**AUDIT OF THE  
U.S. DEPARTMENT OF JUSTICE  
ANNUAL CLOSING PACKAGE  
FINANCIAL STATEMENTS  
FISCAL YEAR 2015\***

**OFFICE OF THE INSPECTOR GENERAL  
EXECUTIVE SUMMARY**

This audit report contains the Closing Package Financial Statements of the U.S. Department of Justice (Department) for the fiscal years (FY) ended September 30, 2015, and September 30, 2014. The Office of the Inspector General (OIG) performed the audit in accordance with auditing standards generally accepted in the United States of America. An unmodified opinion means that the financial statements present fairly, in all material respects, the financial position and the results of the entity's operations in accordance with U.S. generally accepted accounting principles. The FY 2015 audit resulted in an unmodified opinion on the closing package financial statements. For FY 2014, the Department also received an unmodified opinion on its closing package financial statements (OIG Audit Report No. 15-03).

The OIG's FY 2015 closing package auditor's report refers to the report of an other auditor, KPMG LLP, who audited the Department's general-purpose financial statements. KPMG LLP's FY 2015 general-purpose auditors' report refers to the report of an other auditor who audited a Department component, the Federal Bureau of Prisons (BOP). During the FY 2016 audit of the BOP, management identified an error in the BOP's FY 2015 financial statements, and the BOP auditor withdrew its FY 2015 auditor's report. The BOP's FY 2015 financial statements were subsequently restated, and the BOP auditor issued its auditor's report on the restated FY 2015 financial statements. The error was not material to, and therefore was not corrected in, the Department's FY 2015 general-purpose financial statements. Due to the withdrawal of the BOP auditor's FY 2015 report and the subsequent issuance of the BOP auditor's report on the FY 2015 restated financial statements, KPMG LLP updated its auditors' report on the Department's FY 2015 general-purpose financial statements on November 11, 2016. Consequently, the OIG updated its report on the Department's FY 2015 closing package financial statements.

The Department's closing package financial statements were prepared in accordance with Volume I, Part 2 – Chapter 4700 of the U.S. Department of the Treasury's *Treasury Financial Manual*. Its purpose is to assist the U.S. Department of the Treasury in preparing the U.S. Government Financial Report by reclassifying

the Department's general-purpose financial statements into a standard format that will be consolidated with other federal agencies, and by reporting the Department's intragovernmental balances by federal agency to facilitate elimination of transactions between federal agencies.

The Office of the Inspector General did not identify any material weaknesses, nor did it report any significant deficiencies in internal control over financial reporting or instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards* in the *Independent Auditor's Report on Closing Package Financial Statements*.

The OIG is not independent with respect to amounts pertaining to OIG operations that are presented in the financial statements. However, the amounts included for the OIG are not material to the Department's financial statements, and the OIG is organizationally independent with respect to all other aspects of the Department's activities.

## INDEPENDENT AUDITOR'S REPORT ON THE CLOSING PACKAGE FINANCIAL STATEMENTS

United States Attorney General  
U.S. Department of Justice

### **Report on the Closing Package Financial Statements**

We have audited the accompanying Closing Package Financial Statement Report of the U.S. Department of Justice (Department), which comprise the Closing Package Financial Statement Report - Balance Sheet as of September 30, 2015 and 2014, the related Closing Package Financial Statement Reports - Statement of Net Cost and Statement of Changes in Net Position for the years then ended, and the accompanying Financial Report (FR) Notes Report (except for the information in the FR Notes Report entitled "Threshold"); the accompanying Additional Note No. 30; the accompanying Trading Partner Summary Note Report - Balance Sheet as of September 30, 2015 and 2014; and the related Trading Partner Summary Note Report - Statement of Net Cost and Statement of Changes in Net Position for the years then ended (hereinafter referred to as the closing package financial statements).

### **Management's Responsibility for the Closing Package Financial Statements**

Management is responsible for the preparation and fair presentation of these closing package financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the closing package financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on these closing package financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in U.S. *Government Auditing Standards*, issued by the Comptroller General of the United States; and Office of

Management and Budget (OMB) Bulletin No. 15-02, *Audit Requirements for Federal Financial Statements*. Those standards and OMB Bulletin No. 15-02 require that we plan and perform the audit to obtain reasonable assurance about whether the closing package financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the closing package financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the closing package financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the agency's preparation and fair presentation of the closing package financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the agency's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant estimates made by management, as well as evaluating the overall presentation of the closing package financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## **Opinion**

In our opinion, the closing package financial statements referred to above present fairly, in all material respects, the financial position of the U.S. Department of Justice as of September 30, 2015 and 2014, and its net costs and changes in net position for the years then ended, in accordance with U.S. generally accepted accounting principles.

