PROGRAM DESCRIPTIONS

The programs funded under the Safe and Drug-Free Schools and Communities (SDFSC) Act comprise the only Department of Education programs included in the national drug control budget in fiscal year 2012. The SDFSC program provides funding for drug prevention programs and activities that support the *National Drug Control Strategy*, in addition to efforts designed to prevent school violence. Under the SDFSC Act, funds are authorized to be appropriated for State Grants and for National Programs.

SDFSC State Grants

Under the program statute SDFSC State Grant funds are allocated by formula to States and Territories, half on the basis of school-aged population and half on the basis of each State's share, for the prior year, of Federal funds for "concentration grants to local educational agencies (LEAs) for improving the academic achievement of disadvantaged students" under section 1124A of Title I of the Elementary and Secondary Education Act (ESEA). Governors receive 20 percent, and State educational agencies (SEAs) 80 percent, of each State's allocation (unless a Governor elects to delegate administrative responsibility to the SEA for some or all of the 20 percent). SEAs are required to subgrant at least 93 percent of their allocations to LEAs; these subgrants are based 60 percent on LEA shares of prior-year funding under Part A of title I of the ESEA and 40 percent on enrollment. LEAs may use their SDFSC State Grant funds for a wide variety of activities to prevent or reduce violence and delinquency and the use, possession, and distribution of illegal drugs, and thereby foster a safe and drug-free learning environment that supports academic achievement. Governors may use their funds to award competitive grants and contracts to LEAs, community-based organizations, and other public and private organizations for activities to create and maintain safe, orderly, and drug-free schools and communities through programs and activities that complement and support activities of LEAs.

Note: Funding for SDFSC State Grant program was last appropriated in fiscal year 2009. The Department's 2009 appropriations act provided that the 2009 SDFSC State Grant funds may remain available for obligation at the Federal level through September 30, 2010, and the Department's last obligation of those funds was in fiscal year 2010. No SDFSC State Grant funds were obligated by the Department in fiscal year 2012, and no SDFSC State Grant funds are included in the resource summary table of this report.

SDFSC National Programs

SDFSC National Programs authorizes funding for several programs and activities to help promote safe and drug-free learning environments for students and address the needs of troubled or at-risk youth, including Federal Activities (a broad discretionary authority that permits the Secretary to carry out a wide variety of activities designed to prevent the illegal use of drugs and violence among, and promote safety and discipline for, students), and an Alcohol Abuse Reduction Program to assist school districts in implementing innovative and effective programs to reduce alcohol abuse in secondary schools. Within Federal Activities, SDFSC National Programs also authorizes: (1) Project SERV (School Emergency Response to Violence), which is a crisis response program that provides education-related services to LEAs and institutions of higher education in which the learning environment has been disrupted due to a violent or traumatic crisis), and (2) School Emergency Preparedness initiatives. Although the Department obligated funds for both of these activities in fiscal year 2012, as explained in the discussion of drug budget methodology below, funds for these two components of SDFSC National Programs are not included in the ONDCP drug budget and, therefore, they are not included in this obligations report.

Note: Funding for the Alcohol Abuse Reduction program was last appropriated in fiscal year 2011. Under the Department's 2011 appropriations act the 2011 Alcohol Abuse Reduction funds were available for obligation at the Federal level through September 30, 2011. No Alcohol Abuse Reduction funds were obligated by the Department in fiscal year 2012, and no Alcohol Abuse Reduction funds are included in the resource summary table of this report.

DISCLOSURES

Drug Methodology

This accounting submission includes all fiscal year 2012 obligations of funds under the Safe and Drug-Free Schools and Communities (SDFSC) Act, with the exception of those SDFSC National Programs that have no clear drug control nexus. Accordingly, the amounts in the enclosed table of prior-year drug control obligations include all funding for SDFSC National Programs, with the exclusion of obligations of funds for (1) Project SERV (School Emergency Response to Violence) and (2) School Emergency Preparedness Initiatives.

Obligations by Drug Control Function

All obligations of funds for the SDFSC program shown in the table on page 2 of this report fall under the ONDCP drug control function category of prevention — the same functional category under which the budgetary resources for the SDFSC program are displayed for the Department of Education in the annual *National Drug Control Budget Summary* issued by ONDCP that accompanies the President's budget and in the *National Drug Control Strategy*.

