Assisting and protecting internally displaced persons and refugees
- Building or enhancing host-nation governance capacity
- Supporting sustainable and appropriate recovery and reconstruction activities, repairing infrastructure, removing explosive remnants of war, and reestablishing utilities and other public services
- Countering trafficking in persons and preventing sexual exploitation and abuse

Additionally, this SOA corresponds to the following Lead IG agencies' management challenges:

- Overseeing Foreign Assistance (DoS)
- Operating in Contingency and Critical Environments (DoS)
- Managing Risks Inherent to Providing Humanitarian and Stabilization Assistance (USAID)
- Strengthening Local Capacity and Improving Planning and Monitoring to Promote Sustainability of U.S.-Funded Development (USAID)
- Reconciling Interagency Priorities and Functions to More Efficiently and Effectively Advance U.S. Foreign Assistance (USAID)

### SOA 3. Support to Mission

This SOA focuses on U.S. administrative, logistical, and management efforts that enable military operations and non-military programs. Activities that fall under this SOA include:

- Ensuring the security of U.S. personnel and property
- Providing for the occupational health and safety of personnel
- Administering U.S. Government programs
- Managing U.S. Government grants and contracts
- Inventorying and accounting for equipment

**Airmen perform routine maintenance on an A-10 Thunderbolt II aircraft at Kandahar Airfield, Afghanistan. (U.S. Air Force photo)**

Additionally, this SOA corresponds to the following Lead IG agencies’ management challenges:

- Managing Contracts and Acquisitions (DoD)
- Implementing DoD Reform Initiatives (DoD)
- Improving Cyber-Security and Cyber Capabilities (DoD)
- Improving Readiness Throughout the DoD (DoD)
- Addressing Vulnerabilities in Financial Management (DoD, DoS)
- Overseeing Contracts and Grants (DoS)
- Operating in Contingency and Critical Environments (DoS)
- Managing the Workforce (DoS)
- Promoting Accountability Through Internal Coordination and Clear Lines of Authority (DoS)
- Managing Property (DoS)
- Reconciling Interagency Priorities and Functions to More Efficiently and Effectively Advance U.S. Foreign Assistance (USAID)
- Addressing Vulnerabilities in Financial and Information Management (USAID)

## CRIMINAL INVESTIGATIONS

The Lead IG agencies investigate allegations of fraud and corruption involving theft and diversion of U.S. Government funds or equipment, and other offenses, including disclosure of contractor proprietary information, the illegal transfer of technology, and trafficking in persons. Information identified through investigations may inform or highlight areas for future audits or inspections.

The investigative branches of the Lead IG agencies—the DoD OIG’s Defense Criminal Investigative Service, the DoS OIG’s Office of Investigations, and the USAID OIG’s Office of Investigations—are members of the Fraud and Corruption Investigative Working Group, which promotes and coordinates the detection, investigation, and prevention of fraud and corruption. Other members of the working group include the U.S. Army Criminal Investigation Command, the Naval Criminal Investigative Service, and the Air Force Office of Special Investigations. The Federal Bureau of Investigation serves as a collaborating agency with the working group.

Fraud and Corruption Investigative Working Group members identify, coordinate, and deconflict fraud and corruption investigations; share best practices and investigative techniques; and discuss proactive measures to detect and deter abuses related to U.S. Government contracts, grants, cooperative agreements, and other Federal assistance awards. Lead IG agency criminal investigators are stationed in Afghanistan, Germany, Iraq, Israel, Kuwait, the Philippines, Qatar, Senegal, South Africa, and Uganda.

## HOTLINE

The DoD, DoS, and USAID OIGs operate separate hotlines to provide a confidential, reliable means for individuals to report violations of law, rule, or regulation; mismanagement; waste of funds; and abuse of authority. Hotlines are a central part of the Lead IG outreach efforts to educate individuals on fraud, waste, and abuse.

Hotline representatives process complaints and then refer them in accordance with their respective agency protocols. Any hotline complaint that merits referral is sent to the responsible organization for investigation or informational purposes.

In support of the Lead IG, the DoD OIG assigned a Lead IG hotline investigator to coordinate the contacts received through its hotline among the Lead IG agencies and others, as appropriate.

In addition, each of the Lead IG investigative components and the military investigative organizations conduct fraud awareness briefings to educate individuals on how to identify indicators of fraud. These briefings promote hotline awareness; reinforce an education campaign focused on preventing, detecting, and reporting fraud, waste, and abuse; and often generate referrals concerning potential fraud and corruption in U.S. Government programs.

## FOREWORD

We are pleased to submit our sixth annual plan describing oversight activities for Operation Inherent Resolve (OIR).

In March 2019, the Islamic State in Iraq and Syria (ISIS) lost control of its last piece of territory in Syria, bringing an end to the terrorist group's self-proclaimed "caliphate." However, the ISIS terrorist threat continues, and OIR's mission remains the enduring defeat of ISIS. This mission includes supporting the Iraqi Security Forces and vetted Syrian opposition forces.

Additionally, the Department of State (DoS) and the U.S. Agency for International Development (USAID) support the Iraqi government and the vetted Syrian opposition with governance, stabilization, and development activities, while working to provide humanitarian assistance to those in need and displaced by conflict.

The Inspectors General for the Department of Defense, the DoS, and USAID are required by the Inspector General Act of 1978 to conduct comprehensive independent oversight of programs and operations in support of overseas contingency operations.

In addition to oversight work and investigations related to OIR, the Lead IG agencies and other members of the Overseas Contingency Operations Joint Planning Group coordinate overseas contingency operations oversight activities. The other members include the U.S. Army Audit Agency; the Naval Audit Service; the U.S. Air Force Audit Agency; the Offices of Inspector General of the Department of Homeland Security, Department of Justice, Department of Energy, Department of the Treasury; and the Government Accountability Office.

This oversight plan for OIR is effective as of October 1, 2019, and is approved upon the signature of all parties below.

# FY 2020 JOINT STRATEGIC OVERSIGHT PLAN FOR OPERATION INHERENT RESOLVE

This oversight plan describes the Lead Inspector General (Lead IG) and partner agency oversight of U.S. Government activities for Operation Inherent Resolve (OIR). These activities include those related to OIR’s military operations and security cooperation; governance, humanitarian assistance, and development; and support to mission.

## ISIS IN IRAQ AND SYRIA

Beginning in 2014, the Islamic State of Iraq and Syria (ISIS) seized territory in those two countries and established a self-proclaimed “caliphate.” ISIS planned and inspired attacks worldwide and committed significant human rights abuses against civilian populations under its territorial control.<sup>1</sup>

Over the last five years, the Iraqi government and Syrian partner forces, with assistance from the United States and the 81-member Global Coalition to Defeat ISIS have fought to destroy ISIS in Iraq and Syria.<sup>2</sup> In December 2017, the Iraqi government announced the liberation of all Iraqi territory from ISIS, and the Coalition liberated the ISIS “caliphate” in northeastern Syria in March 2019.<sup>3</sup>

In June 2019, the Political Directors of the Global Coalition to Defeat ISIS stated that at its peak, “ISIS controlled nearly 110,000 square kilometers of territory, including major cities in both Iraq and Syria, and attracted more than 40,000 foreign terrorist fighters. Today, ISIS no longer controls a territorial caliphate and more than 7.7 million people have been freed from its control.”<sup>4</sup>

Despite the loss of its physical territory, ISIS has sought a resurgence through terrorist and information operations. In June 2019, the DoD reported to the DoD OIG that ISIS still retains the capability to conduct small-scale ambushes, emplace improvised explosive devices, assassinate officials, commit robbery, and launder money.<sup>5</sup> U.S. Central Command (USCENTCOM) reported to the DoD OIG that ISIS attempts to intimidate local populations, finance its operations, and sow dissent to undermine the Iraqi and provincial governments.<sup>6</sup>

According to USCENTCOM, ISIS maintains freedom of movement in rural areas of Iraq and Syria, as well as the ability to move fighters, weapons, supplies, and money across the Iraq-Syria border. ISIS exploits security gaps in rugged terrain, and uses tunnels, safe houses, bribery, and the dark of night to cross freely.<sup>7</sup> Additionally, the DoD reported that ISIS likely retains between 14,000 and 18,000 members in Iraq and Syria.<sup>8</sup> Figure 2 depicts ISIS operating areas.

The Combined Joint Task Force – OIR reported that ISIS messaging focuses on promoting ISIS activities and ideology to attract new recruits, raise donations, and undermine Coalition efforts.<sup>9</sup> According to USCENTCOM, ISIS propaganda is “very adept” at exploiting shortfalls of the Coalition and its local partners.<sup>10</sup>

The DoS reported to the DoS OIG that security and socioeconomic challenges remain in Iraq and Syria that leave ordinary civilians vulnerable to recruiting efforts by ISIS and other extremists. Populations in both countries face high unemployment, insecurity, large numbers of refugees and internally displaced persons, humanitarian crises, governmental failure to provide basic services, and other significant obstacles to economic growth.<sup>11</sup>

## U.S. PRESENCE IN IRAQ AND SYRIA

The United States continues to pursue the military mission to defeat ISIS in Iraq and Syria.<sup>12</sup> By, with, and through partner forces, the United States and Coalition partners continue to develop local security forces, disrupt foreign terrorist fighter movements, interdict terrorist-funding networks, and combat ISIS ideology.<sup>13</sup> According to the Global Coalition, top priorities for the United States and Coalition partner nations are the security of Iraq and Syria, the ability to conduct stabilization activities, and the creation of conditions where ISIS cannot reconstitute in Iraq and Syria.<sup>14</sup>

The DoD reported to the DoD OIG that following the territorial defeat of ISIS in northeastern Syria, the U.S. Government has supported stabilization efforts in that region. These efforts include creating a secure environment through explosive remnants of war removal, rubble clearance, local governance and police capacity building, economic growth, and humanitarian assistance.<sup>15</sup> U.S. actions in Iraq and Syria—both military and non-military—are conducted in support of, and in concert with, local partners.<sup>16</sup>

In Iraq, according to the DoS, the United States remains committed to an enduring relationship with the Iraqi government in keeping with the 2008 Strategic Framework Agreement that affirmed political, diplomatic, defense, security, and cultural cooperation between the U.S. and Iraqi governments.<sup>17</sup> The DoS noted that this security cooperation includes “building Iraq’s defensive capabilities, providing security assistance, and working with Iraq to improve its stability and security, including through operations to defeat ISIS and its affiliates.”<sup>18</sup>

However, according to the DoS and USAID, the May 2019 ordered departure of non-emergency employees from U.S. Embassy Baghdad and Consulate General Erbil eroded the ability of the remaining DoS and USAID personnel to engage in stabilization and humanitarian efforts in Iraq.<sup>19</sup>

In Syria, the United States supports the leadership of the Syrian Democratic Forces. According to the DoS, its goal is to ensure that the people of northeastern Syria can choose their own government and leadership, in accordance with United Nations Security Council Resolution 2254.<sup>20</sup> According to USAID, the United States is the leading donor of humanitarian assistance in response to the Syria crisis and also provides funding for stabilization programs inside Syria.<sup>21</sup> In addition to working with Syrian partners, the United States collaborates with the international community and nongovernmental organizations to promote regional stability.<sup>22</sup>

In addition to U.S. bilateral efforts, and separate from OIR, NATO Mission Iraq was established in October 2018 at the request of the Iraqi government at the July 2018 NATO Summit in Brussels.<sup>23</sup> According to NATO, this non-combat mission consists of approximately 500 personnel focused on developing Iraq’s professional military education system; helping the Iraqi government build a more credible, sustainable, transparent, and effective national security structure; and scaling up NATO’s train and advise activity in Iraq.<sup>24</sup> According to NATO, the mission seeks to complement the broader international effort to help Iraq eradicate terrorism and increase the long-term stability of Iraq and the region.<sup>25</sup>

# U.S. FUNDING FOR PROGRAMS IN IRAQ AND SYRIA

## DOD FUNDING FOR OIR

The DoD budget request for FY 2020 includes \$6.9 billion for OIR, which is intended to build the capacity of the Iraqi Security Forces and vetted Syrian opposition forces to counter ISIS in support of the U.S. comprehensive regional strategy.<sup>26</sup>

