Management Directorate's Management Letter for DHS' FY 2015 Financial Statements Audit

April 11, 2016

Why We Did This Audit

The *Chief Financial Officers Act of 1990* (Public Law 101-576) and the *Department Of Homeland Security Financial Accountability Act* (Public Law 108-330) require us to conduct an annual audit of the Department of Homeland Security's (DHS) consolidated financial statements and internal control over financial reporting.

What We Found

We contracted with the independent public accounting firm KPMG LLP (KPMG) to audit the DHS' fiscal year (FY) 2015 consolidated financial statements and internal control over financial reporting. The resulting management letter contains two observations related to internal control and other operational matters for management's consideration. KPMG noted deficiencies and the need for improvement in the design, implementation, and operation of controls. These deficiencies are not considered significant and were not required to be reported in the *Independent Auditors' Report on DHS' FY 2015 Financial Statements and Internal Control over Financial Reporting*, dated November 13, 2015, included in the DHS FY 2015 *Agency Financial Report*. These observations are intended to improve internal control or result in other operating efficiencies.

Chief Financial Officer
U.S. Department of Homeland Security, Management Directorate
Washington, DC

Ladies and Gentlemen:

In planning and performing our audit of the consolidated financial statements of the U.S. Department of Homeland Security (DHS or Department), as of and for the year ended September 30, 2015, in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards* issued by the Comptroller General of the United States; and Office of Management and Budget (OMB) Bulletin No. 15-02, *Audit Requirements for Federal Financial Statements*, we considered the Department's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements. In conjunction with our audit of the general purpose financial statements, we also performed an audit of internal control over financial reporting in accordance with attestation standards established by the American Institute of Certified Public Accountants.

The Management Directorate (MGMT) is a component of DHS. During our audit we noted certain matters involving internal control and other operational matters, related to MGMT, that are presented for your consideration. These comments and recommendations, all of which have been discussed with the appropriate members of management, are intended to improve internal control or result in other operating efficiencies. These matters are summarized in the Table of Financial Management Comments. The disposition of each internal control deficiency identified during our FY 2015 audits – as either reported in our *Independent Auditors' Report*, or herein as a financial management letter comment – is presented in Appendix A. Our findings related to information technology systems have been presented in a separate letter to the DHS Office of Inspector General, the MGMT Chief Information Officer and Chief Financial Officer.

Our audit procedures are designed primarily to enable us to form an opinion on the financial statements and on the effectiveness of internal control over financial reporting, and therefore may not bring to light all weaknesses in policies or procedures that may exist. We aim, however, to use our knowledge of MGMT's organization gained during our work to make comments and suggestions that we hope will be useful to you.

We would be pleased to discuss these comments and recommendations with you at any time.

The purpose of this letter is solely to describe comments and recommendations intended to improve internal control or result in other operating efficiencies. Accordingly, this letter is not suitable for any other purpose.

Very truly yours,

KPMG LLP

Financial Management Comments

FMC 15-01 – Statement of Differences (NFR No. MGMT 15-08)

Controls were not properly designed and implemented to effectively resolve reconciling items on the statement of differences reconciliation prepared by the service provider. Specifically, we noted a significant number of reconciling items which were aged greater than 60 days.

Recommendation:

MGMT should develop and implement processes to ensure reconciling items related to the statement of differences reconciliation are cleared timely.

FMC 15-02 – Entity-Level Controls – Performance Reviews (NFR No. MGMT 15-10)

Controls were not operating effectively to ensure Performance Appraisal Forms were reviewed and approved. Specifically, in our review of the Performance Appraisal Forms for 15 employees, we identified one instance in which the initial Performance Work Plan, mid-cycle review, and final Performance Appraisal Review Form were not reviewed and approved by the reviewing official.

Recommendation:

MGMT should develop a process to allow the Office of Human Capital to escalate and enforce existing policies and procedures related to performance reviews.