Obligations by Budget Decision Unit

All obligations of drug control funds in the table on page 2 of this report are displayed using the SDFSC program as the budget decision unit — the same decision unit under which the 2012 budgetary resources for the Department of Education are displayed by ONDCP in the *FY 2013 Budget Summary* that accompanied the 2013 President's budget in support of the *National Drug Control Strategy*.

Methodology Modifications

The Department does not have any drug control budget methodological modifications to disclose.

Material Weaknesses or Other Findings

The Department does not have any material weaknesses to disclose that affect the presentation of fiscal year 2012 drug-related obligations in this report. All other known weaknesses that affect the presentation of drug-related obligations in this report are explained in the disclosures below.

Reprogrammings or Transfers

There were no reprogrammings or transfers of drug-related budgetary resources in the Department of Education in fiscal year 2012.

Other Disclosures

The Department acknowledges the following limitation in the methodology described above for deriving the obligations of fiscal year 2012 drug control funds attributable to the SDFSC program: Although the budgetary resources in this report include 100 percent of obligations for SDFSC Federal Activities (exclusive of Project SERV and School Emergency Preparedness Initiatives), not all obligations of funds included in the resource summary of this report support drug prevention activities — some of these funds support violence prevention and school safety activities that have no drug control-related nexus.

ASSERTIONS

Obligations by Decision Unit

The fiscal year 2012 obligations of drug control funds shown in this report for the SDFSC drug budget decision unit are the actual 2012 obligations of funds from the Department's accounting system of record for the SDFSC program.

Drug Methodology

The methodology used to calculate the fiscal year 2012 obligations of drug prevention funds presented in this report is reasonable and accurate, because: (1) the methodology captures all of the obligations of funds under the SDFSC program that reasonably have a drug control-related nexus, and (2) these obligations of funds correspond directly to the display of resources for the SDFSC program in the Department's budget justifications to Congress that accompany the President's budget.

Data

No workload or other statistical information was applied in the methodology used to generate the fiscal year 2012 obligations of drug control funds presented in the table on page 2 of this report.

Other Estimation Methods

Where assumptions based on professional judgment were used as part of the drug methodology, the association between these assumptions and the drug control obligations being estimated is thoroughly explained and documented in the drug methodology disclosure on page 3 and in the other disclosures on page 4 of this accounting report.

Financial Systems

Financial systems supporting the drug methodology yield data that fairly present, in all material respects, aggregate obligations from which the drug-related obligation estimates are derived.

Application of Drug Methodology

The methodology disclosed in the narrative of this report was the actual methodology used to generate the fiscal year 2012 obligations of drug control funds presented in the table on page 2.

Reprogrammings or Transfers

There were no reprogrammings or transfers of Department of Education drug control funds in fiscal year 2012. However, subsequent to ONDCP's approval of the Department's fiscal year 2012 financial plan, the Department reallocated a total of \$1,207,074 within SDFSC National Programs to School Emergency Preparedness initiatives, thereby reducing the amount of the Department's drug control budgetary resources (relative to the plan) by \$1,207,074.

Fund Control Notices

The Director of ONDCP has never issued to the Department of Education any Fund Control Notices under 21 U.S.C. 1703(f) or the applicable ONDCP Circular, *Budget Execution*. Therefore, the required assertion that the data presented in this report accurately reflect obligations of drug control funds that comply with all such Fund Control Notices is not applicable.

AUDIT SERVICES

Office of Inspector General's Independent Report on the U.S. Department of Education's
Detailed Accounting of Fiscal Year 2012 Drug Control Funds, dated January 28, 2013

We have reviewed management's assertions contained in the accompanying *Detailed Accounting of Fiscal Year 2012 Drug Control Funds*, dated January 28, 2013 (Accounting). The U.S. Department of Education's management is responsible for the Accounting and the assertions contained therein.

Our review was conducted in accordance with generally accepted government auditing standards for attestation review engagements. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion.

We performed review procedures on the "Table of Prior Year Drug Control Obligations," "Disclosures," and "Assertions" contained in the accompanying Accounting. We did not review the "Program Descriptions" contained in the accompanying Accounting. In general, our review procedures were limited to inquiries and analytical procedures appropriate for our review engagement.

Based on our review, nothing came to our attention that caused us to believe that management's assertions, contained in the accompanying Accounting, are not fairly stated in all material respects, based upon the Office of National Drug Control Policy Circular: *Drug Control Accounting*, dated May 1, 2007.