## **Emphasis of Matter**

We draw attention to Additional Note No. 30.b to the closing package financial statements, which describes that the accompanying closing package financial statements were prepared to comply with the requirements of the U.S. Department of the Treasury's *Treasury Financial Manual* (TFM) Volume I, Part 2, Chapter 4700 for the purpose of providing financial information to the U.S. Department of the Treasury and the U.S. Government Accountability Office to use in preparing and auditing the *Financial Report of the U.S. Government*, and are not intended to be a complete presentation of the consolidated balance sheets of the Department as of September 30, 2015 and 2014, and the related consolidated statements of net cost, changes in net position, and combined statements of budgetary resources and custodial activity (hereinafter referred to as "general-purpose financial statements"). Our opinion is not modified with respect to this matter.

## **Other Matters**

### *Opinion on the General-Purpose Financial Statements*

Other auditors have audited, in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Bulletin No. 15-02 the general-purpose financial statements of the Department as of September 30, 2015 and 2014. The other auditors' report thereon, dated November 1 , 201 , expressed an unmodified opinion on those financial statements.

### *Required Supplementary Information and Required Supplementary Stewardship Information*

U.S. generally accepted accounting principles require that the information in Other Data Report Nos. 1, 3 through 9, 14, 17, and 18, except for the information included in the Other Text Data of Other Data Report No. 1; the information in the Other Data Info Section C - Tax Gap of Other Data Report No. 1; and Other Data Report Nos. 1, 8, 9, 14, 17, and 18 entitled "Threshold", (which are discussed below) be presented to supplement the basic closing package financial statements. Such information, although not a part of the basic closing package financial statements, is required by the Federal Accounting Standards Advisory Board, who considers it to be an essential part of financial reporting for placing the basic closing package financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the closing package financial statements, and other knowledge we obtained during our audits of the closing package financial statements, in order to report omissions or material departures from prescribed guidelines, if any, identified by these limited procedures. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted Management's Discussion and Analysis and the Combining Statement of Budgetary Resource that U.S. generally accepted accounting principles require to be presented to supplement the closing package financial statements. Such missing information, although not a part of the closing package financial statements, is required by the Federal Accounting Standards Advisory Board, who considers it to be an essential part of financial reporting for placing the closing package financial statements in an appropriate operational, economic, or historical context. Our opinion on the closing package financial statements is not affected by this missing information.

*Other Information*

Our audit was conducted for the purpose of forming an opinion on the closing package financial statements as a whole. The information in the sections included in the Other Data Report Nos. 2, 10 through 13, 15, and 16; the information included in the Other Data Info Section C – Tax Gap of Other Data Report No. 1; the information included in the Other Text Data of Other Data Report No. 1; the information entitled "Threshold" in Other Data Report Nos. 1, 8, 9, 14, 17, and 18; the information in the sections entitled "Threshold" in the FR Notes Report; the information in the Closing Package Line Reclassification Summary Report - Balance Sheet; the information in the Closing Package Line Reclassification Summary Reports - Statement of Net Cost and Statement of Changes in Net Position; and the information in the Closing Package Line Reclassification Summary Report - Custodial Activity are presented for purposes of additional analysis in accordance with *TFM Chapter 4700* and are not a required part of the closing package financial statements. We read the other information included with the closing package financial statements in order to identify material inconsistencies, if any, with the audited closing package financial statements. Such information has not been subjected to the auditing procedures applied in the audits of the closing package financial statements and, accordingly, we do not express an opinion or provide any assurances on it.

**Restriction on Use of the Report on the Closing Package Financial Statements**

This report is intended solely for the information and use of the management of the Department, the U.S. Department of the Treasury, OMB, and the U.S. Government Accountability Office in connection with the preparation and audit of the *Financial Report of the U.S. Government* and is not intended to be and should not be used by anyone other than these specified parties.

**Other Reporting Required by Government Auditing Standards**

In accordance with U.S. *Government Auditing Standards* and OMB Bulletin No. 15-02, other auditors have also issued reports dated November 1 , 2011 on their consideration of the Department's internal control over financial reporting and the results of our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters that are required to be reported under *Government Auditing Standards*. Those reports are an integral part of an audit performed in accordance with U.S. *Government Auditing Standards* and OMB Bulletin No. 15-02 in considering the Department's internal control and compliance, and should be read in conjunction with this report in considering the results of our audits of the closing package financial statements.

The other auditors' audit of the general-purpose financial statements as of and for the year ended September 30, 2015 disclosed the following significant deficiency:

- Improvements Needed in Financial Statement Preparation and Review Controls

All significant facts pertaining to the matters referred to above, including the required elements of the finding and recommendations are included in the *Independent Auditors' Report on Internal Control over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards*.

### **Internal Control over Financial Reporting Specific to the Closing Package Financial Statements**

In planning and performing our audit of the closing package financial statements as of and for the year ended September 30, 2015 we also considered the Department's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the closing package financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, we do not express an opinion on the effectiveness of Department's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

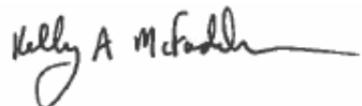

Our consideration of internal control for the closing package financial statements was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

*Compliance and Other Matters Specific to the Closing Package Financial Statements*

As part of obtaining reasonable assurance about whether the Department's closing package financial statements are free from material misstatement, we also performed tests of its compliance with certain provisions of *TFM Chapter 4700*, noncompliance with which could have a material effect on the closing package financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit of the closing package financial statements, and accordingly, we do not express such an opinion. The results of our tests of compliance with *TFM Chapter 4700* disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of the Other Reporting Required by Government Auditing Standards**

The purpose of the communication provided in the Other Reporting Required by *Government Auditing Standards* section is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the agency's internal control or on compliance. This communication is an integral part of an audit performed in accordance with U.S. generally accepted government auditing standards in considering internal control and compliance with provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a material effect on the closing package financial statements. Accordingly, this communication is not suitable for any other purpose.