### Military Personnel (\$0.4 B)

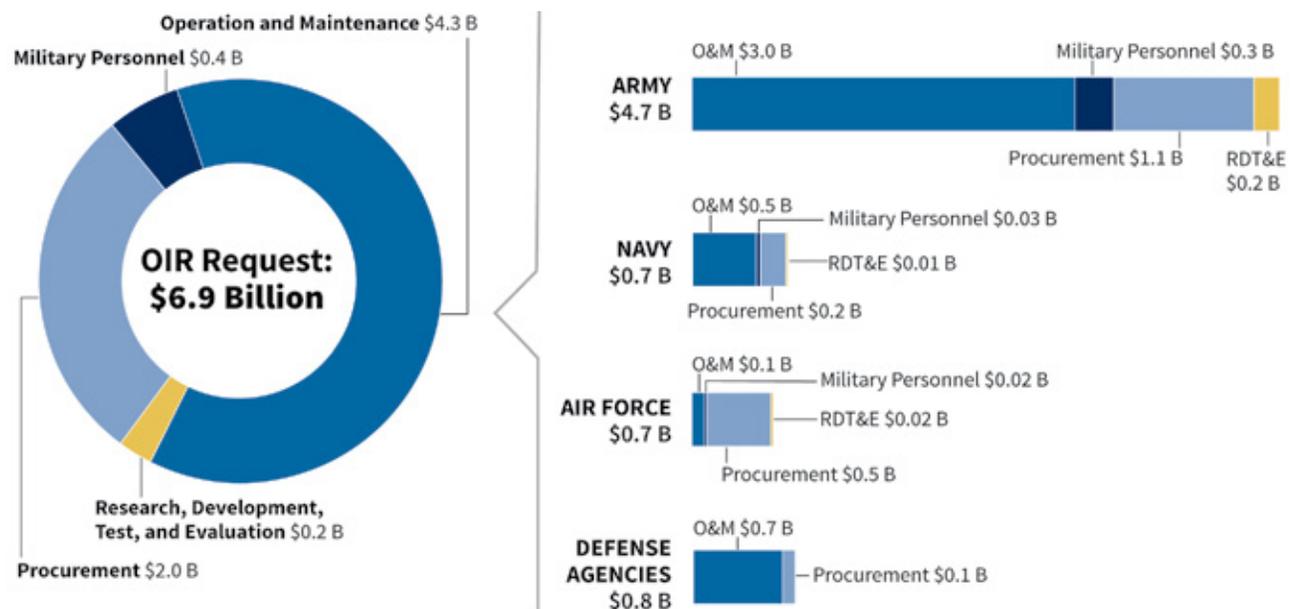

These funds are for active and reserve component requirements. For the active component, this includes incremental deployment pay associated with military personnel deployed in support of OIR. Additionally, for activated reservists, the funding includes pay and allowances for deployed military personnel, as well as those remaining in the United States supporting combat operations in theater.<sup>27</sup>

### Operation and Maintenance (\$4.3 B)

These funds are for a range of costs for the Military Services and defense agencies, including operations, fuel, spare parts, maintenance, communications, intelligence support, transportation, retrograde, reset, and civilian personnel in support of OIR. This category also includes the Counter-ISIS Train and Equip Fund.<sup>28</sup>

**Counter-ISIS Train and Equip Fund**

• **Counter-ISIS Train and Equip Fund**

This fund strengthens the capabilities of the DoD’s partners to secure territory liberated from ISIS and counter future terrorist threats. The request includes funding for training, equipping, and stipend payments for partner security forces.<sup>29</sup>

**Procurement (\$2.0 B)**

These funds are for the procurement of unmanned aerial systems (UAS), engineering equipment, vehicles, counter-improvised explosive device (counter-IED) systems, and other equipment for use by U.S. forces. This request also funds the procurement of bombs, missiles, and other munitions.<sup>30</sup>

**Research, Development, Test, and Evaluation (RDT&E) (\$0.2 B)**

These funds are for the research, development, test, and evaluation of programs, including UAS and counter-IED systems.<sup>31</sup>

**DOS AND USAID FUNDING FOR IRAQ**

The DoS and USAID budget request contains \$1.3 billion for Iraq. To ensure the enduring defeat of ISIS and stabilize liberated areas, the DoS and USAID engage with the Iraqi government, international organizations, regional neighbors, economic partners, and the Iraqi people to support improvements in governance, economic development, and regional relations, and to maintain a strong partnership with Iraq under the Strategic Framework Agreement.<sup>32</sup>

**Worldwide Security Protection and Ongoing Operations (\$808.2 M)**

These funds support ongoing Diplomatic Security programs in Iraq, including international cooperative administrative support services costs, diplomatic couriers, static/local guards, Embassy Air overseas support costs, premium pay, temporary duty-related costs, armored vehicle replacements, training, and physical and technical security. The budget request includes a decrease of \$50 million due to expected savings associated with the current suspension of operations at Consulate Basrah.<sup>33</sup>

**Diplomatic and Consular Programs (\$118.1 M)**

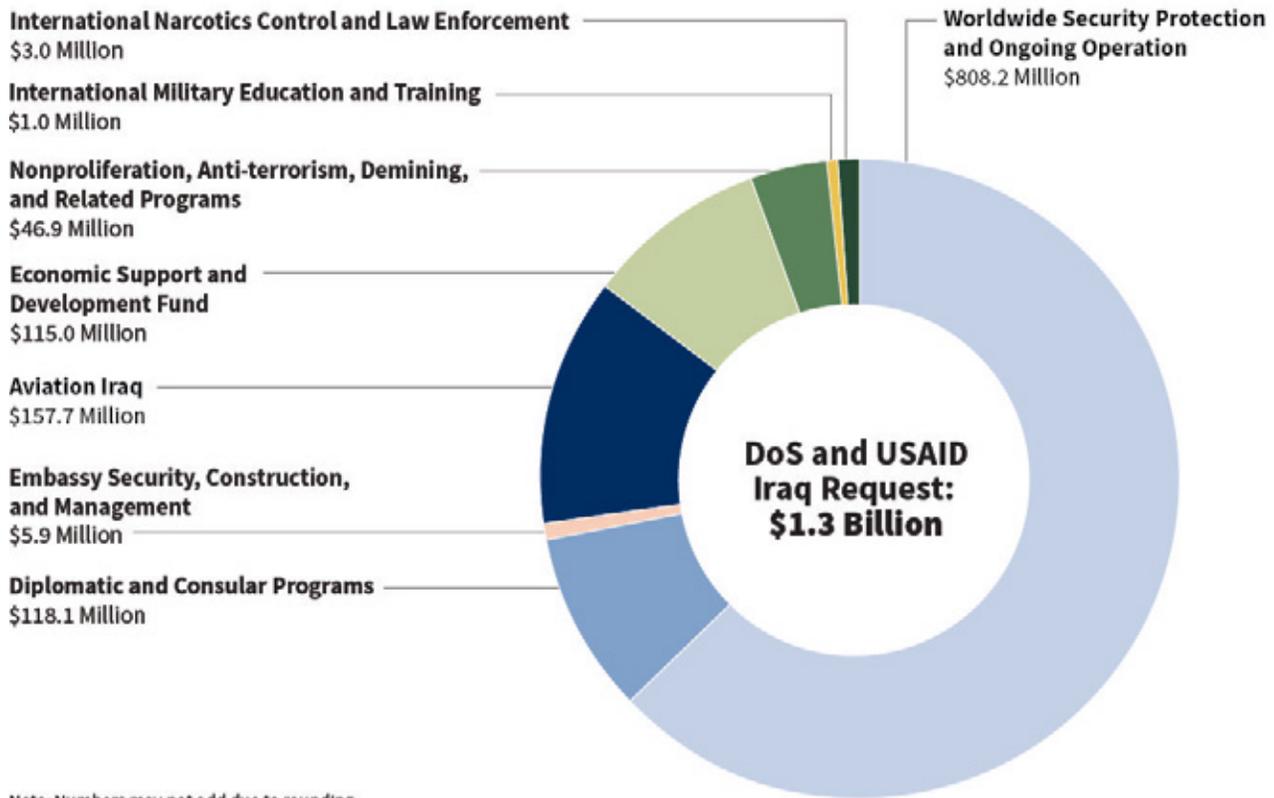

These funds provide for U.S. Embassy Baghdad and Consulate Erbil operations, staff support costs and salaries, transportation, communications, and aviation programs. The budget request includes \$109.8 million for program operations, \$10.3 million for public diplomacy (\$5.1 million decrease), and \$19.5 million for U.S. salaries.<sup>34</sup>

**Embassy Security, Construction, and Management (\$5.9 M)**

These funds pay the costs for security upgrades; repair, improvement, and construction; and management and operations.<sup>35</sup>

**Aviation Iraq (\$157.7 M)**

These funds support the Aviation Working Capital Fund to provide fixed-wing aircraft service into and out of Iraq, and a mixture of airplanes and helicopters to support program missions and movement of passengers within country.<sup>36</sup>

**Economic Support and Development Fund (\$115.0 M)**

These funds support stabilization and recovery in areas liberated from ISIS; reinforce Iraq’s own economic and fiscal reforms; strengthen governance and government responsiveness; and promote reconciliation, accountability, and human rights. Additionally, these funds support Iraqi minorities most affected by ISIS.<sup>37</sup>

**Nonproliferation, Anti-Terrorism, Demining, and Related Programs (\$46.9 M)**

These funds are intended to improve Iraq’s ability to defend itself against external threats to internal stability through bilateral conventional weapons destruction, anti-terrorism assistance, and export control and related border security assistance programs.<sup>38</sup>

**International Military Education and Training (\$1.0 M)**

These funds are intended to enhance the development and professionalism of the Iraqi military forces, improve their interoperability with the United States and partners within the region, and support security sector reform and defense institution-building initiatives. This military education and training is designed to develop security expertise and respect for human rights and the rule of law for select members of the Iraqi Air Force, Army, Navy, Kurdish Peshmerga, Counter Terrorism Service, and civilian defense and security officials.<sup>39</sup>

**International Narcotics Control and Law Enforcement (\$3.0 M)**

These funds build on the previous work of the Department of Justice International Criminal Investigative Training and Assistance Program. An International Narcotics Control and Law Enforcement advisor assists key personnel in Ministry of Interior units to develop Iraq-led training programs and strategic plans; conduct criminal investigations and analyze forensic evidence; investigate and pursue organized crime, including illicit finance and money laundering; and conduct internal investigations in accordance with international norms and standards.<sup>40</sup>

**UN Assistance Mission for Iraq**

The United States shares the costs of the UN Assistance Mission for Iraq, which uses financial contributions and the expertise of member nations to combat violent extremism; promote human rights; and forge solutions to the global threats of armed conflict, hunger, poverty, and disease.<sup>41</sup>

**Additional Humanitarian Assistance Activities**

The DoS and USAID request funds to address worldwide crises affecting U.S. national security interests. For FY 2020, the DoS and USAID requested \$6.0 billion for a new International Humanitarian Assistance Account and \$365.1 million for Migration and Refugee Assistance for use worldwide. This request eliminates funding for the previous International Disaster Assistance and Public Law 480 Title II/Food for Peace program in favor of the new International Disaster Assistance account.<sup>42</sup>

**DOS AND USAID FUNDING FOR SYRIA**

The DoS and USAID FY 2020 budget did not request specific program funding for Syria, although it did include significant funding for international programs that, while not specifically designated, are available for use in Syria.<sup>43</sup>

For example, the DoS and USAID budget request includes the \$6.0 billion in International Humanitarian Assistance previously discussed. These funds are available for worldwide use in crises that intersect with U.S. national security interests, including in Syria. Funds from this proposed account—which combines past years' International Disaster Assistance, Food for Peace, and Migration and Refugee Assistance accounts—are to be administered by the DoS and USAID.<sup>44</sup>

The DoS and USAID budget request also includes \$145.0 million for the Relief and Recovery Fund, which is intended to provide the DoS and USAID with the flexibility to respond to unanticipated contingencies arising from terrorism and conflict worldwide. A subset of funds would be available in Syria to promote stability and recovery and help deny ISIS and other violent extremist organizations the ability to regroup and reemerge. These funds also support efforts to clear explosive remnants of war in Syria.<sup>45</sup>

The DoS and USAID budget request further includes \$72.0 million for the Global Threat Reduction program worldwide. This program seeks to counter the Syrian regime’s development of chemical weapons by training partner governments and chemical industry stakeholders to identify and eliminate transfers of dual-use material and technology to entities involved in the program.<sup>46</sup>

The DoS and USAID budget request includes \$5.0 million for the Nonproliferation and Disarmament Fund to focus on high-priority projects, including those in Syria. These funds will continue to support the United Nations and the Organization for the Prohibition of Chemical Weapons to detect and investigate the use of chemical weapons in Syria. It also provides additional chemical weapons detection and mitigation equipment and personal protective gear.<sup>47</sup>

The April 2018 freeze on providing new U.S. funding for stabilization efforts in Syria remains largely in effect. However, in August 2019, the DoS allocated \$5 million in U.S. funds for Syria transitional justice activities. Additionally, the DoS and USAID will continue to manage stabilization programs funded by contributions from Coalition partners through the end of the calendar year.<sup>48</sup>

## STRATEGIC OVERSIGHT AREAS

This oversight plan organizes OIR-related oversight projects into three strategic oversight areas (SOAs):

1. Military Operations and Security Cooperation
2. Governance, Humanitarian Assistance, and Development
3. Support to Mission

Each of the following SOA discussions presents examples of oversight projects planned or ongoing for FY 2020. For a complete list of planned FY 2020 OIR-related oversight projects, refer to the project tables at the end of this plan.