Line	Question	Answer
1	Describe the nature of the amount in the line item "Other cash - not restricted."	The majority of Other Cash consists of project-generated proceeds from undercover operations.
3	If the cash is restricted because it is non-entity, state the entity for which the cash is being held.	Non-entity assets are not available for use by the Department and consist primarily of restricted undisbursed civil and criminal debt collections, seized cash, accounts receivable, and other monetary assets.
4	Is the reported restricted cash being held in a financial institution? If yes, is it a Treasury-designated bank?	Yes, the restricted cash is held in an approved bank
5	If the agency has restricted cash, is the restricted cash invested? If yes, is it invested in a Bureau of the Fiscal Service security, agency security, and/or non-federal security?"	Yes, the Department has statutory authority to invest seized cash deposited. The cash is invested in securities in Bureau of Fiscal Service.
6	Describe the nature of the amount in the line item "Foreign currency."	N/A
7	Disclose any restrictions on the use (for example, by law, regulation, or agreement) of the amount in the line item "Foreign Currency."	N/A

1	Method used to calculate allowance.	DOJ has established inventory allowances to account for LCM adjustments, excess, obsolete and/or unserviceable inventory that may not be utilized in future periods.
2	Significant accounting principles and methods of applying those principles.	N/A
3	Provide a broad description of foreclosed property.	Inventory is maintained primarily for the manufacture of goods for sale to customers. This inventory is composed of three categories: Raw Materials, Work in process, and Finished Goods. Inventories are valued at the lower average cost or market value (LCM) and include materials, labor and manufacturing overhead. Market value is calculated on the basis of the contractual or anticipated selling price, less allowance for administrative expenses. DOJ values its finished goods and sub assembly items at standard cost that is periodically adjusted to approximate actual cost. DOJ has established inventory allowances to account for LCM adjustments and obsolete items.

Line	Question	Answer
1	Provide the physical quantity information by category for multiluse heritage assets that are included in the "Line Item Notes" tab of this note (SFFAS No. 29, par 25).	Except for land, all general PP&E will be capitalized when the cost of acquiring or improving the property meets a specified threshold (Real Property \$250, Personal Property \$50, Aircraft \$100, Internal Use Software \$5,000) and has a useful life of two or more years. Land is capitalized regardless of the acquisition cost. Except for land, all general PP&E is depreciated or amortized, based on historical cost, using the straight-line method over the estimated useful life of the asset. Land is never depreciated. FPI
2	Provide a general description of what constitutes general PP&E impairment (SFFAS 44, par. 26a).	
3	Provide any other relevant information pertaining to this note and any material changes from the prior fiscal year's depreciation methods and capitalization thresholds. In addition, describe briefly the significant accounting policies pertaining to this note.

1	Provide any other relevant information pertaining to this note. At a minimum, describe briefly the significant accounting policies pertaining to this note.	Investments are market-based Treasury securities issued by the Bureau of Public Debt. When securities are purchased, the investment is recorded at face value (the value at maturity). The Department's intent is to hold investments to maturity, unless the invested funds are needed to sustain operations. No provision is made for unrealized gains or losses on these securities because, in the majority of cases, they are held to maturity.

1	Note: 12	List the applicable laws and regulations covering cleanup requirements as they relate to the activity identified in the audited financial statements.	Per SFFAS No 5, Accounting for Liabilities of the Federal Government, SFFAS No 6 Accounting for Property, Plant, and Equipment , and Technical Release No. 2 Determining Probable and Reasonably estimable for environmental Liabilities in the federal government, technical Guidance on Environmental Liabilities in the federal government, technical Release No. 10, Implementation Guidance on Asbestos cleanup cost Associated with facilities and installed Equipment, and Technical Release No. 11, Implementation Guidance on Cleanup Cost Associated with Equipment, Federal agencies required to recognized liabilities for environmental clean-up costs when the future outflow or sacrifice of resources is probable and reasonably estimable.		
2	Entity: 1500	Provide a description of the type of environmental and disposal liabilities identified.	The Bureau of Prisons (BOP) operated firing ranges on 67 of the sites where its institutions are located. Use of these firing ranges generated wastes consisting primarily of lead shots and spent rounds from rifles, shotguns, pistols, and automatic weapons. The Federal Bureau of Investigation (FBI) owned range in Quantico and El Toro contain possible contamination. In addition, BOP and the FBI recognized the estimated total cleanup cost for friable and non-friable asbestos for some of their facilities.		
3	Status: Complete	Provide any other relevant information pertaining to this note. At a minimum, describe briefly the significant accounting policies pertaining to this note.	For FBI total firing range liability is based on the estimated costs to conduct a RI/FS, site sampling, and sample analysis at both range facilities in order to determine if contamination is present and what the potential future environmental impacts would be.		
			For FBI asbestos liability is based on the square footage of the facilities that may be contaminated. This value, divided by the useful life and multiplied by the number of years in service, less current year abatements and adjusted for inflation, is the estimated cleanup liability.