### SOA 1. MILITARY OPERATIONS AND SECURITY COOPERATION

U.S. forces and Coalition partners have continued to work “by, with, and through” local partners in Iraq and Syria. According to the DoD, military-to-military relationships and programs have achieved significant success against ISIS in Iraq and Syria over the past several years.<sup>49</sup> However, the DoD has stated that its mission is not yet complete as local partner security deficiencies remain.<sup>50</sup> According to the DoD, the Iraqi Security Forces have improved their capabilities through U.S. and Coalition training, but will likely rely on the Coalition for years to fill gaps in intelligence capabilities and deficiencies in “command and control, leadership, physical resilience, and [the] ability to execute basic minor infantry tactics.”<sup>51</sup> Moreover, the DoD reported that a long-term U.S. military presence will be needed to build the Iraqi Security Forces’ capacity and to achieve the stated policy goals of securing the “enduring defeat” of ISIS.<sup>52</sup>

In addition to building the Iraqi Security Forces’ capabilities, the DoD supported these forces with air and artillery strikes against ISIS during the defeat-ISIS campaign.<sup>53</sup> In April 2019, the DoD OIG issued a classified evaluation report of targeting operations and civilian casualties in

OIR. Additionally, in January 2019, the DoD OIG initiated an evaluation of USCENTCOM’s kinetic targeting processes and reporting procedures. The objective of this project is to evaluate USCENTCOM’s target development and prosecution processes, as well as post-strike collateral damage and civilian casualty assessment activities.

The DoD reported to the DoD OIG its assessment that, despite the loss of physical territory, ISIS continues to use the global information environment to recruit followers and inspire attacks. The U.S. Government is working to stop the spread of ISIS’s violent ideology worldwide.<sup>54</sup> In April 2019, the DoD OIG began an evaluation of military information support operations carried out by the Combined Joint Task Force – Operation Inherent Resolve (CJTF-OIR), the command created in 2015 to defeat ISIS. The objective of the evaluation is to determine whether CJTF-OIR effectively planned and executed military information support operations to counter ISIS in Iraq and Syria.

Additionally, in June 2019, the DoS OIG began an audit of the Global Engagement Center’s execution of its mandate to coordinate U.S. Government efforts to counter disinformation

**Iraqi Security Forces take cover during an evaluation exercise at the Besmaya Range Complex, Iraq. (U.S. Army photo)**

and propaganda by state and non-state actors. The audit objective is to determine whether the Global Engagement Center is effectively coordinating U.S. Government efforts to recognize, understand, expose, and counter propaganda and disinformation efforts aimed at undermining the United States, its allies, and partner nations. The DoD and DoS OIG teams are conducting these reviews independently but have coordinated efforts.

Outside of Iraq and Syria, the DoD funds other programs to help ensure regional security. For example, the DoD supports the Jordan Border Security Program to improve Jordanian border security against ISIS.<sup>55</sup> In January 2019, the DoD OIG began an audit of this program to determine whether the DoD's Defense Threat Reduction Agency is ensuring that the contractor-provided equipment, training, and sustainment meet the Jordan Border Security Program requirements.

### **Selected FY 2020 Oversight Projects**

The DoD OIG plans to audit pre-deployment training on counter-UAS equipment. According to the USCENTCOM Commander, enemy-armed UAS pose a risk to U.S. and partner forces in the USCENTCOM region.<sup>56</sup> The objective of the audit is to determine whether the Military Services conducted training to counter enemy UAS in accordance with the operational requirements of the combatant commanders.

In the past, the DoD OIG has evaluated multiple, classified intelligence programs related to OIR.<sup>57</sup> In FY 2020, the DoD OIG plans to conduct an evaluation of geospatial intelligence collection usage and an evaluation of tactical signals intelligence processing.

## **SOA 2. GOVERNANCE, HUMANITARIAN ASSISTANCE, AND DEVELOPMENT**

The U.S. Government supports a range of assistance programs in Syria and Iraq in connection with OIR. USAID and the DoS implement humanitarian assistance activities and other programming that seek to counter violent extremism and promote a return to stability, more effective governance, and economic growth in these countries.

For areas liberated from ISIS where conflict has abated, the DoS and USAID work with the United Nations and other organizations to plan and implement assistance programs that promote stability and improve the livelihood of those impacted by the crisis.<sup>58</sup> According to the United Nations, the goals of stabilization in Iraq and Syria are to create conditions allowing displaced persons and refugees to return to their homes, promote reconciliation, and avoid a resurgence of extremist ideologies and groups.<sup>59</sup> Stabilization efforts include removing explosive remnants of war; reestablishing utilities, such as electricity and water; delivering basic medical services; providing local security and policing; addressing urgent humanitarian needs; and contributing to the reestablishment of the rule of law and basic commerce.<sup>60</sup> In both Iraq and Syria, if issues of reconciliation, basic services, and restorative justice are not addressed, successes against ISIS could falter and allow a renewal of violent extremism.<sup>61</sup>

## Iraq

The United Nations stated that 6.7 million Iraqis were in need of humanitarian assistance, as of June 2019.<sup>62</sup> For FY 2018–2019, the DoS and USAID have provided approximately \$731 million in humanitarian assistance funding, as of August 2019. This funding includes approximately \$301 million from the DoS Bureau of Population, Refugees, and Migration (PRM), \$398 million from the USAID Office of U.S. Foreign Disaster Assistance (OFDA), and \$32 million from USAID Food for Peace (FFP).<sup>63</sup>

According to the United States Institute of Peace, the Iraqi government, elected and formed during 2018 and 2019, has not demonstrated a consistent ability to provide adequate services and support to all its citizens, including internally displaced persons, and the international community lacks the capacity and resources to fill the gaps.<sup>64</sup> Insecurity, retaliation against those suspected of having ISIS affiliations, and the magnitude of rebuilding needed in conflict-affected areas are all obstacles to the permanent return of internally displaced persons and the long-term stability of communities where people have returned.<sup>65</sup>

In Iraq, the DoS and USAID OIGs focus their oversight work on U.S. Government funding, programs, and the achievement of U.S. Government goals. In March 2019, the DoS OIG issued an audit report on humanitarian assistance and cooperative agreements supporting internally displaced persons in Iraq. While the DoS OIG found that PRM generally complied with Federal requirements, DoS guidance, and the terms and conditions of the cooperative agreements, the DoS OIG recommended that PRM ensure award recipients in Iraq use funds awarded through cooperative agreements as intended.<sup>66</sup> Additionally, USAID OIG is conducting an audit to assess USAID’s management of its transition strategy for humanitarian assistance in Iraq and oversight of its humanitarian assistance and stabilization activities.

## Syria

The United Nations stated that 11.7 million Syrians were in need of humanitarian assistance, as of March 2019.<sup>67</sup> For FY 2018–2019, the DoS and USAID have provided approximately \$2.1 billion in humanitarian funding for the emergency response, as of June 2019. This funding includes approximately \$1.1 billion from PRM, \$300 million from OFDA, and \$736 million from FFP to support the provision of humanitarian assistance.<sup>68</sup>

**A chain-link fence separates the annex from the main sections of al Hol internally displaced persons camp in northeastern Syria. (Human Rights Watch photo)**

USAID reported to USAID OIG that in northern Syria, where fighting resulted in the displacement of hundreds of thousands of people, international agencies have prepositioned food supplies near Idlib province.<sup>69</sup> However, according to the United Nations, the Syrian regime continues to limit access for humanitarian efforts, impeding USAID and PRM-funded implementers from safely delivering aid to populations in need of assistance.<sup>70</sup>

Crisis conditions, such as those seen in northwestern Syria, make assistance efforts particularly vulnerable to fraud, waste, and abuse. USAID OIG has uncovered multiple fraud schemes to divert U.S. Government funds and goods to armed groups in northwestern Syria—including diversions to Hayat Tahrir al Sham, a terrorist organization affiliated with al Qaeda.<sup>71</sup> In November 2018, USAID resumed humanitarian assistance activities after previously suspending \$87.9 million in programming to the region when USAID OIG uncovered diversions of U.S.-funded food assistance to terrorists.<sup>72</sup> Additionally, USAID OIG is conducting an audit to determine whether a Syria response implementer has taken corrective actions to remedy internal control weaknesses that were identified through USAID OIG investigations.

A September 2018 DoS OIG review found that the DoS faced major challenges implementing stabilization assistance in northeastern Syria, including interagency coordination hurdles, a high-threat security environment, regional political concerns, policy and legal restrictions on funding, and the lack of a United Nations or host-nation partner for stabilization activities. The DoS OIG's report highlighted the need for a single, high-level U.S. official responsible for Syria, which was addressed by the appointment of Ambassador James Jeffrey as the Special Representative for Syria Engagement just prior to the report's release. The report further recommended that the DoS institutionalize lessons learned from opening and operating the Syria Transition and Response Team-Forward (START-Forward) in Syria.<sup>73</sup>

U.S. assistance efforts in northeastern Syria have continued to evolve over the last year. The DoS and USAID staff previously operating in Syria as part of START-Forward were evacuated in December 2018 due to security concerns. In July 2019, the START-Forward team resumed operations in northeastern Syria to coordinate and manage assistance efforts.<sup>74</sup>

### **Selected FY 2020 Oversight Projects**

The DoS OIG plans to audit the DoS management of awards to international organizations, focusing on the effectiveness of DoS risk assessments and monitoring. The objectives of the audit are to determine the effectiveness of DoS efforts to identify, assess, and manage risks before awarding funds to international organizations and to assess whether DoS policies, guidance, and processes for monitoring these awards ensure that funds are managed and spent in a manner consistent with U.S. goals, objectives, and risk mitigation requirements.

USAID OIG plans to audit USAID's Journey to Self-Reliance Initiative in FY 2020. This initiative seeks to mitigate the necessity of foreign assistance by helping countries to solve their own development challenges. The objectives of the audit are to determine what extent USAID's self-reliance metrics are incorporated into its development programming strategy and what challenges USAID faces in implementing development activities as envisioned under this initiative.

## **SOA 3. SUPPORT TO MISSION**

This SOA includes the DoD, DoS, and USAID OIGs' oversight of U.S. Government administrative, logistical, and management efforts that enable military operations and non-military programs. For example, U.S. warfighters, diplomats, and aid workers, who live and work on installations in Iraq and neighboring countries, require support in facilities, logistics, and other sustainment. The U.S. Government generally contracts with the private sector for these requirements, and the Lead IG agencies have found that these contracts are vulnerable to fraud, waste, and abuse.<sup>75</sup> Moreover, the DoD and DoS OIGs continue to inspect U.S. bases, embassies, and consulates to ensure these installations meet security requirements and occupational safety and health standards.

For example, the DoD uses the Air Force Contract Augmentation Program IV (AFCAP IV) contract, valued at \$5 billion, to provide for services such as logistics, infrastructure support, and other base operating support in the Middle East. In July 2019, the DoD OIG issued an audit report of the Air Force's management of the AFCAP IV contract. The DoD OIG determined that the Air Force did not account for U.S. Government property provided to contractors in Kuwait, Qatar, and the United Arab Emirates, and as a result, could not hold the contractors accountable for how they managed the property.<sup>76</sup>

In April 2019, the DoS OIG issued a lessons learned report to direct DoS senior management's attention to recurring challenges confronting the DoS review of invoices for contracts supporting overseas contingency operations. The DoS OIG had previously identified these common challenges in a series of audit reports reviewing more than \$6.6 billion in contracts administered by four DoS bureaus. The DoS OIG made seven recommendations to strengthen the invoice review process throughout the Department. Common challenges identified by the DoS OIG were: staffing shortages, which hampered efforts to conduct thorough reviews of the invoices; lack of readiness to monitor contract performance, which increased the risk that the DoS paid for services that did

not meet contract requirements; and the use of cost-reimbursable contracts, which significantly increased the complexity of the invoices and thus the workload of the invoice reviewers.<sup>77</sup>

In September 2018, USAID OIG issued an audit report of USAID’s oversight of public international organizations (PIO)—such as United Nations’ organizations—and found that USAID’s approach to overseeing PIOs had not included identifying, assessing, and managing risks related to working with PIOs, such as risks posed by terrorist groups that sought to divert USAID assistance. Further, USAID’s PIO policy and accompanying processes and guidance did not align with Federal internal control standards.<sup>78</sup>

### **Selected FY 2020 Oversight Projects**

In 2017, the DoD OIG audited the Heavy Lift 7 contracts that provided for commercial ground transportation in Kuwait and Iraq. This audit found that due to improper management, the Army ordered 39 percent more transportation assets than needed, and as a result, wasted approximately \$54 million throughout the life of the contracts. In FY 2020, as a follow-up to the 2017 report, the DoD OIG plans to audit the subsequent Heavy Lift 8 contracts to determine whether the Army implemented corrective actions based on the prior DoD OIG audit report.