2	Provide the TAS for all funds with fiduciary activities.	For any cash included in the Schedules of Fiduciary Net Assets, indicate if the cash is represented by balances on deposit with either the U.S. Treasury or with a commercial banking institution (SSFAS No. 31, par. 12).			
3	Provide a description of any cash equivalents included in the Schedules of Fiduciary Net Assets.	If separate audited financial statements are issued for an individual fiduciary activity with a fiscal year end other than September 30, indicate the fiduciary activity's FY (SFFAS No. 31, par. 18(e)).			
4	If separate audited financial statements are issued for an individual fiduciary activity with a fiscal year end other than September 30, indicate the fiduciary activity's FY (SFFAS No. 31, par. 18(e)).	If separate audited financial statements are issued for an individual fiduciary activity, disclose the basis of accounting used and the auditor's opinion on the current or most recent financial statements. If the auditor's opinion was not unqualified, disclose the reason(s) stated by the auditors and refer the reader to the audit opinion for further information (SFFAS No. 31, par. 22(a)).			
5		If separate audited financial statements are issued for an individual fiduciary activity, provide information on how the reader can obtain a copy of the financial statements and the audit opinion thereon (SFFAS No. 31, par. 22(b)).			
6		If more than one agency is responsible for administering a fiduciary activity, and the separate portions of the activity can be clearly identified with another responsible agency, identify the other agency(ies) involved in managing the activity (SFFAS No. 31, par. 19).			
7		Provide any other relevant information pertaining to this note. At a minimum, describe briefly the significant accounting policies pertaining to this note.

**Additional Note 30 - Summary of Significant Accounting Policies**

**A. Reporting Entity**

The Department of Justice (Department) has a wide range of responsibilities which include: detecting, apprehending, prosecuting, and incarcerating criminal offenders; operating federal prison factories; upholding the civil rights of all Americans; enforcing laws to protect the environment; ensuring healthy competition of business in the United States' free enterprise system; safeguarding the consumer from fraudulent activity; carrying out the immigration laws of the United States; and representing the American people in all legal matters involving the U.S. Government. Under the direction of the Attorney General, these responsibilities are discharged by the components of the Department.

For purposes of these consolidated financial statements, the following components comprise the Department's reporting entity:

- Assets Forfeiture Fund and Seized Asset Deposit Fund (AFF/SADF)
- Offices, Boards and Divisions (OBDs)
- U.S. Marshals Service (USMS)
- Office of Justice Programs (OJP)
- Drug Enforcement Administration (DEA)
- Federal Bureau of Investigation (FBI)
- Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF)
- Federal Bureau of Prisons (BOP)
- Federal Prison Industries, Inc. (FPI)

**B. Basis of Presentation**

The Budget and Accounting Procedures Act of 1950 allows the Secretary of the Treasury to stipulate the format and requirements of executive agencies to furnish financial and operational information to the President and the Congress to comply with the Government Management Reform Act of 1994 (GMRA) (Pub. L. No. 103-356), which requires the Secretary of the Treasury to prepare and submit annual audited financial statements of the executive branch.

**B. Basis of Presentation (Continued)**

The Secretary of the Treasury developed guidance in the U.S. Department of the Treasury's Treasury Financial Manual (TFM) Volume I, Part 2, Chapter 4700 to provide agencies with instructions to meet the requirements of GMRA. The *TFM Chapter 4700* requires agencies to:

1. Reclassify all line items and amounts on the comparative audited consolidated, department-level balance sheets, statements of net cost, statements of changes in net position, and statement of custodial activity, to the closing package financial statements;
2. List closing package financial statement line item amounts identified as Federal by trading partner and amount;
3. Report notes information that is based on the Reclassified Balance Sheet line items and other notes information required to meet FASAB standards; and
4. Report other data information that is not based on the Reclassified Balance Sheet line items and other data noted information required to meet FASAB standards.

These financial statements have been prepared from the books and records of the Department in accordance with United States generally accepted accounting principles issued by the Federal Accounting Standards Advisory Board (FASAB) and presentation guidelines in the U.S. Department of the Treasury's Treasury Financial Manual (TFM) Volume I, Part 2, Chapter 4700. The accompanying financial statements include the accounts of all funds under the Department's control.

**C. Basis of Consolidation**

The consolidated financial statements of the Department include the accounts of the AFF/SADF, ATF, BOP, DEA, FBI, FPI, OBDs, OJP and USMS. All significant proprietary intra-departmental transactions and balances have been eliminated in consolidation.

**D. Basis of Accounting**

Transactions are recorded on the accrual basis of accounting. Under the accrual basis, revenues are recorded when earned and expenses are recorded when incurred, regardless of when cash is exchanged.