In FY 2020, the DoS OIG plans to audit DoS personal property accountability at U.S. Embassy Baghdad. The embassy manages approximately \$300 million in government-owned personal property, and the September 2018 suspension of operations at Consulate General Basrah resulted in the transfer of approximately 90 percent of the Consulate’s personal property to U.S. Embassy Baghdad. The objective of the audit is to determine whether DoS accounts for and maintains government-owned personal property in Baghdad in accordance with Federal requirements and DoS regulations.

In FY 2020, USAID OIG plans to audit USAID efforts to prevent and detect sexual exploitation and abuse. Sexual exploitation and abuse have been a longstanding problem in the aid sector, especially in impoverished, unstable, and crisis environments—such as in northeastern Syria and portions of Iraq—that leave vulnerable people particularly at risk. The audit objectives are to determine to what extent USAID has taken action to detect and prevent sexual exploitation and abuse and to assess USAID’s process for responding to related allegations.

## **CRIMINAL INVESTIGATIONS**

In addition to the Lead IG agencies’ efforts with the Fraud and Corruption Investigative Working Group, USAID OIG also founded the Syria Investigations Working Group focused on the humanitarian assistance community, consisting of representatives within the investigative bodies of USAID OIG, the DoS OIG, public international organizations, and bilateral donors. Since its establishment in October 2015, the group has met biannually to share investigative leads, coordinate oversight activities, and identify trends in the region.

In recognition of the geographical breadth of the ISIS threat, USAID OIG also established a Defeat ISIS Investigative Task Force to ensure oversight and prevent fraud, waste, and abuse across operations. The Defeat ISIS Investigative Task Force brings together USAID OIG staff from multiple divisions to leverage the expertise available within the USAID OIG. Members include USAID OIG investigators, analysts, auditors, and managers based in Washington, D.C.; Cairo, Egypt; and Frankfurt, Germany.

## FOREWORD

We are pleased to submit our fifth annual plan describing oversight activities for Operation Freedom's Sentinel (OFS).

OFS consists of two complementary missions:

- Conducting counterterrorism operations against al Qaeda, the Islamic State of Iraq and Syria-Khorasan, and their associates
- Training, advising, and assisting the Afghan National Defense and Security Forces through the NATO-led Resolute Support mission

Additionally, the Department of State (DoS) and the U.S. Agency for International Development (USAID) support governance, humanitarian assistance, development, and reconstruction activities in Afghanistan.

The Inspectors General for the Department of Defense, the DoS, and USAID are required by the Inspector General Act of 1978 to conduct comprehensive, independent oversight of programs and operations in support of overseas contingency operations.

The Special Inspector General for Afghanistan Reconstruction (SIGAR) operates under a separate congressional mandate to provide independent and objective oversight of Afghanistan reconstruction projects and activities.

In addition to oversight work and investigations related to OFS, the Lead IG agencies, SIGAR, and other members of the Overseas Contingency Operations Joint Planning Group coordinate overseas contingency operations oversight activities. The other members include the U.S. Army Audit Agency; the Naval Audit Service; the U.S. Air Force Audit Agency; the Offices of Inspector General of the Departments of Homeland Security, Justice, Energy, and the Treasury; and the Government Accountability Office.

This oversight plan for OFS is effective as of October 1, 2019, and is approved upon the signature of all parties below.

# FY 2020 JOINT STRATEGIC OVERSIGHT PLAN FOR OPERATION FREEDOM'S SENTINEL

This oversight plan describes the Lead Inspector General (Lead IG) and partner agency oversight of U.S. Government activities in Afghanistan. These activities include those related to Operation Freedom's Sentinel's (OFS) military operations and security cooperation; governance, humanitarian assistance, development, and reconstruction; and support to mission.

## AFGHANISTAN

The Afghan government faces significant security, diplomatic, and economic challenges that inhibit stability in the country. According to the DoD, the principal threat to Afghanistan is the Taliban insurgency that seeks to overthrow the Afghan government and conducts attacks against the Afghan security forces and people.<sup>1</sup> In addition to the Taliban insurgency, multiple terrorist organizations, including al Qaeda, the Haqqani Network, and Islamic State in Iraq and Syria-Khorasan (ISIS-K) pose a threat to regional security and stability.<sup>2</sup>

Despite continuing violence, the U.S. Government undertook peace negotiations with the Taliban. According to the DoD, the U.S. Special Representative for Afghanistan Reconciliation, Ambassador Zalmay Khalilzad, was negotiating a peace agreement with Taliban representatives based primarily on four interconnected actions: 1) counterterrorism assurances, 2) troop withdrawal, 3) intra-Afghan negotiations that lead to a political settlement, and 4) a comprehensive and permanent ceasefire.<sup>3</sup> However, following a mid-September 2019 Taliban bombing in Kabul that killed 12 people, including a U.S. soldier, a planned meeting with the Taliban was canceled.<sup>4</sup> At the time of the publication of this oversight plan, no future talks had been scheduled.

According to the DoS, in addition to security challenges posed by the Taliban, terrorists, and criminal organizations, the Afghan government remains handicapped by poor governance and corruption. Transparency International's 2018 Corruption Perceptions Index ranked Afghanistan in the top 10 most corrupt countries in the world.<sup>5</sup> In addition, in 2019, the DoS

declined to certify to the U.S. Congress that the Afghan government was pursuing a comprehensive counter-corruption initiative.<sup>6</sup>

Years of war and poor governance have stifled Afghanistan's economic growth. According to the World Bank, one-quarter of the labor force is unemployed, and job creation has not been able to keep up with population growth.<sup>7</sup> Additionally, the World Bank estimates that, while Afghanistan's gross domestic product grew 2.2 percent in 2017, it grew only 1 percent in 2018.<sup>8</sup>

Eighteen years of war in Afghanistan have resulted in millions of internally displaced persons, refugees, and others in need of humanitarian assistance. In July 2019, the United Nations stated that an estimated 206,000 people in Afghanistan have been displaced by conflict since the beginning of 2019.<sup>9</sup> According to the United Nations, 2.5 million registered Afghan refugees were living outside of Afghanistan, as of May 2019. These Afghan refugees constitute the second-largest refugee population in the world.<sup>10</sup>

## NATO PRESENCE IN AFGHANISTAN

In January 2015, the North Atlantic Treaty Organization (NATO) launched the Resolute Support mission to train, advise, and assist Afghan security forces and institutions. The Resolute Support mission consists of building the institutional capacity of Afghanistan's Ministry of Defense (MoD) and Ministry of Interior (MoI), which is critical to achieving and maintaining a stable Afghanistan.<sup>11</sup> In addition to its military commitment, NATO provides political and financial support to the Afghan government.<sup>12</sup>

NATO conducts the Resolute Support mission through eight geographically organized command elements: six Train, Advise, and Assist Commands and two Task Forces, as shown in Figure 1.<sup>13</sup>

Thirty-nine nations—27 NATO allies and 12 operational partners—contribute military personnel to NATO's Resolute Support mission, as shown in Table 1.<sup>14</sup> The United States is the largest troop-contributing nation to the NATO mission with 8,475 troops, and this number remained stable throughout FY 2019.<sup>15</sup>

## U.S. PRESENCE IN AFGHANISTAN

In August 2017, President Trump announced a revised U.S. regional strategy for Afghanistan and South Asia.<sup>16</sup> The new strategy seeks a political outcome in Afghanistan that preserves U.S. vital interests, which include protecting the U.S. homeland, citizens, and interests overseas from threats originating in South Asia.<sup>17</sup> According to the DoD, the U.S. operational approach to a negotiated peace settlement is to bring the Taliban to the bargaining table and to provide strong incentives to engage in meaningful negotiations with the U.S. and Afghan governments.<sup>18</sup>

Figure 1.

**Train, Advise, and Assist Commands (TAACs) and Task Forces (TFs)**

U.S. military forces in Afghanistan carry out two complementary missions under OFS: 1) conducting counterterrorism operations against al Qaeda, ISIS-K, and their affiliates in Afghanistan; and 2) participating in the NATO-led Resolute Support Mission under which the U.S. military trains, advises, and assists Afghan security forces and the Afghan Ministries of Defense and Interior to build institutional capacity. In addition, under OFS authorities, the United States provides combat enablers, such as air support and intelligence, surveillance, and reconnaissance capabilities, to Afghan security forces fighting the Taliban and terrorist organizations.<sup>19</sup>

Alongside U.S. partner agencies, the DoS works in Afghanistan to maintain the U.S.-Afghan bilateral relationship, as defined by two strategic documents: 1) the Enduring Strategic Partnership Agreement, signed in May 2012, which outlines political and economic commitments, and 2) the Bilateral Security Agreement, signed in September 2014, which describes mutual security arrangements.<sup>20</sup> In addition, specific DoS programs seek to promote good governance in Afghanistan; for example, the DoS has worked closely with the Afghan government to establish the Anti-Corruption Justice Center, a special counter-corruption court.<sup>21</sup>

In addition, the DoS and USAID are implementing programs that seek to build Afghan government capabilities and promote economic self-sufficiency. According to the DoS, its goal remains to help the Afghan government assume increased responsibility for the security and welfare of its people.<sup>22</sup> USAID’s democracy and governance programs seek to support

the establishment of a broadly accepted national government that promotes national unity and effectively serves the needs of the Afghan people. USAID also helps develop the capacity of key Afghan institutions, including the Independent Election Commission, the National Assembly, the Supreme Court, and specific ministries and institutions of the executive branch, such as the Independent Directorate for Local Governance and the Civil Service Commission. USAID also provides training to Afghan civil society organizations to advocate for community-led reforms.<sup>23</sup>

In addition to activities supporting economic development, civil society, and governance, USAID and the DoS provide health and basic livelihood support to internally displaced persons, returning refugees, other conflict-affected populations, and populations affected by drought or other natural disasters in Afghanistan.<sup>24</sup>

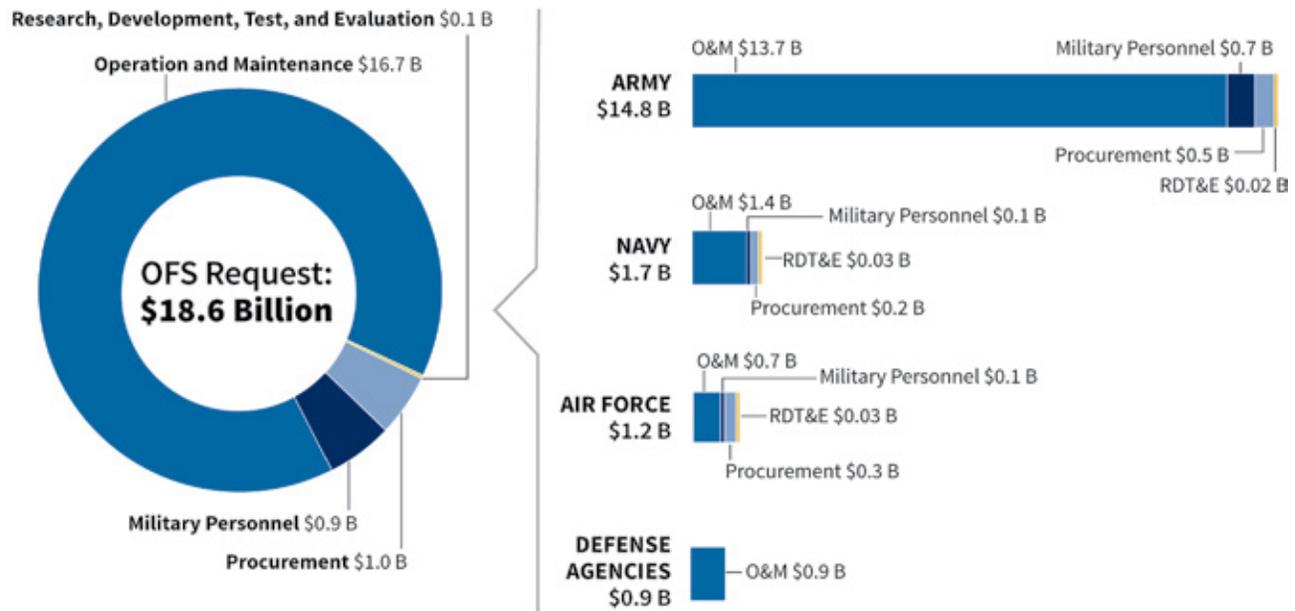

## U.S. FUNDING FOR PROGRAMS IN AFGHANISTAN

### DOD FUNDING FOR OFS

The DoD budget request for FY 2020 includes \$18.6 billion for OFS. This request supports the NATO Resolute Support mission and U.S. counterterrorism operations.<sup>25</sup> OFS funding also encompasses support for stability and counterterrorism activities in the Horn of Africa and the Philippines, as well as detainee operations on U.S. Naval Station Guantanamo Bay, Cuba.<sup>26</sup>

**FY 2020 OFS Request by Appropriation: DoD and Its Departments**

**Note:** Numbers may not add due to rounding  
**Source:** DoD Comptroller, response to DoD OIG request for information, 4/10/2019.