Custodial activity reported on the Consolidated Statements of Changes in Net Position is prepared on the modified cash basis. Civil and Criminal Debt Collections are recorded when the Department receives payment from debtors. Accrual adjustments are made related to collections of fees and licenses.

The financial statements should be read with the realization that they are for a component of the U.S. Government, a sovereign entity. One implication of this is that liabilities cannot be liquidated without legislation that provides resources and legal authority to do so.

**E. Non-Entity Assets**

Non-entity assets are not available for use by the Department and consist primarily of restricted undisbursed civil and criminal debt collections, seized cash, accounts receivable, and other monetary assets.

**F. Fund Balance with U.S. Treasury and Cash**

Funds with the Department of the Treasury (Treasury) represent primarily appropriated, revolving, and trust funds available to pay current liabilities and finance future authorized purchases. The Treasury, as directed by authorized certifying officers, processes cash receipts and disbursements. The Department does not, for the most part, maintain cash in commercial bank accounts. Certain receipts, however, are processed by commercial banks for deposit into individual accounts maintained at the Treasury. The Department's cash and other monetary assets consist of undeposited collections, imprest funds, cash used in undercover operations, cash held as evidence, and seized cash.

**G. Investments**

Investments are market-based Treasury securities issued by the Bureau of Public Debt. When securities are purchased, the investment is recorded at face value (the value at maturity). The Department's intent is to hold investments to maturity, unless the invested funds are needed to sustain operations. No provision is made for unrealized gains or losses on these securities because, in the majority of cases, they are held to maturity. The market value of the investments is the current market value at the end of the reporting period. It is calculated by using the "End of Day" price listed in The FedInvest Price File which can be found on the Bureau of Public Debt website (<http://www.fedinvest.gov/>). Investments are reported on the Consolidated Balance Sheets at their net value, the face value plus or minus any unamortized premium or discount. Premiums and discounts are amortized over the life of the Treasury security. The interest method is used for the amortization of premium and discount of Treasury notes and the straight-line method is used for Treasury bills. Amortization is based on the straight-line method over the term of the securities.

The amount of investments made by the Department's deposit funds were reclassified to Federal Investments on the Closing Package Balance Sheet, and the liability for those funds provided by the public are reported as "Other Liabilities (without reciprocals)".

The AFF, the U.S. Trustee System Fund, and the Federal Prison Commissary Fund are three Funds from Dedicated Collections that invest in Treasury securities. The Treasury does not set aside assets to pay future expenditures associated with funds from dedicated collections. Instead, the cash generated from Funds from Dedicated Collections is used by the Treasury for general government purposes. When these funds redeem their Treasury securities to make expenditures, the Treasury will finance the expenditures in the same manner that it finances all other expenditures.

Treasury securities are issued to the funds as evidence of fund receipts and provide the funds with the authority to draw upon the U.S. Treasury for future authorized expenditures. Treasury securities held by funds from dedicated collections are an asset of the fund and a liability of the Treasury, so they are eliminated in consolidation for the U.S. Government-wide financial statements.

**H. Accounts Receivable**

Net accounts receivable includes reimbursement and refund receivables due from federal agencies and the public, less the allowance for doubtful accounts. Generally, most intragovernmental accounts receivable are considered fully collectible. The allowance for doubtful accounts for public receivables is estimated based on past collection experience and analysis of outstanding receivable balances at year end.

**I. Inventory and Related Property**

Inventory is maintained primarily for the manufacture of goods for sale to customers. This inventory is composed of three categories: Raw Materials, Work in Process, and Finished Goods. Raw material inventory value is based upon moving average costs. Inventories are valued at the lower of average cost or market value (LCM) and include materials, labor and manufacturing overhead. Market value is calculated on the basis of the contractual or anticipated selling price, less allowance for administrative expenses. DOJ values its finished goods and sub-assembly items at a standard cost that is periodically adjusted to approximate actual cost. DOJ has established inventory allowances to account for LCM adjustments and obsolete items that may not be utilized in future periods.

Forfeited property is property for which the title has passed to the U.S. Government. This property is recorded at the estimated fair market value at the time of forfeiture and is not adjusted for any subsequent increases and decreases in estimated fair market value. The value of the property is reduced by the estimated liens of record.

Seized property is property that the government has taken possession of in consequence of a violation of public law. Seized property can include monetary instruments, real property, and tangible personal property of others in the actual or constructive possession of the custodial agency. Most non-cash property is held by the USMS from the point of seizure until its disposition. This property is recorded at the estimated fair market value at the time of seizure and is not adjusted for any subsequent increases and decreases in estimated fair market value.

Additional inventories consist of new and rehabilitated office furniture, equipment and supplies used for the repair of airplanes, administrative supplies and materials, commissary sales to inmates (sundry items), metals, plastics, electronics, graphics, and optics.