**Military Personnel (\$0.9 B)**

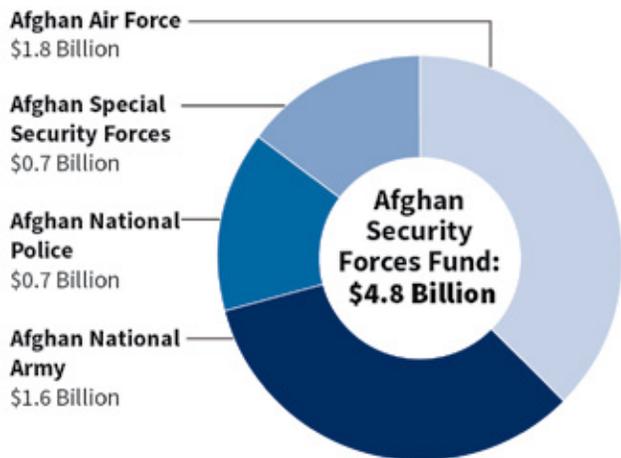

These funds are for active and reserve component requirements. For the active component, this includes incremental deployment pay associated with military personnel deployed in support of OFS. Additionally, for activated reservists, this funding includes pay and allowances for deployed military personnel, as well as those remaining in the United States supporting combat operations in theater.<sup>27</sup>

**Operation and Maintenance (\$16.7 B)**

These funds are for a range of costs for the Military Services and defense agencies, including operations, fuel, spare parts, maintenance, communications, intelligence support, transportation costs, retrograde, reset, and civilian personnel costs in support of OFS. This category also includes Coalition Support Funds, which reimburse key cooperating nations for support to U.S. military operations. Additionally, this category includes the Afghan Security Forces Fund.

Figure 3.

**Afghan Security Forces Fund**

• **Afghan Security Forces Fund (\$4.8 B)**

This fund is for the procurement, sustainment, operations, and training required to support the Afghan security forces. The request includes funds for the Afghan National Army and Afghan National Police. Additionally, this fund supports the Afghan Air Force’s increase in pilots, aircrew, and the introduction of U.S.-manufactured aircraft. Finally, this fund supports the growth of the Afghan Special Security Forces.<sup>28</sup>

**Procurement (\$1.0 B)**

These funds are for the procurement of unmanned aerial systems (UAS), engineering equipment, vehicles, counter-improvised explosive device (counter-IED) systems, and other equipment. This request also funds the procurement of bombs, missiles, and other munitions.

**Research, Development, Test, and Evaluation (RDT&E) (\$0.1 B)**

These funds are for the research, development, test, and evaluation of programs, including UAS and counter-IED systems.

**DOS AND USAID FUNDING FOR AFGHANISTAN**

The DoS and USAID budget request for FY 2020 contained \$1.4 billion for programs in Afghanistan. The request focused on diplomatic engagement to support the Afghan government’s pursuit of broad political, economic, and security reforms to stabilize the environment and provide a foundation for peace. U.S. diplomatic efforts also focus on keeping international donors and regional stakeholders engaged in Afghanistan’s future.<sup>29</sup>

**Worldwide Security Protection and Ongoing Operations (\$724.6 M)**

These funds support ongoing Diplomatic Security programs in Afghanistan. The programs include international cooperative administrative support services costs, diplomatic couriers,

static/local guards, Embassy Air overseas support costs, premium pay, temporary duty-related costs, armored vehicle replacements, training, and physical and technical security.<sup>30</sup>

**Diplomatic and Consular Programs (\$103.2 M)**

These funds support civilians engaged in capacity building, stabilization, and development deemed essential to U.S. strategy in Afghanistan.<sup>31</sup>

**Economic Support and Development Fund (\$400.0 M)**

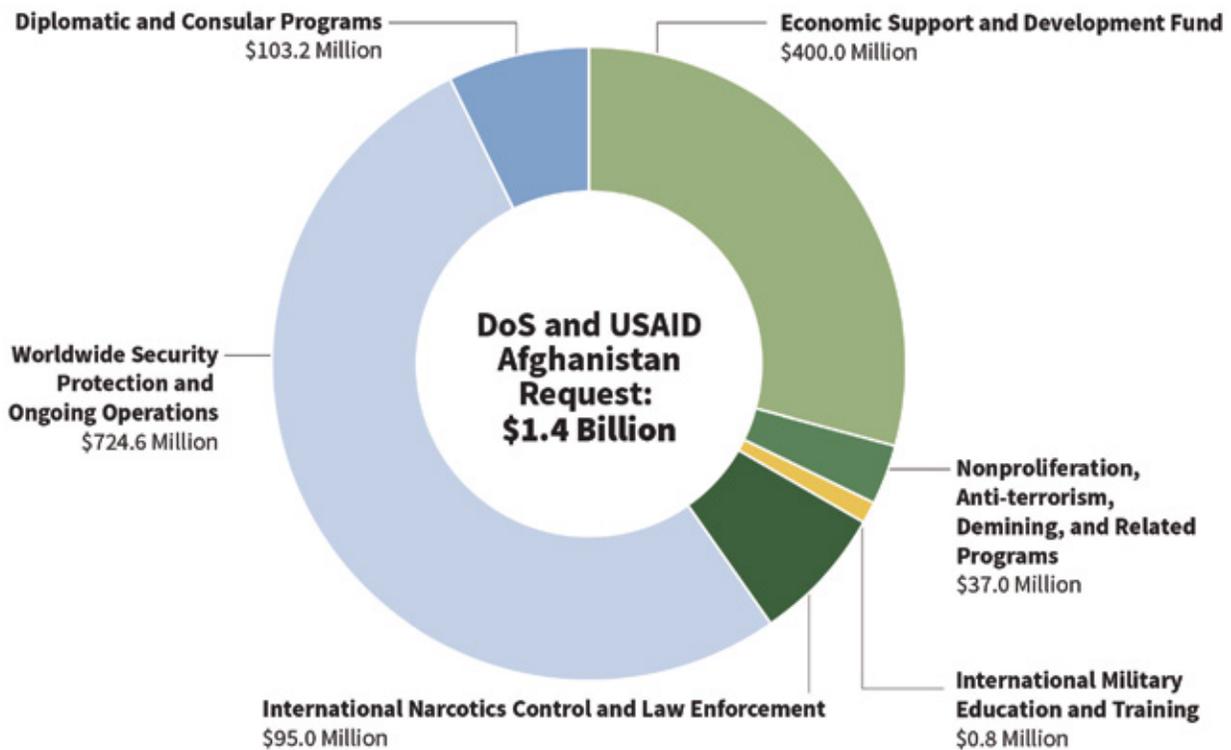

These funds support programs essential to implementing the South Asia strategy. The programs are focused on accelerating private sector-driven and export-led economic growth, including in agriculture; building on gains in health, education, and women’s empowerment; and increasing the government’s accountability to its citizens.<sup>32</sup>

**Nonproliferation, Anti-Terrorism, Demining, and Related Programs (\$37.0 M)**

These funds are used to build Afghan civilian security capacity in counterterrorism and crisis response. Additional funds will provide for enhanced border security through targeted regulatory training; licensing and enforcement training; regional cross-border collaboration; and equipment donations and repair. These funds also support humanitarian demining, conventional weapons and munitions destruction, and mine-risk education and related activities.<sup>33</sup>

**International Military Education and Training (\$0.8 M)**

These funds support programs designed to provide security skills and expertise and to instill basic democratic values—including the protection of internationally recognized human rights—in the Afghan security forces. The programs support training of officers and non-commissioned officers from within the Afghan Ministry of Defense and National Directorate of Security through courses offered by the DoD.<sup>34</sup>

**International Narcotics Control and Law Enforcement (\$95.0 M)**

These funds support counternarcotics programming to improve the functioning of Afghan judicial systems and law enforcement units working to address the illegal trade of narcotics and associated money laundering and corruption.<sup>35</sup>

**UN Assistance Mission in Afghanistan**

The United States shares the cost of the UN Assistance Mission in Afghanistan, which uses financial contributions and the expertise of member nations to combat violent extremism; promote human rights; and forge solutions to the global threats related to armed conflict, hunger, poverty, and disease.<sup>36</sup>

**Additional Humanitarian Assistance Activities**

The DoS and USAID request funds to address worldwide crises affecting U.S. national security interests. For FY 2020, the DoS and USAID requested \$6.0 billion for a new International Humanitarian Assistance Account and \$365.1 million for Migration and Refugee Assistance for use worldwide. This request eliminates funding for the previous International Disaster Assistance and Public Law 480 Title II/Food for Peace program in favor of the new International Disaster Assistance account.<sup>37</sup>

## STRATEGIC OVERSIGHT AREAS

This oversight plan organizes Afghanistan-related oversight projects into three strategic oversight areas (SOAs). The oversight projects associated with the SOAs include both OFS-related activities and non-OFS U.S. Government programs and activities in Afghanistan. The SOAs are:

1. Military Operations and Security Cooperation
2. Governance, Humanitarian Assistance, Development, and Reconstruction
3. Support to Mission

Each of the following SOA discussions presents examples of oversight projects planned or ongoing for FY 2020. For a complete list of planned FY 2020 Afghanistan-related oversight projects, refer to the project tables at the end of this plan.

### SOA 1. MILITARY OPERATIONS AND SECURITY COOPERATION

During his confirmation hearing in December 2018, the Commander of U.S. Central Command (USCENTCOM), General Kenneth McKenzie, stated that the primary U.S. mission in Afghanistan is “to prevent terrorist groups from planning and executing attacks against the U.S. homeland, U.S. citizens, and our interests and allies abroad.”<sup>38</sup> The DoD’s counterterrorism mission against al Qaeda, ISIS-K, and their associates in Afghanistan supports this mission.<sup>39</sup>

The DoD mission to train, advise, and assist the Afghan security forces complements the counterterrorism mission. In February 2019, a former USCENTCOM commander, General Joseph Votel, stated that the DoD had applied a “by, with, and through” approach to working with the Afghan security forces.<sup>40</sup> The DoD has undertaken several initiatives as part of this approach. For example, the DoD has employed Security Force Assistance Brigades to provide tailored support to the Afghan security forces to build partner capacity.<sup>41</sup> According to the DoD, approximately 14,000 U.S. troops were serving in Afghanistan to accomplish the counterterrorism and NATO train, advise, and assist missions, as of July 2019.<sup>42</sup>

The DoD supports the Afghan security forces, including the Afghan National Army, Afghan National Police, Afghan Air Force, and Afghan Special Security Forces. In August 2019, the DoD OIG issued a report on the air-ground integration of the Afghan Air Force and Afghan National Army. Specifically, the DoD OIG determined that the U.S. and Coalition efforts to train, advise, assist, and equip Afghan tactical air coordinators, air liaison officers, and air targeting officers did not fully meet operational objectives to provide air-ground integration to Afghan ground forces with minimal casualties and fratricide.<sup>43</sup>

To build the Afghan security forces’ capacity, the DoD requested \$4.8 billion for the Afghan Security Forces Fund (ASFF) for FY 2020. One of the largest portions of this funding (14 percent of total ASFF) pays Afghan security forces’ salaries.<sup>44</sup> In August 2019, the DoD OIG issued an audit report on the implementation of the Afghan Personnel and Pay System used to process salary payments. The DoD OIG determined that the DoD had not validated the accuracy of the Afghan Ministries of Defense and Interior’s personnel records in the Afghan Personnel and Pay System.<sup>45</sup>

According to the DoD, the Afghan Ministries of Defense and Interior struggle with consistent and accurate equipment reporting.<sup>46</sup> In 2010, the DoD provided the Afghan Ministries of Defense and Interior with an internet-based property accountability system called the Core Inventory Management System (Core-IMS), which is designed to enhance transparency and accountability for U.S.-funded equipment.<sup>47</sup> The DoD OIG is auditing the DoD's implementation of Core-IMS to determine whether the system improved accountability for weapons and vehicles.

### **Selected FY 2020 Oversight Projects**

The DoD OIG is currently auditing the National Maintenance Strategy contract that provides for ground equipment maintenance and training of Afghan personnel and mandates the gradual transfer of maintenance responsibilities over time.<sup>48</sup> The objective of the audit is to determine whether the DoD effectively developed the requirements for the contract. As a follow-up to the current audit, in FY 2020, the DoD OIG plans to audit the contract to determine whether the contractor provided the required training, maintenance, and supply chain management support services to the Afghan security forces.

The Afghan National Army–Territorial Force (ANA-TF) is a new component of the Afghan security forces. According to the DoD, the ANA-TF conducts operations to secure local populations, create and maintain space and time for the Afghan National Police to reorient from its prior focus on threats to one of traditional police work, and conducts limited offensive operations in conjunction with strike forces.<sup>49</sup> In FY 2020, SIGAR plans to audit the ANA-TF to determine whether U.S. Forces-Afghanistan (USFOR-A) evaluated and implemented the program in accordance with guidance; the ANA-TF is being recruited, mobilized, and performing according to Afghan government requirements; and the ANA-TF program met cost expectations.

Additionally, the Government Accountability Office is auditing the advise and assist mission in Afghanistan to determine the extent to which the DoD has defined advisor team missions and objectives; the extent to which advisors were trained for their specific missions in Afghanistan; the ability of the Army's Security Force Assistance Brigade to meet current and future advisor requirements in Afghanistan; and what adjustments, if any, the DoD is making to the manning, training, and equipping of the second and third Security Force Assistance Brigades.

## **SOA 2. GOVERNANCE, HUMANITARIAN ASSISTANCE, DEVELOPMENT, AND RECONSTRUCTION**

According to the DoS, the U.S. Government supports a range of assistance programs in Afghanistan intended to mitigate social and economic conditions that have created an environment where terrorists and violent extremist organizations could thrive. The U.S. Government's 2018 Integrated Country Strategy for Afghanistan lists four goals: 1) achieving peace and stability; 2) helping the Afghan government become more stable, democratic, and accountable; 3) preventing the recurrence of terrorist threats, while also strengthening law enforcement; and 4) supporting economic development based on private sector-led exports and job creation, with concurrent social gains in education, health, and women's empowerment.

To further these goals, USAID and the DoS implement programs that seek to support economic development, civil society, and good governance. For example, USAID supports the Afghan Independent Election Commission in conducting Afghanistan's elections. According to the DoS Bureau of International Narcotics and Law Enforcement Affairs, the DoS supports governance and rule of law with its assistance to the Anti-Corruption Justice Center, a special court designed to conduct high-level corruption trials.<sup>50</sup>

According to USAID, over the past decade the U.S. Government has invested more than \$100 million in the American University of Afghanistan to support higher education in Afghanistan. In July 2018, USAID OIG, in a joint effort with SIGAR, identified widespread mismanagement at the university, including failure to comply with accounting, timekeeping, and recordkeeping standards as well as issues surrounding key personnel, conflicts of interest, and governance of its board.<sup>51</sup> In March 2019, USAID executed a comprehensive administrative agreement with the university in which the university acknowledged the need to make improvements in the areas identified by SIGAR and USAID OIG, and agreed to stringent oversight measures related to its financial management, compliance with award terms, and governance structure.<sup>52</sup>

In addition to activities supporting economic development, civil society, and governance, the U.S. Government provides humanitarian assistance to Afghans in need due to conflict and natural disasters. The DoS and USAID provide health and basic livelihood support to internally displaced persons, returning refugees, other conflict-affected populations, and populations affected by drought or other natural disasters. According to the United Nations, 6.3 million Afghans are in need of humanitarian assistance as of December 2018. To help meet this need, the United States has provided approximately \$204 million in assistance in FY 2019, as of August 2019.<sup>53</sup>

**An advisor from the 2nd Security Force Assistance Brigade provides guidance during their 2019 deployment to Afghanistan. (DoD photo)**

USAID uses a multi-tiered monitoring approach to collect and verify information on agency projects in Afghanistan.<sup>54</sup> USAID OIG is conducting a follow-up audit of the USAID Multi-Tiered Monitoring Strategy for Afghanistan to determine the extent to which the agency has used this strategy to manage programs and serve as the basis for informed decision making by USAID leadership.

The United States and the NATO Resolute Support mission continue to develop policies and refine processes to address the challenge of integrating women into the Afghan security forces.<sup>55</sup> In July 2019, SIGAR issued a report on the Afghan National Police women's compound at the Jalalabad Regional Training Center and determined that the construction of the compound generally met contract requirements. However, fire-related deficiencies posed safety hazards, and the facility has rarely been used.<sup>56</sup>

### **Selected FY 2020 Oversight Projects**

In 2011, the U.S. Government instituted the National Action Plan on Women, Peace, and Security to empower women as equal partners in preventing conflict and building peace in countries threatened and affected by war, violence, and insecurity.<sup>57</sup> In FY 2020, the DoS OIG plans to audit the DoS implementation of this plan.

Considering the high level of reported corruption in Afghanistan and the importance of risk management and mitigation coupled with plans to drawdown staff and programming, USAID OIG plans to audit the USAID's risk management process and project prioritization in Afghanistan. Additionally, USAID OIG plans to audit USAID's compliance with the Paul Simon Water for the World Act of 2014. The objective of the audit is to assess whether USAID's selection of high-priority countries complied with the requirements and intent of the act.

In FY 2020, SIGAR plans to conduct multiple inspections of infrastructure projects, including the electrical infrastructure at the ANA American Enterprise Institute. The objective of the inspection is to determine whether the construction was completed in accordance with contract requirements and technical specifications, and the facility is being used and properly maintained.

## **SOA 3. SUPPORT TO MISSION**

This SOA includes the DoD, DoS, and USAID OIGs' oversight of U.S. Government administrative, logistical, and management efforts that enable military operations and non-military programs. For example, U.S. warfighters, diplomats, and aid workers, who live and work on installations in Afghanistan, require support in facilities, logistics, and other sustainment. The U.S. Government generally contracts with the private sector for these requirements, and the Lead IG agencies have found these contracts are vulnerable to fraud, waste, and abuse.<sup>58</sup> Moreover, the DoD and DoS OIGs continue to inspect and audit U.S. military bases and Embassy Kabul to ensure that these installations meet security requirements and occupational safety and health standards.

In April 2019, the DoD OIG issued an audit report on whether the Army provided adequate oversight of the National Afghan Trucking Services (NAT 3.0) contracts. These contracts, valued at \$41.3 million, provide for the ground transportation of U.S. supplies throughout Afghanistan. The DoD OIG determined that the Army does not have assurance that the NAT 3.0 contractors' services complied with contract requirements for the delivery of supplies.<sup>59</sup>

The DoS OIG has continued to focus on oversight of major construction projects at Embassy Kabul. In July 2019, the DoS OIG reported on its evaluation of the Bureau of Diplomatic Security's abandoned efforts to construct a new facility and relocate its Kabul Embassy Security Force from Camp Sullivan to a more secure location at Camp Eggers, near the presidential palace in Kabul. Camp Eggers was nearly two miles closer to the embassy than Camp Sullivan, and the move would eliminate the need for daily high-risk convoy movements. In January 2017, nearly 10 months after the originally projected completion date, the DoS terminated the project with only about 10 percent of the construction completed. The DoS OIG's evaluation concluded that the expenditure of \$103.2 million had resulted in no discernible benefit to the DoS. The Office of the Undersecretary for Management accepted one of three DoS OIG recommendations and agreed to "consult with the necessary parties to determine whether the decision to expend the amount cited was necessary or reasonable."<sup>60</sup>

In June 2019, the DoS OIG issued a management assistance report to alert the DoS of records management weaknesses that the DoS OIG had discovered during its ongoing audit of security-related construction projects at Embassy Kabul.<sup>61</sup> The DoS OIG determined that important commissioning documentation for newly constructed buildings was not being properly created, maintained, or preserved by the Bureau of Overseas Buildings Operations. The DoS OIG's six recommendations were designed to improve procedures Department-wide.<sup>62</sup>

Another management assistance report, issued in April 2019, reported DoS OIG's discovery that in 2017 and 2018, without consulting the Office of Procurement Executive, Embassy Kabul had improperly renewed an exemption from competitive bidding rules, known as a "Justification for Other Than Full and Open Competition," limiting competition for construction contracts.<sup>63</sup> Following the DoS OIG's report, the Office of Procurement Executive issued a cease and desist order to Embassy Kabul, ending the use of the waiver.<sup>64</sup>

In the past, USAID OIG has reported on persistent weaknesses in planning, monitoring, and evaluation of USAID contracts and grants, especially in non-permissive environments such as Afghanistan. Given USAID's reliance on contracts and grants to fund organizations to implement its programs worldwide—approximately \$17.6 billion annually—effective awards management is key to ensuring that implementers achieve program objectives. USAID OIG is conducting an audit of USAID's award management process. The objectives of the audit are to determine the extent to which implementers delivered award results as initially intended and assess USAID's award management process.

Additionally, USAID OIG and SIGAR issue financial audit reports of USAID contract and grant awards for Afghanistan associated with locally incurred costs. These audits are conducted by contracted, independently certified public accounting firms.

## **Selected FY 2020 Oversight Projects**

The DoD awards contracts to private helicopter transportation companies to provide transportation of personnel and cargo between U.S. bases. The DoD OIG plans to audit the Afghanistan Air Theater Movement contracts, valued at \$526 million over 5 years, to determine whether U.S. Transportation Command performed adequate oversight of air theater movement services contracts in Afghanistan to ensure the contractor's performance complied with contract requirements, such as aircraft provision, operational readiness, and reporting requirements.

In FY 2020, the DoS OIG plans to continue its focus on oversight of major construction projects at Embassy Kabul with an audit to determine whether the Bureau of Overseas Buildings Operations and other DoS stakeholders managed the construction of physical security features at U.S. Embassy Kabul's newly constructed facilities in accordance with industry standards and contract requirements.

USAID OIG is planning an audit of USAID's award terminations. Almost all of USAID projects are implemented through awards, including in Afghanistan, and this audit seeks to identify how often USAID is cancelling awards for convenience rather than default. The audit will assess the prevalence of cancellations, cost implications, and identify opportunities to strengthen the accountability of USAID and its implementers.

## CRIMINAL INVESTIGATIONS

In addition to the Fraud and Corruption Investigative Working Group, the Lead IG agencies coordinate investigations in Afghanistan with the Investigations Directorate of SIGAR through the International Contract and Corruption Task Force. SIGAR criminal investigators are stationed in Afghanistan and the United States, and their investigations involve both OFS and other operations in Afghanistan.

### Outreach Efforts

Each of the Lead IG investigative components and the military investigative organizations conduct fraud awareness briefings to educate individuals on how to identify indicators of fraud in Afghanistan. These briefings promote fraud awareness, help develop relationships, and uncover information about potential fraud and corruption in U.S. Government programs. Additionally, these agencies and SIGAR use social media to educate the public about their missions to combat corruption, fraud, waste, and abuse in Afghanistan.

## HOTLINE ACTIVITY

Similar to the Lead IG agencies, SIGAR maintains its own hotline to receive complaints and contacts specific to its own agency. Lead IG agencies and SIGAR hotline representatives follow their agency protocols to process any complaints and refer them to the responsible organization for review, investigation, or informational purposes.

## FOREWORD

We are pleased to submit our second annual plan describing oversight activities for Operation Pacific Eagle–Philippines (OPE-P).

OPE-P’s mission is to support the Philippine government in its efforts to counter ISIS-East Asia (formerly known as ISIS-Philippines) and affiliated violent extremist organizations. Separate from OPE-P military activities, the Department of State (DoS) and the U.S. Agency for International Development (USAID) support the Philippine government with humanitarian assistance and programs to counter violent extremism.

The Inspectors General for the Department of Defense, the DoS, and USAID are required by the Inspector General Act of 1978 to conduct comprehensive independent oversight of programs and operations in support of overseas contingency operations. Additionally, the Inspectors General for the DoS and USAID have jurisdiction over department or agency programs in the Philippines that are separate from, but related to, the contingency operation.

In addition to oversight work and investigations related to OPE-P, the Lead IG agencies and other members of the Overseas Contingency Operations Joint Planning Group coordinate on relevant oversight activities. The other members include the U.S. Army Audit Agency; the Naval Audit Service; the U.S. Air Force Audit Agency; the Offices of Inspector General of the Departments of Homeland Security, Justice, Energy, and the Treasury; and the Government Accountability Office.

This oversight plan for OPE-P is effective as of October 1, 2019, and is approved upon the signature of all parties below.