**J. General Property, Plant and Equipment**

DOJ Financial Management Policy Memorandum (FMPM) 13-12, *Capitalization of General Property, Plant, and Equipment and Internal Use Software*, was issued in FY 2013 with an effective date for reporting periods ending after September 30, 2014. Early implementation of the policy's increased capitalization thresholds were encouraged beginning October 1, 2012. Full implementation was required for all DOJ components by the beginning of FY 2015. In FY 2015, the BOP was granted a waiver to DOJ's Policy Statement 1400.06 (which replaced FMPM 13-12) which allows the BOP authority to maintain their real property threshold. The table below illustrates which portions of the new policy were implemented in fiscal year 2015 and which portions were implemented early.

Department Component	FY 2015				Early Implementation			
	Real Property	Personal Property	Aircraft	Internal Use Software	Real Property	Personal Property	Aircraft	Internal Use Software
Assets Forfeiture Fund (AFF)					✓	✓	✓	✓
Offices, Boards, and Divisions (OBDs)					✓	✓	✓	✓
United States Marshals Service (USMS)					✓	✓	✓	✓
Office of Justice Programs (OJP)					✓	✓	✓	✓
Drug Enforcement Administration (DEA)					✓	✓	✓	✓
Federal Bureau of Investigation (FBI)					✓	✓	✓	✓
Alcohol, Tobacco, and Firearms (ATF)					✓	✓	✓	✓
Bureau of Prisons (BOP)	N/A	✓	✓					✓
Federal Prison Industries, Inc. (FPI)	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A

For financial statement purposes, the primary changes relate to the capitalization thresholds for real property, including leasehold improvements; personal property; and internal use software which results in a decrease to the overall general PP&E balance.

In FY 2015, the BOP was granted a waiver from increasing the capitalization threshold for real property, resulting in the capitalization threshold for real property remaining at \$100.

Federal Prison Industries, Inc., as a revolving fund, is exempt from FMPM 13-12, which states that "Revolving Funds, Working Capital Funds, and Trust Fund entities may establish their own thresholds on the capitalization of general PP&E, and IUS projects." These thresholds must not conflict with FMPM 13-12, but may be more restrictive, at the discretion of the entity.

Appropriation funded projects must comply with the capitalization thresholds outlined in FMPM 13-12, as listed below.

Type of Property	New Capitalization Threshold	Old Capitalization Threshold
Real Property	\$ 250	\$ 100
Personal Property	\$ 50	\$ 25
Aircraft	\$ 100	\$ 100
Internal Use Software	\$ 5,000	\$ 500

**J. General Property, Plant and Equipment (Continued)**

Except for land, all general PP&E will be capitalized when the cost of acquiring or improving the property meets the threshold noted in the table above and has a useful life of two or more years. Land is capitalized regardless of the acquisition cost. Except for land, all general PP&E is depreciated or amortized, based on historical cost, using the straight-line method over the estimated useful life of the asset. Land is never depreciated. FPI capitalizes personal property acquisitions over \$10.

**K. Advances to Others and Prepayments**

Advances and prepayments, classified as assets on the Consolidated Balance Sheets, consist primarily of funds disbursed to grantees in excess of total expenditures made by those grantees to third parties, funds advanced to state and local participants in the DEA Domestic Cannabis Eradication and Suppression Program, and travel advances issued to federal employees for official travel. Travel advances are limited to meals and incidental expenses expected to be incurred by the employees during official travel. Payments in advance of the receipt of goods and services are recorded as prepaid charges at the time of payment and are recognized as expenses when the goods and services are received.

**L. Liabilities**

Liabilities represent the monies or other resources that are likely to be paid by the Department as the result of a transaction or event that has already occurred. However, no liability can be paid by the Department absent proper budget authority. Accrued payroll and benefits are accrued based on the number of days in a pay period earned but not paid to employees at the end of the fiscal year.

**M. Grant Payments Due to State and Local Governments and Others**

Disbursements of grant funds are recognized as expenses at the time of disbursement. However, some grant recipients incur expenditures prior to initiating a request for disbursement based on the nature of the expenditures. The OBDs and OJP accrue a liability for expenditures incurred by grantees prior to receiving grant funds for expenditures. The amount to be accrued is determined through an analysis of historic grant expenditures. These estimates are based on the most current information available at the time the financial statements are prepared.

Estimates for the grant accrual contain assumptions that have an impact on the financial statements. The key assumptions used in the grant accrual are: grantees have consistent spending patterns throughout the life of the grant, grantees will drawdown throughout the life of the grant, and the grant has a determined end date. The primary elements of these assumptions include, but are not limited to, type of grant that has been awarded, grant period, accounting basis used by the grantees, and the grant expenditure rate.

**N. Contingencies and Commitments**

The Department is involved in various administrative proceedings, legal actions, and claims. The Consolidated Balance Sheets include an estimated liability for those legal actions where management and the Chief Counsel consider adverse decisions “probable” and amounts are reasonably estimable. Legal actions where management and the Chief Counsel consider adverse decisions “probable” or “reasonably possible” and the amounts are reasonably estimable are disclosed in Note 18. However, there are cases where amounts have not been accrued or disclosed because the amounts of the potential loss cannot be estimated or the likelihood of an unfavorable outcome is considered “remote”.