# ■ FY 2020 JOINT STRATEGIC OVERSIGHT PLAN FOR OPERATION PACIFIC EAGLE-PHILIPPINES

This oversight plan describes the Lead Inspector General (Lead IG) and partner agency oversight of U.S. Government activities for Operation Pacific Eagle-Philippines (OPE-P). These activities include those related to OPE-P's security mission as well as those related to humanitarian assistance and support to mission.

Since September 2017, U.S. counterterrorism activity in the Philippines has been authorized under the OPE-P Execute Order. In May 2019, the then Acting Secretary of Defense approved a modification to the order, which made several changes, including the removal of the “contingency operation” designation for OPE-P.<sup>1</sup> Additionally, the modification to the order updated several naming conventions, including changing references from ISIS-Philippines to ISIS-East Asia.<sup>2</sup>

Section 8L(e) of the IG Act of 1978 states that the Lead IG's requirement and authorities with respect to an OCO cease “at the end of the first fiscal year...in which the total amount appropriated for the [OCO] is less than [\$100 million].” Because appropriations for OPE-P in FY 2019 exceeded this appropriations threshold, Lead IG reporting and oversight requirements will continue at least through the end of FY 2020.

## ISIS IN THE PHILIPPINES

According to the Commander of U.S. Indo-Pacific Command (USINDOPACOM), terrorist activities committed by ISIS-East Asia in the Philippines have included kidnapping for ransom, conducting small arms attacks, and detonating improvised explosive devices against military and civilian targets.<sup>3</sup> The DoD reported to the DoD OIG that ISIS-East Asia consisted of approximately 550 fighters in the southern Philippines, as of July 2019.<sup>4</sup> According to USINDOPACOM, the Armed Forces of the Philippines (AFP), with U.S. support, has sought to exert continued pressure on ISIS-East Asia through arrests, air strikes, and other offensive operations to counter the ISIS-East Asia threat.<sup>5</sup>

According to the United Nations, approximately 66,000 people remain displaced from Marawi two years after conflict ended in that city in September 2017. Due to the devastation of the city’s infrastructure, these individuals will likely be unable to return home for several years.<sup>6</sup> The United Nations also reported that more than 50,000 additional residents were temporarily displaced by continued fighting between the AFP and ISIS-East Asia in 2019, though most of these residents were able to return home after several months. According to the United Nations, these internally displaced persons face life-threatening conditions without access to clean water, food, and shelter.<sup>7</sup>

## U.S. PRESENCE IN THE PHILIPPINES

According to the DoD, USINDOPACOM conducted counterterrorism operations in the Philippines under Operation Enduring Freedom–Philippines from 2002 until that operation concluded in 2015. In September 2017, the Secretary of Defense designated OPE-P as a contingency operation. OPE-P is a counterterrorism campaign conducted by USINDOPACOM, in coordination with other U.S. Government agencies, to support the Philippine government and military in their efforts to counter ISIS affiliates and other priority violent extremist organizations in the Philippines.<sup>8</sup>

USAID supports programs in the Philippines that seek to rebuild communities and counter violent extremism. USAID reported to the USAID OIG that the largest of these activities, the \$25 million Marawi Response Program, provided grants for internally displaced persons and businesses, along with workforce and entrepreneur training. USAID also reported to USAID OIG that its programs designed to counter violent extremism supported town halls related to the Bangsamoro peace process, interfaith dialogue between Muslims and Christians, efforts to prevent school dropouts, and conflict resolution skills for religious and youth leaders.<sup>9</sup>

## U.S. FUNDING FOR PROGRAMS IN THE PHILIPPINES

### DOD FUNDING FOR OPERATION PACIFIC EAGLE–PHILIPPINES

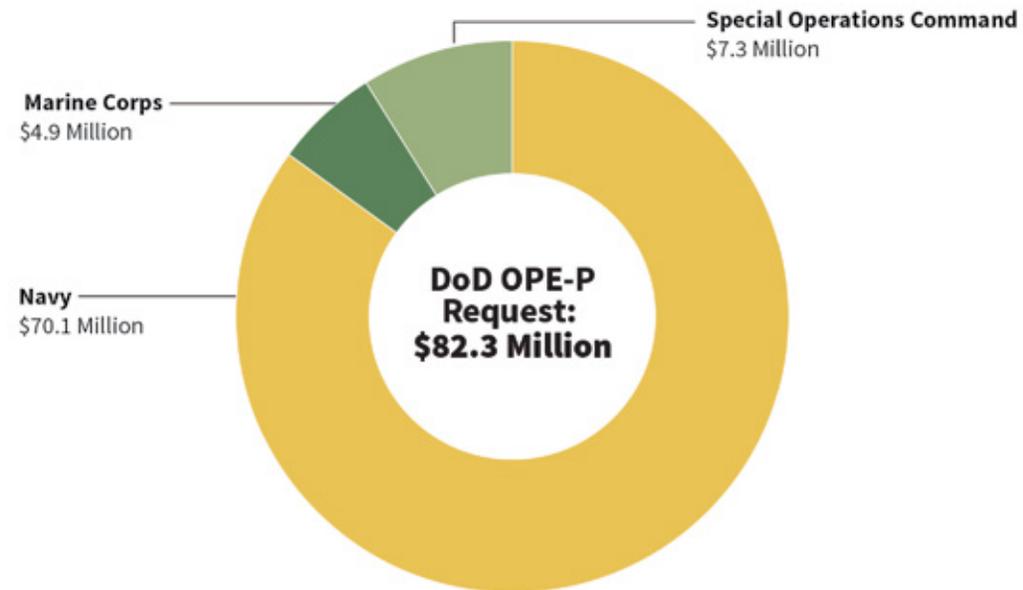

For FY 2020, the DoD requested \$82.3 million to support OPE-P. This request included funding for the Navy, Marine Corps, and U.S. Special Operations Command.<sup>10</sup>

The Navy requested \$70.1 million for costs associated with OPE-P in FY 2020. The two largest portions of the Navy request were \$42.6 million for contracted intelligence, surveillance, and reconnaissance support to Philippine counterterrorism operations and \$24.8 million for contracted casualty evacuation and personnel recovery services for U.S. military personnel in the Philippines.<sup>11</sup>

Additionally, the Marine Corps requested \$4.9 million for base operating support, and U.S. Special Operations Command requested \$7.3 million for various operational costs.<sup>12</sup>

Figure 1.

### DOS AND USAID FUNDING FOR THE PHILIPPINES

The DoS and USAID budget request for FY 2020 included \$159.3 million for programs designed to improve security and regional stability; counter violent extremism; combat human trafficking; enhance citizen-responsive governance; promote community resilience and growth, and deny opportunities for the radicalization of youth. In addition, the DoS and USAID requested funding for U.S. Embassy Manila’s diplomatic programs, support under the Worldwide Security Protection program, and the Embassy Security, Construction, and Maintenance program.<sup>13</sup>

**Economic Support and Development Fund (\$80.8 M)**

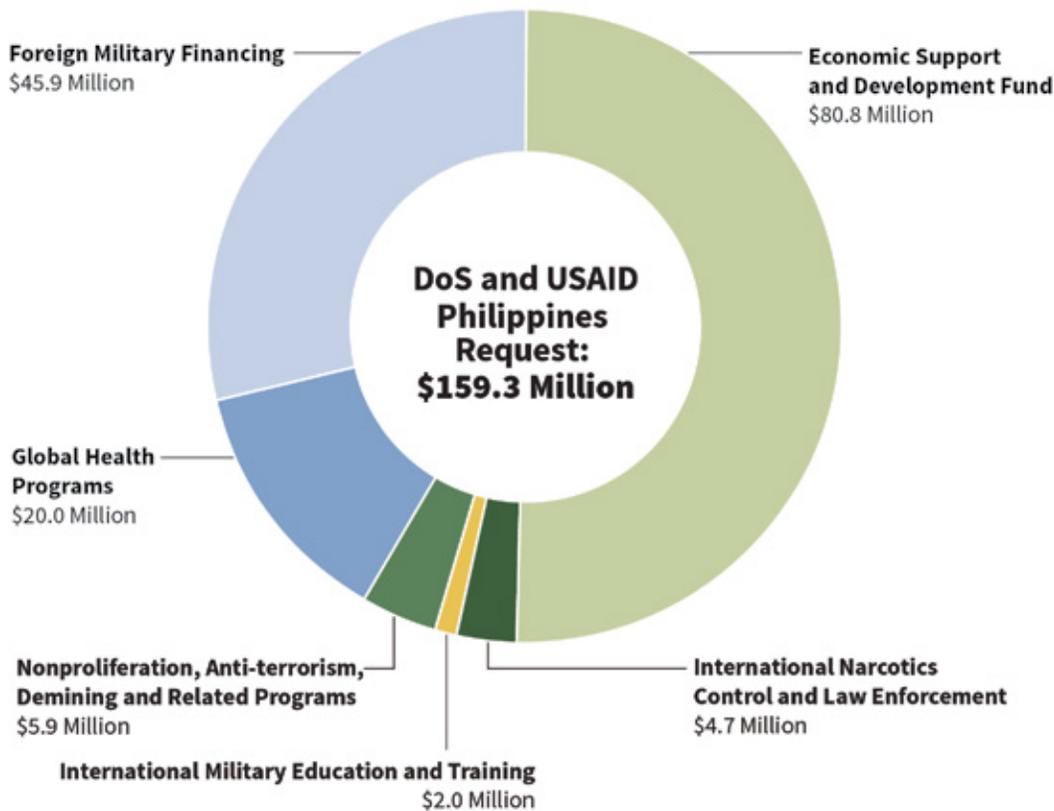

These funds are provided to address the drivers of violent extremism in the Philippines, including community grievances, poor governance, corruption, poverty, and weak institutions. U.S. assistance programs are designed to expand opportunities for at-risk youth and internally displaced persons in areas threatened by conflict and targeted by violent extremist organizations for recruitment.<sup>14</sup>

**International Narcotics Control and Law Enforcement (\$4.7 M)**

These funds are used to bolster justice sector capacity; improve maritime law enforcement; develop the Philippine Coast Guard; combat illegal, unreported, and unregulated fishing; and reduce demand for illegal drugs, a key, new area of bilateral collaboration. These programs are intended to strengthen Philippine rule of law institutions to ensure citizen security and access to justice and to disrupt transnational criminal networks.<sup>15</sup>

**FY 2020 DoS, Foreign Operations, and Related Programs-Philippines Budget Request (includes USAID)**

Source: DoS, "FY 2020 Congressional Budget Justification-Foreign Operations, Appendix 2," 3/11/2019.

**International Military Education and Training (\$2.0 M)**

These funds support programs that familiarize Philippine defense establishment personnel with U.S. military training and doctrine. The programs deliver professional military education and technical training and seek to improve Philippine capability through courses on maritime security, information technology, military intelligence, counterterrorism, and air defense.<sup>16</sup>

**Nonproliferation, Antiterrorism, Demining, and Related Programs (\$5.9 M)**

These funds support counterterrorism training and related equipment grants to enhance the skills of Philippine security forces, including developing the investigative capabilities of the Philippine National Police and regional civilian security forces, especially on Mindanao. These funds also support the Export Control and Related Border Security Program in support of the enforcement of the Philippine Strategic Trade Management Act to detect, interdict, investigate, and prosecute illicit transfers of weapons of mass destruction and conventional arms.<sup>17</sup>

**Global Health Programs (\$20.0 M)**

These funds are used in the Philippines to reduce child and maternal deaths, control the HIV-AIDS epidemic, and combat infectious diseases.<sup>18</sup>

**Foreign Military Financing (\$45.9 M)**

These funds provide U.S. military equipment and services to assist the AFP in their territorial-defense mission and its associated long-term goals to modernize the AFP air and sea forces. Additionally, these funds support the AFP's ongoing operations against ISIS-East Asia and other extremist organizations.<sup>19</sup>

**Additional Humanitarian Assistance Activities**

The DoS and USAID request funds to address worldwide crises affecting U.S. national security interests. For FY 2020, the DoS and USAID requested \$6.0 billion for a new International Humanitarian Assistance Account and \$365.1 million for Migration and Refugee Assistance for use worldwide. This request eliminates funding for the previous International Disaster Assistance and Public Law 480 Title II/Food for Peace program in favor of the new account.<sup>20</sup>

## STRATEGIC OVERSIGHT AREAS

This oversight plan organizes OPE-P related oversight projects into three Strategic Oversight Areas (SOAs):

1. Military Operations and Security Cooperation
2. Governance, Humanitarian Assistance, and Development
3. Support to Mission

Each of the following SOA discussions presents examples of oversight projects planned for FY 2020. For a complete list of planned and ongoing FY 2020 OPE-P oversight projects, refer to the project tables at the end of this plan.