**O. Annual, Sick, and Other Leave**

Annual and compensatory leave is expensed with an offsetting liability as it is earned and the liability is reduced as leave is taken. Each year, the balance in the accrued annual leave liability account is adjusted to reflect current pay rates. To the extent current or prior year appropriations are not available to fund annual and compensatory leave earned but not taken, funding will be obtained from future financing sources. Sick leave and other types of nonvested leave are expensed as taken.

**P. Interest on Late Payments**

Pursuant to the Prompt Payment Act, 31 U.S.C. § 3901-3907, the Department pays interest on payments for goods or services made to business concerns after the due date. The due date is generally 30 days after receipt of a proper invoice or acceptance of the goods or services, whichever is later.

**Q. Retirement Plan**

With few exceptions, employees of the Department are covered by one of the following retirement programs:

1. Employees hired before January 1, 1984, are covered by the Civil Service Retirement System (CSRS). For employees covered by CSRS, the Department contributes 7% of the employees' gross pay for regular and 7.5% for law enforcement officers' retirement.
2. Employees hired January 1, 1984 or later, are covered by the Federal Employees Retirement System (FERS).
  - a. Employees hired January 1, 1984 through December 31, 2012, are covered by FERS. The Department contributes 13.2% of the gross pay for regular employees and 28.8% for law enforcement officers.

**Q. Retirement Plan (Continued)**

- b. Employees hired January 1, 2013 through December 31, 2013, are covered by the Federal Employees Retirement System-Revised Annuity Employees (FERS-RAE). The Department contributes 11.1% of the gross pay for regular employees and 26.5% for law enforcement officers.
- c. Employees hired January 1, 2014 or later are covered by the Federal Employees System-Further Revised Annuity Employees (FERS-FRAE). The Department contributes 11.1% of the gross pay for regular employees and 26.5% for law enforcement officers.

**R. Federal Employee Compensation Benefits**

The FECA provides income and medical cost protection to covered federal civilian employees injured on the job, employees who have incurred a work-related occupational disease, and beneficiaries of employees whose death is attributable to a job-related injury or occupational disease. The total FECA liability consists of an actuarial and an accrued portion as discussed below.

**Actuarial Liability:** The Department of Labor (DOL) calculates the liability of the federal government for future compensation benefits, which includes the expected liability for death, disability, medical, and other approved costs. This method utilizes historical benefit payment patterns related to a specific incurred period to predict the ultimate payments related to that period. The projected annual benefit payments are discounted to present value. The resulting federal government liability is then distributed by agency. The Department's portion of this liability includes the estimated future cost of death benefits, workers' compensation, medical, and miscellaneous cost for approved compensation cases for the Department employees. The Department liability is further allocated to component reporting entities on the basis of actual payments made to the FECA Special Benefits Fund (SBF) for the three prior years as compared to the total Department payments made over the same period.

The FECA actuarial liability is recorded for reporting purposes only. This liability constitutes an extended future estimate of cost, which will not be obligated against budgetary resources until the fiscal year in which the cost is actually billed to the Department. The cost associated with this liability cannot be met by the Department without further appropriation action.

**Accrued Liability:** The accrued FECA liability is the amount owed to the DOL for the benefits paid from the FECA SBF directly to Department employees.

**S. Intragovernmental Activity**

Intragovernmental costs and exchange revenue represent transactions made between two reporting entities within the federal government. Costs and earned revenues with the public represent exchange transactions made between the reporting entity and a non-federal entity. The classification of revenue or cost as “intragovernmental” or “with the public” is defined on a transaction-by-transaction basis. The purpose of this classification is to enable the federal government to prepare consolidated financial statements, not to match public and intragovernmental revenue with the costs incurred to produce public and intragovernmental revenue.

**T. Revenues and Other Financing Sources**

The Department receives the majority of funding needed to support its programs through Congressional appropriations. The Department receives annual, multi-year, and no-year appropriations that may be used, within statutory limits, for operating and capital expenditures. Additional funding is obtained through exchange revenues, nonexchange revenues, and transfers-in.

Appropriations Used are recognized as budgetary financing sources at the time the related program or administrative expenses are incurred. Exchange revenues are recognized when earned, for example, when goods have been delivered or services rendered. Nonexchange revenues are resources that the Government demands or receives, for example, forfeiture revenue and fines and penalties.

The Department’s exchange revenue consists of the following activities: licensing fees to manufacture and distribute controlled substances; services rendered for legal activities; space management; data processing services; sale of merchandise and telephone services to inmates; sale of manufactured goods and services to other federal agencies; and other services. Fees are set by law and are periodically evaluated in accordance with OMB guidance.

The Department’s nonexchange revenue consists of forfeiture income resulting from the sale of forfeited property, penalties in lieu of forfeiture, recovery of returned asset management cost, judgment collections, and other miscellaneous income. Other nonexchange revenue includes the OJP Crime Victims Fund receipts, ATF fees from firearms and ammunition industries, and AFF/SADF interest on investments with the Treasury.

The Department’s deferred revenue includes licenses with DEA that are valid for multiple years. These monies are recorded as liabilities in the financial statements. Deferred revenue also includes forfeited property held for sale. When the property is sold, deferred revenue is reversed and forfeiture revenue in the amount of the gross proceeds of the sale is recorded.

**U. Funds from Dedicated Collections**

SFFAS No. 27, *Identifying and Reporting Earmarked Funds*, as amended by SFFAS 43, *Funds from Dedicated Collections: Amending Statement of Federal Financial Accounting Standards 27, Identifying and Reporting Earmarked Funds* (SFFAS No. 27, as amended), defines ‘Funds from Dedicated Collections’ as being financed by specifically identified revenues, provided to the government by non-federal sources, often supplemented by other financing sources, which remain available over time. These specifically identified revenues and other financing sources are required by statute to be used for designated activities, benefits or purposes, and must be accounted for separately from the Government’s general revenues. The three required criteria for a fund from dedicated collections are:

1. A statute committing the federal government to use specifically identified revenues and/or other financing sources that are originally provided to the federal government by a non-federal source only for designated activities, benefits or purposes;
2. Explicit authority for the funds to retain revenues and/or other financing sources not used in the current period for future use to finance the designated activities, benefits, or purposes; and
3. A requirement to account for and report on the receipt, use, and retention of the revenues and other financing sources that distinguishes the fund from the federal government’s general revenues.

The following funds meet the definition of a fund from dedicated collections: AFF, U.S. Trustee System Fund, Antitrust Division, Crime Victims Fund, Diversion Control Fee Account, and Federal Prison Commissary Fund.

**V. Allocation Transfer of Appropriation**

The Department is a party to allocation transfers with other federal agencies as a transferring (parent) entity and/or a receiving (child) entity. Allocation transfers are legal delegations by one department of its authority to obligate budget authority and outlay funds to another department. Generally, all financial activity related to these allocation transfers (e.g., budget authority, obligations, outlays) is reported in the financial statements of the parent entity, from which the underlying legislative authority, appropriations, and budget apportionments are derived. Two exceptions to this general rule affecting the Department include the funds transferred from the Judicial Branch to the USMS, and funds transferred from the Executive Office of the President to OJP. Per OMB's guidance, USMS and OJP report all activity relative to these allocation transfers in the respective financial statements.

The activity related to these transfers, included as part of these financial statements, is highlighted below:

OJP, as the parent, transfers funds from the Crime Victims Fund to the Department of Health and Human Services (HHS). This transfer is required by 42 U.S.C. §10603a {Sec. 14-4A} for *Child Abuse Prevention and Treatment Grants*. Amounts made available by section §10601(d) (2) of this title, for the purposes of this section, are to be obligated and expended by the Secretary of HHS for grants under section §5106c of this title.

OJP receives, as a child entity, allocation transfers of appropriations from the Executive Office of the President. This transfer is authorized by P.L. 111-117 and P.L. 112-74. Per OMB guidance OJP reports all budgetary and proprietary activity for *Do Right by Youth Pilot* transferred from the Executive Office of the President to OJP.

The Department also allocated funds from BOP, as the parent, to the Public Health Service (PHS), a primary division of the Department of Health and Human Services. PHS provides a portion of medical treatment for federal inmates. The money is designated and expended for current year obligation of PHS staff salaries, benefits, and applicable relocation expenses.

USMS, as the child, receives allocation transfers of appropriation from the Administrative Office of the U.S. Courts. The allocation transfers are used for costs associated with protective guard services - Court Security Officers at United States courthouses and other facilities housing federal court operations. These costs include their salaries (paid through contracts), equipment, and supplies. This transfer is performed on an annual basis. Per OMB guidance, the USMS reports all budgetary and proprietary activity transferred from the Administrative Office of the U.S. Courts to the USMS.

**W. Tax Exempt Status**

As an agency of the federal government, the Department is exempt from all income taxes imposed by any governing body whether it is a federal, state, commonwealth, local, or foreign government.

**X. Use of Estimates**

The preparation of financial statements requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

**Y. Reclassifications**

The FY 2014 financial statements were reclassified to conform to the FY 2015 Departmental financial statement presentation requirements. The reclassifications have no material effect on total assets, liabilities, net position, change in net position, or custodial activity as previously reported.

**Z. Subsequent Events**

Subsequent events and transactions occurring after September 30, 2015 through the date of the auditors' opinion have been evaluated for potential recognition or disclosure in the financial statements. The date of the auditors' opinion also represents the date that the financial statements were available to be issued. On December 18, 2015, the U.S. Congress passed the Consolidated Appropriations Act of 2016. Two significant provisions of this law were: (1) the creation of the Victims of State Sponsored Terrorism Fund, funded primarily by a \$1.025 billion appropriation beginning in FY 2017, that provided compensation to individuals who are injured as a result of an international act of terrorism by a state sponsor of terrorism, and (2) the reauthorization of the September 11th Victim Compensation Fund of 2011 that extended the September 11th Victim Compensation Fund for five years, extended the claim filing deadline to December 18, 2020, and increased the total funding amount provided by Congress to cover claims by an additional \$4.6 billion, available in FY 2017.