## SOA 1. MILITARY OPERATIONS AND SECURITY COOPERATION

The USINDOPACOM Posture Statement noted that the DoD remains committed to helping the Philippine government counter violent extremist organizations.<sup>21</sup> According to the DoD, OPE-P supports the AFP’s efforts to counter violent extremist organizations in the southern Philippines.<sup>22</sup> The DoD reported to the DoD OIG that this includes providing the AFP with intelligence, surveillance, and reconnaissance support and conducting advise and assist operations, such as supporting mission planning.<sup>23</sup> The DoD also reported that it maintains approximately 200 military personnel in the Philippines to accomplish the OPE-P mission.<sup>24</sup>

These DoD-supported counterterrorism operations aim to reduce instability in the southern Philippines and across the Southeast Asia region. According to USINDOPACOM, counterterrorism operations in the southern Philippines help to ensure that area does not become a safe haven for regional terrorists.<sup>25</sup> Additionally, these operations seek to prevent people across the region from becoming inspired by ISIS terrorism.<sup>26</sup>

In 2019, the DoD OIG issued an evaluation report that determined that the DoD’s advise and assist efforts helped the AFP counter violent extremists in Marawi. Specifically, the DoD identified the AFP’s critical capability gaps and advised and assisted the AFP in overcoming these gaps. The DoD OIG also found that the DoD and other U.S. Government officials in the Philippines complied with requirements to vet individuals and units for gross human rights violations, in accordance with the Leahy Law.<sup>27</sup>

**Soldiers from the Armed Forces of the Philippines and U.S. Special Forces conduct security training during an airfield seizure exercise on Lubang Island, Philippines. (U.S. Army photo)**

### **Selected FY 2020 Oversight Projects**

To help the Philippine government counter ISIS-East Asia and its affiliated groups, the DoS provides counterterrorism-related training to Philippine police and regional civilian security forces, particularly on Mindanao. For FY 2020, the DoS requested \$5.5 million through the Anti-Terrorism Assistance program for this effort.<sup>28</sup> In FY 2020, the DoS OIG plans to conduct a compliance follow-up review of DoS efforts to measure, evaluate, and sustain its Anti-Terrorism Assistance programs in the Philippines and other countries. The objectives of this follow-up review are to determine whether the DoS has developed specific, measurable, and outcome-oriented objectives for the program; is effectively monitoring and evaluating program participants' progress toward attaining program goals; and has established program sustainment goals.<sup>29</sup>

The DoD OIG plans to evaluate counterintelligence mission programs in the USINDOPACOM region. The objective is to identify counterintelligence mission programs available in the region and evaluate USINDOPACOM's ability to implement the available resources.

## **SOA 2. GOVERNANCE, HUMANITARIAN ASSISTANCE, AND DEVELOPMENT**

The U.S. Government provides a range of assistance to the Philippine government and to those affected by conflict in that nation. According to USAID, the purpose of this assistance is to contribute life-saving aid, build resiliency in populations, counter violent extremism, and contribute to stability.<sup>30</sup>

Since the 2017 ISIS-East Asia siege of Marawi, the U.S. Government, through USAID, has committed approximately \$64 million for humanitarian and recovery work in and around the city.<sup>31</sup> This assistance has included installing water and sanitation facilities and distributing shelter materials to more than 33,000 internally displaced persons. USAID has also provided supplies to health clinics, established woman- and child-friendly spaces, and offered supplementary food to children, pregnant women, and nursing mothers. Furthermore, USAID has helped with cash grants to restart businesses, support skills training for youths, and install electricity to enable basic services.<sup>32</sup>

USAID OIG maintains a regional office in Manila to conduct oversight of USAID activities throughout Asia, including the Philippines. In March 2019, USAID OIG issued an audit report of USAID's local solutions initiative and determined that USAID lacked measures to determine whether the initiative enhanced local capacity, host country ownership, and sustainability. Furthermore, USAID OIG found that while USAID had developed risk mitigation procedures for local implementers, these procedures were not consistently followed.<sup>33</sup> Additionally, USAID OIG investigators have provided fraud awareness briefings to USAID Philippines staff and implementers, including guidance on how to recognize and report fraud in USAID activities.

### **Selected FY 2020 Oversight Projects**

The DoS OIG is currently auditing DoS oversight of foreign assistance programs in the Philippines. From FY 2015 through FY 2018, the DoS managed approximately \$41 million in foreign assistance funding for the Philippines. This funding supported a variety of efforts, including programs to improve the Philippine government's crisis response capabilities, programs

to enhance protection of at-risk children vulnerable to exploitation, and a U.S. Department of Justice resident legal advisor to assist the Philippine government in legislative and institutional reforms to strengthen its anti-money laundering efforts. The objective of the audit is to determine whether DoS foreign assistance programs executed in the Philippines were monitored and evaluated in accordance with Federal and departmental requirements.

In FY 2020, USAID OIG plans to audit USAID's response to the Indo-Pacific Strategy. The U.S. Government's strategy is designed to advance a "free and open Indo-Pacific" region through a focus on stronger security, economies, and governance. This audit is still in the planning stages, but preliminary objectives are to assess the extent that USAID has adapted programming to reflect the strategy and to determine what process was used to adjust programming and resources. This audit may also review USAID's role in the interagency and the relationship of the strategy with USAID's efforts to message, program, and partner to challenge the harmful practices of other countries' development models.

### SOA 3. SUPPORT TO MISSION

U.S. warfighters, diplomats, and aid workers in the Philippines require support for facilities, logistics, and other sustainment. While the Constitution of the Philippines prohibits foreign military bases, the 2014 Enhanced Defense Cooperation Agreement permits the U.S. Government to build and maintain facilities within Philippine military bases to increase capacity and improve interoperability for combined U.S. and Philippine operations.<sup>34</sup> The DoD and DoS OIGs audit logistics and sustainment contracts, as well as inspect facilities where U.S. personnel are located to ensure that these facilities meet security requirements and occupational safety and health standards.

Additionally, this SOA includes oversight of the administration of U.S. Government programs. For example, in November 2018, the DoD OIG issued an audit report regarding logistical support that the DoD provided to the Philippines. The audit determined that the DoD's Joint Staff Directorate for Logistics did not have visibility of the logistical support, such as military equipment, weapons, and ammunition, sold to the Philippines. As a result, the Directorate did not have assurance that these transactions, valued at \$13 million, were accurate and reimbursed.<sup>35</sup>

Each fiscal year, USAID OIG provides oversight of financial audits conducted by the Defense Contract Audit Agency and independent public accounting firms on their behalf, ensuring the audits are conducted in accordance with appropriate quality standards. USAID OIG also reviews similar audit reports of foreign-based contractors and grantees and performs quality assurance reviews of selected independent audit firms. These audits cover programs around the world, including the Philippines.

### Selected FY 2020 Oversight Project

In FY 2020, USAID OIG plans to conduct an audit of the acquisition of the Development Information System—a portfolio management platform for missions, including the Philippines, to capture program performance data for decision making. USAID began the initiative in late 2014 and estimates the system will cost \$56 million with an estimated cost savings of \$126 million. The objective of the audit is to assess the design of the system and determine whether USAID's information acquisition process complies with Federal regulations and best practices.

## APPENDIX B: Section 8L of the Inspector General Act of 1978

### 8L. Special Provisions Concerning Overseas Contingency Operations

- (a) Additional Responsibilities of Chair of Council of Inspectors General on Integrity and Efficiency.—Upon the commencement or designation of a military operation as an overseas contingency operation that exceeds 60 days, the Chair of the Council of Inspectors General on Integrity and Efficiency (CIGIE) shall, in consultation with the members of the Council, have the additional responsibilities specified in subsection (b) with respect to the Inspectors General specified in subsection (c).
- (b) Specific Responsibilities.—The responsibilities specified in this subsection are the following:
- (1) *In consultation with the Inspectors General specified in subsection (c), to designate a Lead Inspector General in accordance with subsection (d) to discharge the authorities of the Lead Inspector General for the overseas contingency operation concerned as set forth in subsection (d).*
  - (2) *To resolve conflicts of jurisdiction among the Inspectors General specified in subsection (c) on investigations, inspections, and audits with respect to such contingency operation in accordance with subsection (d)(2)(B).*
  - (3) *To assist in identifying for the Lead Inspector General for such contingency operation, Inspectors General and inspector general office personnel available to assist the Lead Inspector General and the other Inspectors General specified in subsection (c) on matters relating to such contingency operation.*
- (c) Inspectors General.—The Inspectors General specified in this subsection are the Inspectors General as follows:
- (1) *The Inspector General for the Department of Defense.*
  - (2) *The Inspector General for the Department of State.*
  - (3) *The Inspector General for the United States Agency for International Development.*

## (d) Lead Inspector General for Overseas Contingency Operations.

- (1) *A Lead Inspector General for an overseas contingency operation shall be designated by the Chair of the Council of Inspectors General on Integrity and Efficiency under subsection (b)(1) not later than 30 days after the commencement or designation of the military operation concerned as an overseas contingency operation that exceeds 60 days. The Lead Inspector General for a contingency operation shall be designated from among the Inspectors General specified in subsection (c).*
- (2) *The Lead Inspector General for an overseas contingency operation shall have the following responsibilities:*
- (A) *To appoint, from among the offices of the other Inspectors General specified in subsection (c), an Inspector General to act as associate Inspector General for the contingency operation who shall act in a coordinating role to assist the Lead Inspector General in the discharge of responsibilities under this subsection.*
- (B) *To develop and carry out, in coordination with the offices of the other Inspectors General specified in subsection (c), a joint strategic plan to conduct comprehensive oversight over all aspects of the contingency operation and to ensure through either joint or individual audits, inspections, and investigations, independent and effective oversight of all programs and operations of the Federal Government in support of the contingency operation.*
- (C) *To review and ascertain the accuracy of information provided by Federal agencies relating to obligations and expenditures, costs of programs and projects, accountability of funds, and the award and execution of major contracts, grants, and agreements in support of the contingency operation.*
- (D)(i) *If none of the Inspectors General specified in subsection (c) has principal jurisdiction over a matter with respect to the contingency operation, to exercise responsibility for discharging oversight responsibilities in accordance with this Act with respect to such matter.*
- (ii) *If more than one of the Inspectors General specified in subsection (c) has jurisdiction over a matter with respect to the contingency operation, to determine principal jurisdiction for discharging oversight responsibilities in accordance with this Act with respect to such matter.*
- (E) *To employ, or authorize the employment by the other Inspectors General specified in subsection (c), on a temporary basis using the authorities in section 3161 of title 5, United States Code, such auditors, investigators, and other personnel as the Lead Inspector General considers appropriate to assist the Lead Inspector General and such other Inspectors General on matters relating to the contingency operation.*
- (F) *To submit to Congress on a bi-annual basis, and to make available on an Internet website available to the public, a report on the activities of the Lead Inspector General and the other Inspectors General specified in subsection (c) with respect to the contingency operation, including-*
- (i) *the status and results of investigations, inspections, and audits and of referrals to the Department of Justice; and*
- (ii) *overall plans for the review of the contingency operation by inspectors general, including plans for investigations, inspections, and audits.*
- (G) *To submit to Congress on a quarterly basis, and to make available on an Internet website available to the public, a report on the contingency operation.*
- (H) *To carry out such other responsibilities relating to the coordination and efficient and effective discharge by the Inspectors General specified in subsection (c) of duties relating to the contingency operation as the Lead Inspector General shall specify.*

(3)(A) *The Lead Inspector General for an overseas contingency operation may employ, or authorize the employment by the other Inspectors General specified in subsection (c) of, annuitants covered by section 9902(g) of title 5, United States Code, for purposes of assisting the Lead Inspector General in discharging responsibilities under this subsection with respect to the contingency operation.*

(B) *The employment of annuitants under this paragraph shall be subject to the provisions of section 9902(g) of title 5, United States Code, as if the Lead Inspector General concerned was the Department of Defense.*

(C) *The period of employment of an annuitant under this paragraph may not exceed three years, except that the period may be extended for up to an additional two years in accordance with the regulations prescribed pursuant to section 3161(b)(2) of title 5, United States Code.*

(4) *The Lead Inspector General for an overseas contingency operation shall discharge the responsibilities for the contingency operation under this subsection in a manner consistent with the authorities and requirements of this Act generally and the authorities and requirements applicable to the Inspectors General specified in subsection (c) under this Act.*

(e) *Sunset for Particular Contingency Operations.-The requirements and authorities of this section with respect to an overseas contingency operation shall cease at the end of the first fiscal year after the commencement or designation of the contingency operation in which the total amount appropriated for the contingency operation is less than \$100,000,000.*

(f) *Construction of Authority.-Nothing in this section shall be construed to limit the ability of the Inspectors General specified in subsection (c) to enter into agreements to conduct joint audits, inspections, or investigations in the exercise of their oversight responsibilities in accordance with this Act with respect to overseas contingency operations.*
